Mrs. Blanca S. Bayo Director, Division of The Commission Clerk and Administrative Services Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, Florida 32399

RE: Docket 021210-TP Approval Two Amendments to the Interconnection, Unbundling, Resale, and Collocation agreement negotiated by BellSouth Telecommunications, Inc. and AT&T Communications of The Southern States d/b/a AT&T

Dear Ms. Bayo:

On December 5, 2002, BellSouth and AT&T Communications of The Southern States d/b/a AT&T filed an Interconnection, Unbundling, Resale, and Collocation agreement for Florida Public Service Commission approval. The subject of the cover letter of the filing was styled as referenced above.

However, in filing the aforementioned contract a page(s) were inadvertently omitted. Please accept the attached page(s) as correction of the initial filing and existing docket file.

I would appreciate your assistance in correcting the filing and record in question.

Very truly yours,

Regulatory Vice President

DOCUMENT NUMBER - DATE 02566 MAR 178

FPSC-COMMISSION CLERK

SECOND AMENDMENT TO THE

AGREEMENT BETWEEN

AT&T COMMUNICATIONS OF THE SOUTHERN STATES, INC. D/B/A AT&T AND

BELLSOUTH TELECOMMUNICATIONS, INC. FLORIDA DATED OCTOBER 26, 2001

Pursuant to this Amendment, (the "Amendment"), AT&T Communications of the Southern States, Inc. d/b/a AT&T ("AT&T"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated October 26, 2001, ("Agreement").

WHEREAS, BellSouth and AT&T entered into the Agreement on October 26, 2001, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

- 1. The Parties agree to delete the rates in Attachment 1, Exhibit A, Attachment 2, Exhibit A, Attachment 3, Exhibit A, Attachment 4, Exhibit C and Attachment 7, Exhibit E in their entirety for the state of Florida and replace with the rates as set forth in Exhibit 1 attached hereto and incorporated herein by this reference.
- 2. The Parties agree to delete Exhibit A of Attachment 7 in its entirety.
- 3. The Parties agree to add as Exhibit E the ODUF/ADUF/EODUF/CMDS rates as set forth in Exhibit 1 of this Amendment to Attachment 6.
- 4. The Parties agree to delete section 2.7 2.11.9 of Attachment 2 in its entirety and replace it with the provisions as set forth in Exhibit 2 attached hereto and incorporated herein by this reference.
- 5. All of the other provisions of the Agreement, dated October 26, 2001, shall remain in full force and effect.
- 6. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

- 2.7 Unbundled Network Element Combinations
- 2.7.1 BellSouth will offer Network Element Combinations on rates, terms and conditions that are just, reasonable, and non-discriminatory and in accordance with the terms and conditions of this Agreement and the requirements of Sections 251 and 252 of the Act, the applicable FCC rules, and other applicable laws. At AT&T's request, BellSouth shall provide to AT&T existing or new combinations including ordinarily combined and not typically combined Network Elements in accordance with the terms of this section.
- 2.7.2 For purposes of this Section, references to "Currently Combined" network elements shall mean that the particular network elements requested by AT&T are in fact already combined by BellSouth in the BellSouth network. References to "Ordinarily Combined" network elements shall mean that the particular network elements requested by AT&T are not already combined by BellSouth in the location requested by AT&T but are elements that are typically combined in BellSouth's network. References to "Not Typically Combined" network elements shall mean that the particular network elements requested by AT&T are not elements that BellSouth combines for its use in its network.
- 2.7.3 For each Network Element, BellSouth shall provide a demarcation point (e.g., an interconnection point at a digital signal cross connect or light guide cross connect panel or a main distribution frame) and, if necessary, access to such demarcation point, which AT&T agrees is suitable. However, where BellSouth provides Combinations to AT&T, BellSouth may provide the existing interconnections and no demarcation point shall exist between the combined Network Elements.

