Docket No. 030084-EI

Filed: April 7, 2003

STIPULATION

Florida Power & Light Company and Barron Collier Companies stipulate that under the Transmission Line Siting Act, any party to the certification hearing may, pursuant to Section 403.5271, Florida Statutes, propose an alternate corridor for the Collier-Orange River #3 Project that includes location of all or a portion of the proposed Project on the existing common right-of-way, and the Siting Board has the authority to determine that location of all or a portion of the Collier-Orange River #3 Project on the existing common right-of-way has the least adverse impacts regarding the criteria in Section 403.529(4), Florida Statutes. The final determination of the most appropriate corridor route, considering all of the factors and criteria specified in Section 403.529, Florida Statutes, will be made by the Siting Board pursuant to the Transmission Line Siting Act.
