Foot Notes

- 1) Columns F, G, & H were provided by Staff and are not part of FiberNet's response.
- 2) From our understanding, Question 2(g) is not possible to answer. Number of loops not available would be dependant on varying possible ring configurations.
- 3) FiberNet has provisioned dark fiber to a customer, however the entrance facility is controlled by someone other than FiberNet.
- 4) Question 1 (i) asks if we have working dark between at this location. We assume working dark fiber includes existing dark fiber used to provision services.

Foot Notes

- 1) Columns E, F, G, & H were provided by Staff and are not part of FiberNet's response.
- 2) From our understanding, Question 2(g) is not possible to answer. Each site would be dependant on varying possible ring configurations.
- 3) Question 2 (i) asks if we have working dark between at this location. We assume working dark fiber includes existing dark fiber used to provision services.

Question 7

Provide all transport routes in Bell South or Verizon territories in which you filed a notice to terminate service. Identify whether you channelized and offered wholesale DS1, DS# and dark fiber transport along each route.

Answer

FiberNet has not filed a notice to terminate service on routes referred to in Bell South Exhibit SWP-8 or Verizon Exhibit F.1-F.4.
