CASE BACKGROUND

On December 10, 2003 Progress Energy Florida, Inc. (PEF) filed a petition for approval of two new tariff offerings: the Energy Profiler Online Service and the Remote Access Service.

The Energy Profiler Online Service is a service that allows large commercial and industrial customers to see their energy usage information on a daily, weekly, or monthly basis via an internet connection. The Remote Access Service is a service that allows large commercial and industrial customers to access their energy usage data at 15 minute intervals and to use that information in customer load management equipment and software.

The Commission has jurisdiction over this matter pursuant to Sections 366.04, and 366.05, Florida Statutes.

FPSC-COMMISSION CLERK

DOCKET NO. 031100-EI
DATE: January 22, 2004

ISSUE 1: Should Progress Energy Florida, Inc.'s proposed new Energy Profiler Online Tariff and Remote Access Tariff be suspended?

RECOMMENDATION: Yes. (BAXTER)

STAFF ANALYSIS: On December 10, 2003, PEF petitioned the Commission for approval of its proposed new Energy Profiler Online and Remote Access Services. Staff recommends that the tariffs be suspended to allow staff sufficient time to review the petition in order to present the Commission an informed recommendation on the tariff proposals.

Pursuant to Section 366.06(3), Florida Statutes, the Commission may withhold consent to the operation of all or any portion of a new rate schedule, delivering to the utility requesting such increase a reason or written statement of good cause for doing so within 60 days. Staff believes that the reason stated above is good cause consistent with the requirement of Section 366.06(3), Florida Statutes.

ISSUE 2: Should this docket be closed?

RECOMMENDATION: No. (BROWN)

STAFF ANALYSIS: This docket should remain open pending the Commission vote on the proposed tariff revision.
