Re: CONFIDENTIAL DOCUMENT FILING
 Docket No. 04 0206 -EI
 Florida Power & Light Company's Request for Confidential
 Classification for Certain Documents and Information Filed in
 Connection with its Petition to Determine Need for Turkey Point Unit 5
 Electrical Power Plant

Redacted
 DOCUMENT NUMBER-DATE
 03274 MAR-8 8

Dear Ms. Bayo:

Enclosed for filing on behalf of Florida Power & Light Company (FPL) are the original and fifteen (15) copies of a Request for Confidential Classification for Certain Documents and Information Filed in Connection with its Petition for Determination of Need (Request). The Request pertains to five **CONFIDENTIAL** Appendices to the Need Study, Appendices C-1 through C-5. All of these **CONFIDENTIAL** documents are being filed in connection with FPL's petition styled In re: Florida Power & Light Company's Petition to Determine Need for Turkey Point Unit 5 Electrical Power Plant. The Petition is being filed contemporaneously with this Request.

Confidential
 DOCUMENT NUMBER-DATE
 03273 MAR-8 8

The Request itself does not contain confidential information. However, Attachment A to the request, which is contained in a separate box, does contain **CONFIDENTIAL** information, which is highlighted. Attachment A is submitted in a separate box because of the volume of confidential documents. That box is labeled:

CONFIDENTIAL MATERIALS

Appendices C-1 Through C-5 to
FPL's Need Study for Electrical Power Plant 2007

So that your office will have redacted copies available for public disclosure, two redacted copies, which are referred to in the Request as Attachment B, are submitted as well in the box labeled:

REDACTED CONFIDENTIAL MATERIALS

Appendices C-1 Through C-5 to
FPL's Need Study for Electrical Power Plant 2007

Also included is a computer diskette containing FPL's Request for Confidential Classification and Attachment C, in WordPerfect. Please contact me should you or your Staff have any questions regarding this filing.

If you have any questions regarding this transmittal, please contact me at (561) 691-7207.

Sincerely,

Natalie F. Smith

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Florida Power & Light Company's) Docket No. _____
Petition to Determine Need for)
Turkey Point Unit 5 Electrical Power Plant.) Dated: March 8, 2004
_____)

**FLORIDA POWER & LIGHT COMPANY'S REQUEST
FOR CONFIDENTIAL CLASSIFICATION FOR CERTAIN
DOCUMENTS AND INFORMATION FILED IN CONNECTION
WITH ITS PETITION FOR DETERMINATION OF NEED**

Pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Florida Power & Light Company ("FPL") requests confidential classification of certain confidential information provided to the Florida Public Service Commission ("the PSC or the Commission") in connection with FPL's Petition to Determination Need for Turkey Point Unit 5 Electrical Power Plant ("the Confidential Information"). In support of its request, FPL states:

Justification for Confidential Classification

1. The Confidential Information is contained in documents provided to the Commission in connection with FPL's Petition to Determine Need for Turkey Point Unit 5.
2. The Confidential Information for which FPL seeks confidential classification consists of five confidential Appendices to the Need Study document that was filed in support of FPL's Petition to Determine Need for Turkey Point Unit 5. Appendix C-1 is a summary of the five proposals submitted to FPL in response to its 2003 Request for Proposals ("RFP") and is the input sheet used in the economic evaluation of the proposals. Appendices C-2 through C-4 are computer input and output reports containing the confidential bid information submitted in

response to FPL's RFP and confidential FPL unit operating data. Appendix C-5 is a summary of the equity penalty calculations for the RFP proposals.

3. The material for which confidential classification is sought is intended to be and has been treated by FPL as private and confidential and has not been publicly disclosed. The Confidential Information for which FPL seeks confidential classification will continue to be confidential for more than 18 months; therefore, FPL seeks confidential classification for 36 months with the opportunity to request continuation of the confidential classification.

4. Much of the material for which confidential classification is sought is the proprietary business information of proposers that responded to the RFP issued by FPL to solicit proposals to meet FPL's 2007 capacity need. Such information is intended to be and has been treated by the RFP proposers and FPL as private and has not been publicly disclosed. The documents contain extensive proprietary confidential business information regarding the RFP proposers and confidential information concerning proposals or other contractual data that FPL has a duty to keep confidential. The disclosure of such information would significantly impair the competitive business interests of the RFP respondents and impair their efforts to contract for goods and services on favorable terms. Additionally, such disclosure could impair FPL's ability to obtain competitive proposals for future needs. Thus, disclosure of the Confidential Information would injure the RFP proposers, FPL and FPL's customers.

