SUPPLEMENTAL RESPONSE PROVIDED BY: Shelley Padgett

The table area is heavily redacted. It features a thick black horizontal bar at the top. Below this, a large rectangular area is filled with a grid pattern. The grid consists of approximately 10 columns and 30 rows. Significant portions of the grid cells are obscured by black redaction marks, particularly in the first three columns and scattered throughout the remaining columns. The redactions appear to be irregular in shape, covering entire cells or parts of cells. The overall appearance is that of a document where the majority of the data has been withheld for public viewing.

SUPPLEMENTAL RESPONSE (cont'd):

The image shows a large table with approximately 7 columns and 30 rows. The majority of the content is obscured by black redaction bars. Visible text fragments include the words "supplemental" and "response" in the top row, and the word "billion" in several other rows. The redactions are most prominent in the first and second columns, while the third and fourth columns contain some white space and text fragments. The fifth and sixth columns are heavily redacted, with only a few small text pieces visible. The seventh column contains several lines of text, including the word "billion" appearing multiple times.
