Director, Division of Commission Clerk and Administrative Services
Florida Public Service Commission

Re: Approval of Two Amendments to the Interconnection, Unbundling, Resale, and Collocation Agreement Negotiated by BellSouth Telecommunications, Inc. ("BellSouth") and Network Telephone Corporation pursuant to Sections 251, 252 and 271 of the Telecommunications Act of 1996

Dear Mrs. Bayo:

Pursuant to section 252(e) of the Telecommunications Act of 1996, BellSouth and Network Telephone Corporation are submitting to the Florida Public Service Commission two amendments to their negotiated agreement for the interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to Network Telephone Corporation. The initial agreement between the companies was filed in FPSC Docket No. 010880-TP.

Pursuant to section 252(e) of the Act, the Commission is charged with approving or rejecting these amendments to the negotiated agreement between BellSouth and Network Telephone Corporation within 90 days of its submission. The Act provides that the Commission may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity. Both parties agree that neither of these reasons exists as to the agreement they have negotiated and therefore, as such these amendments should be deemed effective by operation of law on January 23, 2003.

Very truly yours,

Regulatory Vice President

(W M)
