ALL 12-23-04
DECLASSIFIED

Sprint will be returning the CD.

Left a message with BellSouth (Nancy Sims). I have an Issue I.D. scheduled on Wed. in the BellSouth/Allegiance arbitration. If I have yet to hear by then, I will ask whomever is representing BellSouth at the Issue I.D.

I believe Jason is waiting to hear from Richard Chapkis of Verizon.

FPSC-COMMISSION CLERK

Beth, in January staff toured Bell, Sprint, and Verizon facilities and digital pix were taken by staff. The pix were put on CDs and given to the companies. BellSouth then followed up with a withdrawal of its notice of intent for its pix, we got a claim from Verizon for its pix, and a claim from Sprint for its pix. Because Wayne had never given us CDs to log and put in the conf. file, I checked with him and found that the CDs given to the companies were the only copies the PSC had of the pix. He was going to call the

We did indeed give them the only copies we had. I'll give them a call and sort it.
Thanks.

Importance: High

Wayne, back in January you all took a tour of BellSouth, Sprint, and Verizon's offices and came back with some pix that were put on CD. The CDs were given to the companies and then in Feb we got the following:

1. withdrawal of notice of intent by BellSouth for its pix
2. Letter from Verizon claiming confidentiality of the pix
3. Claim of confidentiality from Sprint for the pix

As I understood it at the time the CDs were turned over to the companies, the original (and only) copies were given to the companies. I suspect Verizon and Sprint think the PSC is still in possession of copies of the pix. (At least Sprint says in its claim, "Copies . . . do not accompany this request as they are already in the possession of staff and staff's witnesses . . . ")

Do you still have copies of the pix either on the cartridge from the digital camera or on your computer? If so, those of Sprint and Verizon need to be loaded on CD and brought to us for safekeeping in the conf. files.

Please advise!

Thanks.
Kay
