Dear Blanco S. Bayo

Enclosed please find FPL FiberNet's response to the above referenced request for data.

As we discussed FPL FiberNet's fiberoptic network is independent of ILEC interoffice and local loop facilities. We are capable of providing access to on-net ILEC Central Office (both LSO and SWC), carrier hotels, over-seas cable termination stations, carrier points of presence, and end customer premises. Depending on the location, this access can be in the form of Dark Fiber and / or Capacity. **All on-net locations are accessible to all other on-net locations and are not limited to the existing circuits documented in this response.**

Since this response may understate our capability, I have included a file containing all CLLI codes currently assigned to FPL FiberNet. In general, all locations are capable of being connected by dark fiber and / or capacity.

FPSC-COMMISSION CLERK

Be advised that loop_FPL_FIBERNET_LLC_FL.xls and transport_FPL_FIBERNET_LLC_FL.xls have been modified to contain specific data requested by Pat Lee concerning capacity and dark fiber circuits. Included in these files are data that requires confidential treatment. Under a separate transmittal to the Commission Clerk and Administrative Service, FPL FiberNet has requested that such treatment be provided. A copy of the material submitted for confidential treatment has been included here.

If you have any questions please call Joe Ferrel at 305-552-4287.

Respectfully
