Re: Mad Hatter Utility, Inc.; Docket No. 021215-WS
Application for Amendment of Certificates
Our File No. 28023.12

Dear Ms. Bayo:

Attached please find Exhibit SR-1 which was inadvertently excluded from Stuart Rogers' testimony which was filed on Friday, May 23, 2003. Please include this in the testimony as previously filed.

Should you have any questions or comments regarding this matter, please do not hesitate to contact me.

Sincerely,

ROSE, SUNDSTROM & BENTLEY, LLP

Bachelor of Science Degree in Civil Engineering, University of South Florida, Tampa, Florida, 1984

PROFESSIONAL ASSOCIATIONS:

American Society of Civil Engineers
Florida Engineering Society
American Consulting Engineer's Council
Florida Institute of Consulting Engineers

PROFESSIONAL REGISTRATION:

Florida Registered Professional Engineer #42718

COMMUNITY ACTIVITIES:

Rotary Club of Zephyrhills
Zephyrhills Chamber of Commerce
Lakeland Chamber of Commerce
Past Member of Board of Directors, East Pasco YMCA

EXPERIENCE:

September 1996 to Present: Towson-Rogers Engineering, Inc., President. Responsible for coordination of design work and daily operations of the office. Coordinates surveying, CADD design, plans production and permitting. Provides personal attention to clients' needs during the design process. Provides engineering design and permitting services for water and wastewater collection/transmission systems, water reuse transmissions systems, subdivisions, commercial and industrial projects, churches, mobile home parks, schools, and wetland projects. Tasks include coordination of professionals of several disciplines to provide comprehensive design services.

1989 to September 1996: Towson-Rogers Engineering, Inc., Vice President/Secretary/Treasurer. Responsible for coordination of all design work and daily operations of the office. Coordinates surveying, CADD design, plans production and permitting. Provided personal attention to clients' needs during the design process. Provided engineering design and permitting services for subdivisions, commercial and industrial projects, churches, mobile home and RV parks, public works projects, and drainage studies. Tasks include coordination of professionals of several disciplines to provide comprehensive design services.

1984 to 1989: Alpha Engineering and Surveying, Inc. Began at entry level in engineering. Became one of two project managers by mid-1985. In 1986 was transferred to Zephyrhills branch office. Responsible for all design work and for coordinating projects, from CADD layout to design and permitting. Provided engineering design and permitting for 35 subdivisions, 20 commercial sites, and various other projects, including golf courses, drainage studies, wetland projects, public works projects (water, wastewater, roads), schools, churches, mobile home parks, and developments of regional impact.

STUART M. ROGERS, P.E.

President

ADDITIONAL EXPERIENCE
INFORMATION

PARTIAL LIST OF CLIENTS, PROJECTS, AND
SERVICES RENDERED:

THE RESERVE OF OLD TAMPA BAY: Responsible for design and permitting of a site to accommodate 34 single-family lots on Old Tampa Bay with several environmental challenges. Project included coordination with Hillsborough County, SWFWMD, the Hillsborough Environmental Protection Commission, the Army Corps of Engineers, and the Tampa Port Authority. Special design features included a subaqueous crossing of a water main beneath a navigable canal by directional drilling.

IMPERIAL AUTO AUCTION: Responsible for design and permitting of a site to accommodate a 70 acre auction facility. Coordinated surveying, environmental, and geotechnical sub-consultants as well as in-house design and CADD drafting staff. Site work included construction of more than 50 acres of pavement and storm-water management facilities, along with preservation and mitigation areas. Project included the relocation of 2,500 L.F. of natural stream.

BADCOCK DISTRIBUTION CENTER: Responsible for design and permitting of a site to accommodate a 300,000 square-foot distribution and warehousing facility. Site features include 40 total acres of construction including pavement and storm-water management facilities. Project coordination included designing and permitting the facility and related transportation facilities and improvements, directing sub-consultants in various disciplines, directing in-house drafting and design staff, and close coordination with the client and regulatory agencies.

MUTUAL WHOLESALE WAREHOUSE

DISTRIBUTION CENTER: Responsible for design and permitting of a new 60,000 S.F. freezer building in downtown Lakeland. The project involved the closing of City streets including rerouting of existing utilities, correction of existing drainage problems as well as onsite design.

ST. PAUL LUTHERAN SCHOOL: Responsible for site design for a 20 acre private school site including the extension of 1 mile of sewer force main. Design included a surface water management system to control flooding on a poorly drained site.
