To date, 23.6% of these numbers have been utilized. And while Time Warner currently has capacity in its existing blocks to furnish the requested numbers, it cannot meet [REDACTED] need for [REDACTED].

[REDACTED]

The [REDACTED] telephone numbers are necessary for an upgrade from [REDACTED] current call processing, which requires [REDACTED]. The [REDACTED] numbers would also support programming and ongoing maintenance of the [REDACTED].