5. The remainder of the Confidential Information for which FPL seeks confidential classification is FPL unit performance data, including but not limited to projected forced outage rates, heat rates, and fixed and variable O&M, the disclosure of which would impair FPL's

competitive interests and injure FPL's customers. FPL's customers would be injured by the disclosure of this information because disclosure would adversely affect FPL's ability to make off-system sales to benefit FPL's customers.

6. A non-redacted copy of the confidential documents, with all Confidential Information highlighted, is enclosed as Attachment A in a box marked "CONFIDENTIAL." Attachment B is composed of a box of two sets of the same material with all Confidential Information redacted. Attachment C is a line-by-line justification of the confidential status of the Confidential Information. Attachment D is the affidavit of Steven R. Sim explaining why the Confidential Information is proprietary and confidential and why it should not be publicly disclosed.

WHEREFORE, FPL requests the Commission to give the Confidential Information identified in Attachments A and B confidential classification and exempt it from public disclosure.

Respectfully submitted this 8th day of March 2004.

**AFFIDAVIT OF
STEVEN R. SIM**

Docket No. _____

ATTACHMENT D

AFFIDAVIT OF STEVEN R. SIM

STATE OF FLORIDA)
)
COUNTY OF MIAMI-DADE)

March 4, 2004

BEFORE ME, the undersigned authority, this day personally appeared Steven R. Sim, who, first being duly sworn, deposes and states:

1. My name is Steven R. Sim. I am employed by Florida Power & Light Company (FPL) as a Supervisor in the Resource Assessment and Planning Department. In my role as Supervisor of a group that is responsible for determining FPL resource needs and developing an integrated resource plan, I administered the economic evaluation portion of FPL's 2003 Request for Proposals (RFP) Resource Need for 2007.

2. I am familiar with the Confidential Appendices, Appendices C-1 through C-5, to the Need Study document supporting FPL's Petition for Determination of Need for Turkey Point Unit 5 power plant.

3. I have reviewed FPL's Request for Confidential Classification for Certain Documents and Information Filed in Connection with its Petition for Determination of Need (the Request). The representations FPL makes in its Request regarding Confidential Information are true and correct. The information that FPL identifies as Confidential Information is proprietary and confidential, the disclosure of which would be harmful to FPL, the proposers who responded to FPL's RFP, and FPL's customers. This information is treated by FPL as confidential.

4. FPL seeks to protect two types of information as confidential. The first type is information provided to FPL by RFP proposers. This includes, but is not limited to, capacity costs, energy prices, fixed and variable O&M, heat rates and unit availability. The RFP proposers requested that FPL treat their RFP proposal terms and information as confidential. FPL has complied with those requests. Although there was no explicit statement in the RFP or related documentation that indicated the length of time such information would be kept confidential, it was understood that the information would remain confidential through the time the decision regarding FPL's need determination had become final.

5. Further, at least some of the proposers who responded to the RFP would maintain that the information submitted should continue to be protected beyond the date the Commission's decision becomes final. Many of the proposers who responded to the RFP may participate in other RFPs outside of Florida, against some or all of their fellow proposers. Disclosure of this information could impair the competitive interests of the RFP proposers and jeopardize their ability to negotiate contract terms. Disclosure of this information also would impair FPL's prospective ability to solicit capacity proposals, to the detriment of FPL's customers. This type of information is contained in all the documents for which FPL seeks confidential classification.

6. The second type of information FPL seeks to protect as proprietary and confidential is information regarding the cost and operation of FPL's generating units. This information is confidential to FPL just as this type of information is confidential to the RFP proposers. However, unlike information furnished by proposers that relates to potential units that may never be built, FPL's information relates to actual costs and operations of existing units.

FPL competes in the wholesale power market, and the disclosure of this information would injure FPL's competitive interests and FPL's ability to favorably negotiate contractual terms. The disclosure of this information would disadvantage FPL in making off-system sales to benefit FPL's customers. This second type of information regarding FPL's generating units is in Appendices C-2 through C-4, for which FPL seeks confidential classification pursuant to section 366.093(3)(e), Florida Statutes.

7. Affiant says nothing further.

Steven R. Sim

SWORN TO AND SUBSCRIBED before me this 4th day of March, 2004, by Steven R. Sim, who is personally known to me or who has produced _____ (type of identification) as identification and who did take an oath.

Notary Public, State of Florida

My Commission Expires:
