Attn: Director

In Re of Aqua Source water request
to switch over to Philadelphia Suburban Corp.
My Vote is definitely "NO". My address in
Florida is George C Wehmeyer - 5313 So West
69th St - Gainesville (Alachua Co) FL - 32608

I am crowding age 70 - Disabled
and trying to make ends meet on \$761.00
Social Security also diabetic - I have contacted
Aqua Source several times where as I should
be eligible for a lower rate vacation type
rate as I am not there from May thru
December - Not one drop of water used
but they are sticking me with over \$15.00
monthly - I have asked for discount
rate - They say I must pay there or not,
if I want water - There are several
vacant lots in Arredondo that don't pay
a dime but they claim every lot is paying
and I must too if I want water access.
I have been told your board has
given them the right to do this plus
raising rates - I need help please see what
YOU CAN DO!

Since Aqua has taken over it has been a continuous program of mathematical mistakes - Overcharges - False meter readings and above all worlds worst customer service dept. I have billed from Texas - Florida Pittsburg Pa others to numerous to mention and now they want to switch around again I think they better worry more about the Florida area they now have instead of buying up all the water rights to built there water black market empire!

I have all the documentation and evidence to prove what I just told and I finally had to threaten with a attorney and a trip out there to your City and County halls to get any results and settlements - I also checked others out there who pays there bill when it comes and found out they were billed a much higher meter reading the they actually used - Please check these crooks out! Appreciate it if you could get me and other poor seasonal people a better rate. Would like to hear back from you! My address.
