To Whom It May Concern:

I am writing to request that the Florida Public Service Commission grant me intervenor status in the certification of Island Environmental Utility, Inc., wastewater docket no. 020745-SU.

The granting of this certificate would directly effect my interests, as I am a property owner in the proposed service territory.

I object to certification of this utility company because there is no need based on present and future densities. It is a multi million dollar expense levied on a small number of residents many of whom are retired on fixed incomes.

Thank you for your time and consideration.

Yours truly,

Andrew N. Nichols