2.8 Rates

- 2.8.1 Except as set forth in this Section, BellSouth shall provide UNE port/loop combinations described in Section 2.9 et seq. below that are Currently Combined or Ordinarily Combined in BellSouth's network at the cost-based rates in Exhibit A. Except as set forth in this Section, BellSouth shall provide UNE port/loop combinations not described in Section 2.9 et seq. below or Not Typically Combined Combinations in accordance with the Bona Fide Request process. BellSouth is not required to provide combinations of port and loop network elements on an unbundled basis in locations where, pursuant to FCC rules, BellSouth is not required to provide circuit switching as an unbundled network element.
- 2.8.2 Enhanced Extended Links ("EELs") are combinations of loop and transport unbundled network elements that are used to provide connectivity from the end user's location to AT&T's collocation space in a

BellSouth central office or an AT&T POP, as specified in Section 2.11.2.3. AT&T shall be deemed to be providing a significant amount of local exchange service over the EEL if one of the options listed in Section 2.11.2 is met. Currently Combined EELs specifically priced in Exhibit A shall be billed at the nonrecurring switch-as-is charge and recurring charges for that combination as set forth in Exhibit A of this Attachment. Currently Combined EELs not specifically priced in Exhibit A shall be billed at the sum of the nonrecurring and recurring charges for the individual network elements that comprise the combination as set forth in Exhibit A of this Attachment, Ordinarily Combined EELs specifically priced in Exhibit A shall be billed the sum of the nonrecurring and recurring charges for that combination as set forth in Exhibit A of this Attachment. Ordinarily Combined EELs not specifically priced in Exhibit A shall be billed the sum of the nonrecurring charges and recurring charges for the individual network elements that comprise the combination as set forth in Exhibit A of this Attachment. To the extent that AT&T requests an EEL combination Not Typically Combined in the BellSouth network, the rates, terms and conditions shall be determined pursuant to the Bona Fide Request Process.

- 2.9 Combination Offerings
- 2.9.1. 2-wire voice grade port, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per Minute-of-Use ("MOU"), common transport facilities termination, tandem switching, and tandem trunk port.
- 2.9.2 2-wire voice grade Coin port, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 2.9.3 2-wire voice grade DID port, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 2.9.4 2-wire CENTREX port, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 2.9.5 2-wire ISDN Basic Rate Interface, voice grade loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.

- 2.9. 6 4-wire ISDN Primary Rate Interface, DS1 loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 2.9. 7 4-wire DS1 Trunk port, DS1 Loop, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- 4-wire DS1 Loop with normal serving wire center channelization interface, 2-wire voice grade ports (PBX), 2-wire DID ports, unbundled end office switching, unbundled end office trunk port, common transport per mile per MOU, common transport facilities termination, tandem switching, and tandem trunk port.
- Attachment 2 of this Agreement describes the Network Elements that AT&T and BellSouth have identified as of the Effective Date of this Agreement and are not exclusive. Either Party may identify additional or revised Network Elements as necessary to improve services to end users, to improve network or service efficiencies or to accommodate changing technologies, or end user demand. Upon BellSouth's offering of a new or revised Network Element, BellSouth shall notify AT&T of the existence of and the technical characteristics of the new or revised Network Element. Upon AT&T's identification of a new or revised Network Element, it shall make a request for the network element pursuant to Attachment 10 of this Agreement, incorporated herein by this reference.
- 2.11 Special Access Service Conversions
- 2.11.1 AT&T may not convert special access services to combinations of loop and transport network elements, whether or not AT&T self-provides its entrance facilities (or obtains entrance facilities from a third party), unless, AT&T uses the combination to provide a significant amount of local exchange service, in addition to exchange access service, to a particular customer. To the extent AT&T requests to convert any special access services to combinations of loop and transport network elements at UNE prices, AT&T shall provide to BellSouth written certification that AT&T is providing a significant amount of local exchange service (as described in this Section) over such combinations.
- 2.11.2 The certification shall indicate under what local usage option AT&T seeks to qualify for conversion of special access circuits. AT&T shall be deemed to be providing a significant amount of local exchange service over such combinations if it certifies that they are meeting one of the following options:

