Re: Docket No. 030001-EI

Dear Ms. Bayó:

I am enclosing for filing in the above docket the original and seven (7) copies of Florida Power & Light Company's Request for Confidential Classification of Fuel Hedging Information (the "Request"), together with a diskette containing the electronic version of same. The enclosed diskette is HD density, the operating system is Windows 2000, and the word processing software in which the document appears is Word 2000.

I would like to point out a minor format difference between the version of Document GJY-1 that is attached to the prepared testimony of Gerard Yupp, and the version that is attached to the Request itself (Document GJY-1 is the subject of the Request). The first three pages of this document show 2002 totals, whereas subsequent pages show data for individual months. In the version attached to Mr. Yupp's testimony only the first two of the three totals pages, concerning FPL natural gas procurement and heavy fuel oil procurement, have a line with the heading "2002 Hedging Activity Totals"; that line is missing on the third page, which relates to purchases and sales of electricity. To facilitate consistent reference in the Request to the line numbers of confidential information, a "2002 Hedging Activity Totals" line appears on all three of the totals pages in the version of Document GJY-1 that is attached to the Request.

If there are any questions regarding this transmittal, please contact me at 305-577-2939.

Sincerely,

John T. Butler

**Docket No. 030001-EI
Dated: April 16, 2003**

**FLORIDA POWER AND LIGHT COMPANY'S REQUEST FOR
CONFIDENTIAL CLASSIFICATION OF FUEL HEDGING INFORMATION**

Florida Power & Light Company ("FPL"), pursuant to Rule 25-22.006, F.A.C., and Section 366.093, Florida Statutes, requests confidential classification of certain information on fuel hedging activities that is contained in Document GJY-1 to the prepared testimony of Gerard Yupp (the "Fuel Hedging Information"). In support of its Request, FPL states as follows:

1. FPL filed Mr. Yupp's prepared testimony, including Document GJY-1, on April 1, 2003. Contemporaneously, FPL filed a Notice of Intent to Seek Confidential Classification. Rule 25-22.006, F.A.C. provides that, unless good cause is shown for delay, a party that has filed a notice of intent must then file a request for confidential classification of the information covered by the notice of intent within 21 days. This Request is intended to request confidential classification of the Confidential Discovery Responses consistent with Rule 25-22.006.

2. The following exhibits are included with this Request:

a. Exhibit A consists of a copy of the Document GJY-1, in which all of the Fuel Hedging Information has been highlighted. Exhibit A is submitted separately in a sealed folder marked "CONFIDENTIAL."

b. Composite Exhibit B consists of two copies of Document GJY-1 in which all of the Fuel Hedging Information has been redacted.

c. Exhibit C is a table containing a line-by-line and page-by-page identification of Fuel Hedging Information, together with references to the specific statutory basis for the claim of confidentiality and to the affidavit in support of the requested classification.

d. Exhibit D consists of the affidavit of Mr. Yupp, who is the Manager of Regulated Wholesale Power Trading in FPL's Energy Marketing and Trading Division. The affidavit attests to the asserted bases for confidential classification.

3. FPL seeks confidential protection for the Fuel Hedging Information because it comprises trade secrets of FPL, which allow FPL to purchase and sell fuel and electric power on favorable terms for FPL and its customers. The disclosure of that trade-secret information would provide other participants in the fuel and electric power markets insight into FPL's marketing and trading practices that would allow them to anticipate FPL's marketing and trading decisions and/or impair FPL's ability to negotiate, to the detriment of FPL and its customers. *See* § 366.093(3)(a), Fla. Stat (2002). The Fuel Hedging Information also relates to bids and other contractual data, the disclosure of which would impair FPL's ability to contract for fuel and electric power on favorable terms. *See* § 366.093(3)(a), Fla. Stat (2002).

4. FPL submits that the highlighted Fuel Hedging Information is proprietary confidential business information within the meaning of Section 366.093(3). Pursuant to Section 366.093, such information is entitled to confidential treatment and is exempt from the disclosure provisions of the public records law.

5. The Fuel Hedging Information in Exhibit A is intended to be and is treated by FPL as private, and its confidentiality has been maintained.

6. Upon a finding by the Commission that the Fuel Hedging Information in Exhibit A is proprietary confidential business information within the meaning of Section 366.093(3), pursuant to Section 366.093(4) such materials should not be declassified for at least eighteen (18) months and should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business.

WHEREFORE, FPL respectfully requests that its Request for Confidential Classification of Fuel Hedging Information.

Respectfully submitted,

COUNTY OF PALM BEACH)

AFFIDAVIT OF GERARD YUPP

BEFORE ME, the undersigned authority, personally appeared Gerard Yupp, who, being first duly sworn, deposes and says:

1. My name is Gerard Yupp. I am currently employed by Florida Power & Light "FPL") as Manager of Regulated Wholesale Power Trading in the Energy Marketing and Trading Division. I have personal knowledge of the matters stated in this affidavit.

2. With respect to Exhibit C, I have reviewed the documents and information for which I am listed as Affiant and which are included in Exhibit A to FPL's Request for Confidential Classification. Documents or materials that I have reviewed and which are asserted by FPL to be proprietary confidential business information are comprised of trade secrets of FPL, which allow FPL to purchase and sell fuel and electric power on favorable terms for FPL and its customers. The disclosure of this trade-secret information would provide other participants in the fuel and electric power markets insight into FPL's marketing and trading practices that would allow them to anticipate FPL's marketing and trading decisions and/or impair FPL's ability to negotiate, to the detriment of FPL and its customers. This proprietary confidential business information also relates to bids and other contractual data, the disclosure of which would impair FPL's ability to contract for fuel and electric power on favorable terms. To the best of my knowledge, FPL has maintained the confidentiality of these documents and materials.

3. Consistent with the provisions of the Florida Administrative Code, such materials should remain confidential for a period of not less than 18 months. In addition, they should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business so that FPL can continue to maintain the confidentiality of these documents.

4. Affiant says nothing further.
