_____)

SPRINT'S ADDITIONAL COMMENTS ON ISSUES

Pursuant to the prehearing officer's direction at the issue identification meeting for these dockets held on October 23, 2003, Sprint-Florida, Incorporated and Sprint Communications Company Limited Partnership (collectively, "Sprint") submit these additional comments to address the modified staff issues list for Docket No. 030851-TP distributed by the FCCA at the meeting and to address other outstanding issues raised at the meeting.

1. Sprint agrees there is merit to considering the additional issues beyond those proposed by staff issues list that are proposed in the FCCA's modified issues list. However, Sprint suggests that Issue 10 on the FCCA revised list should be modified as follows to more specifically capture the requirements of the Triennial Review Order relating to the scope of the geographic market served.

"Is there evidence that the existence of the three CLEC switches demonstrates adequately the technical and economic feasibility of an entrant serving the mass market with its own switch, as opposed to only serving a niche portion of the mass market with its own switch?" (TRO Order ¶501)

FPSC-COMMISSION CLERK

2. Sprint reiterates its position stated in its initial comments on the issues and at the hearing that the loop and transport issues (Docket No. 030852-TP) not be presented ILEC by ILEC as they are in the original staff issues list. Instead, each issue should be stated generically and answered for each ILEC, in the same manner as the staff indicated would apply to the switching issues.
3. Sprint does not oppose admission into the record of responses to Commission data requests to nonparties submitted by affidavit, provided that the stipulation does not purport to constitute concurrence with any assumptions that may be drawn from the data responses and provided that parties are given an adequate opportunity to address the information submitted in the data responses in their testimony or otherwise.
4. Certain parties and interested persons have suggested that the Florida Commission use the data requests developed by the New York Public Service Commission as a template for the Florida requests. Sprint has reviewed the New York data requests and does not object to their use by the Florida Commission as a basis for the data requests to be sent to nonparties.

Respectfully submitted this 27th day of October 2003.