- 2.11.2.1 AT&T certifies that it is the exclusive provider of an end user's local exchange service. The loop-transport combinations must terminate at AT&T's collocation arrangement in at least one BellSouth central office. This option does not allow loop-transport combinations to be connected to BellSouth's tariffed services. Under this option, AT&T is the end user's only local service provider, and thus, is providing more than a significant amount of local exchange service. AT&T can then use the loop-transport combinations that serve the end user to carry any type of traffic, including using them to carry 100% interstate access traffic; or
- 2.11.2.2 AT&T certifies that it provides local exchange and exchange access service to the end user customer's premises and handles at least one third of the end user customer's local traffic measured as a percent of total end user customer local dialtone lines; and for DS1 circuits and above, at least 50% of the activated channels on the loop portion of the loop-transport combination have at least 5% local voice traffic individually, and the entire loop facility has at least 10% local voice traffic. When a loop-transport combination includes multiplexing, each of the individual DS1 circuits must meet this criteria. The loop-transport combination must terminate at AT&T's collocation arrangement in at least one BellSouth central office. This option does not allow loop-transport combinations to be connected to BellSouth tariffed services; or
- 2.11.2.3 The requesting carrier certifies that at least 50% of the activated channels on a circuit are used to provide originating and terminating local dialtone service and at least 50% of the traffic on each of these local dialtone channels is local voice traffic, and that the entire loop facility has at least 33% local voice traffic. When a loop-transport combination includes multiplexing, each of the individual DS1 circuits must meet this criteria. This option does not allow loop-transport combinations to be connected to BellSouth's tariffed services. Under this option, collocation is not required. AT&T does not need to provide a defined portion of the end user's local service, but the active channels on any loop-transport combination, and the entire facility, must carry the amount of local exchange traffic specified in this option.
- 2.11.2.4 In addition, there may be extraordinary circumstances where AT&T is providing a significant amount of local exchange service, but does not qualify under any of the three options set forth in Sections 2.11.2.1 through 2.11.2.3. In such case, AT&T may petition the FCC for a waiver of the local usage options set forth herein. If a waiver is granted, then upon AT&T's request the Parties shall amend this Agreement to the extent necessary to incorporate the terms of such waiver for such extraordinary circumstance.

- 2.11.3 BellSouth may, at its sole expense, audit AT&T records in order to determine AT&T's compliance with the local usage options set forth above. All audits shall be conducted by a third party independent auditor, and AT&T and the FCC shall be given thirty (30) days written notice of scheduled audit. Such audit shall occur no more than one time in a calendar year, unless results of an audit find noncompliance with the significant amount of local exchange service requirement. In the event of noncompliance, AT&T shall reimburse BellSouth for the cost of the audit. If, based on its audits, BellSouth concludes that AT&T is not providing a significant amount of local exchange traffic over the combinations of loop and transport network elements, BellSouth may file a complaint with the appropriate Commission, pursuant to the dispute resolution process as set forth in the Interconnection Agreement. In the event that BellSouth prevails, BellSouth may convert such combinations of loop and transport network elements to special access services and may seek appropriate retroactive reimbursement from AT&T.
- 2.11.4 The Parties further acknowledge that on a going forward basis, AT&T may purchase additional special access service under BellSouth's applicable tariffs and convert such special access circuits to EELs, pursuant to the terms of this Agreement, subject to such circuits meeting the local usage options of this Section 2.11.2 and subject to the termination provisions in the applicable tariffs, if any.
- 2.11.5 When an existing special access service circuit employed by AT&T is converted to Network Elements and/or Combination, BellSouth shall not disconnect and re-connect the elements. When combinations of loop and transport network elements include multiplexing, each of the individual DS1 circuits must meet the above criteria.
- 2.11.6 Other UNE Combinations
- 2.11.6.1 BellSouth shall provide other Currently Combined and Ordinarily Combined and Not Typically Combined UNE Combinations to AT&T in addition to those specifically referenced above, where available. Such combinations shall not be connected to BellSouth tariffed services. To the extent AT&T requests a Not Typically Combined combination, or to the extent AT&T requests any combination for which BellSouth has not developed methods and procedures to provide such combination, AT&T shall pursue a development of methods and procedures for that particular combination pursuant to the BFR/NBR process and the rates for such combination shall be the sum of the recurring rates and nonrecurring rates for the stand-alone network elements.

