To Whom It May Concern:

I am writing to request that the Florida Public Service Commission grant me intervenor status in the certification of Island Environmental Utility, Inc. wastewater docket no. 020745-SU.

The granting of this certificate would directly affect my interests, as I am a property owner in the proposed service territory.

I object to certification of this utility company. As a new homeowner I have just installed a perfectly satisfactory and approved septic system. Also, numerous studies have been made that verify that the canals and nearby ground waters are well within the range of acceptable pollution nullifying the need for sewer in our area. I also object to a privately held utility to demand I comply to their own business objectives.

Thank you for your time and consideration.

Yours truly,

Dan Keith
