Concise explanation, justification or comments (attach additional sheet if necessary):

FPL has indicated in its petition of 2/17/03 that, based on current actual and projected data, it projects it will underrecover fuel and purchased power costs by greater than 10 percent in 2003, which is the materiality threshold for this Commission to consider revising its fuel factors. The utility states in its petition that it would be appropriate and in the best interest of its customers to adjust the fuel factors throughout the remainder of the year, beginning with Cycle 1 billings in April, rather than carry them forward to be recovered next year. Staff believes that the level of underrecovery represented by FPL requires an expedited review process and should be brought forth to the Commission at the earliest agenda. Staff will provide e-mail communication to the utility requesting supplemental information needed to complete Staff's analysis. Staff requests a filing date of 2/25/03 (Tuesday). *By Noon*