- 2.11.6.2 BellSouth shall provide unbundled network elements in a manner that allows requesting telecommunications carriers to combine such network elements in order to provide a telecommunications service.
- 2.11.6.3 Except upon request, BellSouth shall not separate requested network elements that BellSouth currently combines.
- 2.11.6.4 Upon request, BellSouth shall perform the functions necessary to combine unbundled network elements in any manner, even if those elements are not ordinarily combined in BellSouth's network, provided that such combination is:
- 2.11.6.4.1 Technically feasible; and
- 2.11.6.4.2 Would not impair the ability of other carriers to obtain access to unbundled network elements or to interconnect with BellSouth's network.
- 2.11.6.5 Upon request, BellSouth shall perform the functions necessary to combine unbundled network elements with elements possessed by AT&T in any technically feasible manner.
- 2.11.6.6 If BellSouth denies a request to combine elements pursuant to paragraph 2.11.6.4 and 2.11.6.4.1 or paragraph 2.11.6.5 of this section BellSouth must prove to the state commission that the requested combination is not technically feasible.
- 2.11.6.7 If BellSouth denies a request to combine elements pursuant to paragraph 2.11.6.4 and 2.11.6.4.2 of this section, BellSouth must prove to the state commission that the requested combination would impair the ability of other carriers to obtain access to unbundled network elements or to interconnect with BellSouth's network.
- 2.11.6.8 BellSouth shall also provide written notice to AT&T of such denial and the basis thereof pursuant to the BFR process in Attachment 10.

2.11.6.9 Rates

2.11.6.9.1 The rates for Ordinarily Combined UNE Combinations shall be the sum of the recurring rates and nonrecurring rates for the stand-alone network elements as set forth in Exhibit A of this Attachment. The rates for Currently Combined UNE combinations shall be the sum of the recurring rates for the stand-alone network elements as set forth in Exhibit A, in addition to a nonrecurring charge set forth in Exhibit A. To the extent AT&T requests a Not Typically Combined combination, or to the extent AT&T requests any combination for which BellSouth has not developed

methods and procedures to provide such combination, rates and/or methods and procedures for such combination shall be established pursuant to the BFR/NBR process.

THIRD AMENDMENT TO THE AGREEMENT BETWEEN AT&T COMMUNICATIONS OF THE SOUTHERN STATES, LLC D/B/A AT&T AND

BELLSOUTH TELECOMMUNICATIONS, INC. FLORIDA DATED OCTOBER 26, 2001

Pursuant to this Amendment, (the "Amendment"), AT&T Communications of the Southern States, LLC d/b/a AT&T, ("AT&T"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain interconnection Agreement between the Parties dated October 26, 2001 ("Agreement") to be effective upon the date of the last signature executing the Amendment.

WHEREAS, BellSouth and AT&T entered into the Agreement on October 26, 2001, and:

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

- 1. The Parties agree to add to the rates in Exhibit A of Attachment 2, the rates and USOCs set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference.
- 2. All of the other provisions of the Agreement, dated October 26, 2001, shall remain in full force and effect.
- 3. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be

below.

THIRD AMENDMENT TO THE AGREEMENT BETWEEN

AT&T COMMUNICATIONS OF THE SOUTHERN STATES, LLC D/B/A AT&T AND

BELLSOUTH TELECOMMUNICATIONS, INC. FLORIDA DATED OCTOBER 26, 2001

Pursuant to this Amendment, (the "Amendment"), AT&T Communications of the Southern States, LLC d/b/a AT&T, ("AT&T"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated October 26, 2001 ("Agreement") to be effective upon the date of the last signature executing the Amendment.

WHEREAS, BellSouth and AT&T entered into the Agreement on October 26, 2001, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

- 1. The Parties agree to add to the rates in Exhibit A of Attachment 2, the rates and USOCs set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference.
- 2. All of the other provisions of the Agreement, dated October 26, 2001, shall remain in full force and effect.
- 3. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

AT&T Communications of the Southern States, LLC d/b/a AT&T	BellSouth Telecommunications, Inc.

THIRD AMENDMENT TO THE

AGREEMENT BETWEEN

AT&T COMMUNICATIONS OF THE SOUTHERN STATES, LLC D/B/A AT&T AND

BELLSOUTH TELECOMMUNICATIONS, INC. FLORIDA DATED OCTOBER 26, 2001

Pursuant to this Amendment, (the "Amendment"), AT&T Communications of the Southern States, LLC d/b/a AT&T, ("AT&T"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated October 26, 2001 ("Agreement") to be effective upon the date of the last signature executing the Amendment.

WHEREAS, BellSouth and AT&T entered into the Agreement on October 26, 2001, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

- The Parties agree to add to the rates in Exhibit A of Attachment 2, the rates and USOCs set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference.
- 2. All of the other provisions of the Agreement, dated October 26, 2001, shall remain in full force and effect.
- 3. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

AT&T Communications of the Southern States, LLC d/b/a AT&T	BellSouth Telecommunications, Inc.
