Summary. Xspedius considers information in these attachments to be confidential as described in Attachment 2.

5. Within the Rebuttal Testimony of Mr. Joseph Gillan he discusses information relative to Xspedius which is deemed to be confidential as described in Attachment 4. Mr. Gillan also provided an exhibit to his deposition which contained confidential information as to Xspedius. This is described in Attachment 5.

6. Xspedius also provided a response to the staff data request which is addressed Attachment 6.

<u>Description</u>	<u>Reason</u>
Exhibit 2 to Gillan Deposition. Affidavit of James Falvey page 14, paragraph 8 and page 15, paragraph 9	1

**Before the  
Florida Public Service Commission**

IN RE: Docket No. 030851-TP Mass Market Local Switching case

**CONFIDENTIAL**

AFFIDAVIT

I, James C. Falvey depose and say as follows:

1. The facts contained herein are true and based upon my personal knowledge.
2. I am a citizen of Millersville, Maryland, where I have resided since 1996. I am 40 years of age. I am not under any disability and am fully competent to make this affidavit.
2. My name is James C. Falvey. I am employed as Senior Vice President of Regulatory Affairs by Xspedius Communications, LLC ("Xspedius"). My business address is 7125 Columbia Gateway Dr., Suite 200, Columbia, Maryland 21046.
3. I have been asked by FCCA/CompSouth to provide some basic information about Xspedius.
4. It is my understanding that Xspedius has been named by BellSouth as a Self-Provider using our own local circuit switches in Florida to serve mass market customers.
5. I am familiar with the FCC definitions in the Triennial Review Order of "enterprise customers" and "mass market customers".
6. Based on these definitions, Xspedius should not be considered a Self Provider of analog Plain Old telephone Service ("POTS") to the mass market utilizing our switches in Florida. The principal business of Xspedius is to serve the enterprise and not the mass market in the areas in Florida where our switches are located. Today, Xspedius actively markets to medium and large business enterprise customers with a high demand for a variety of sophisticated data-centric telecommunications services and solutions.
7. As an initial matter, the FCC has stated that the mass market is made up of residential and small business analog POTS customers. While XSPEDIUS does serve a very small number of small business customers, XSPEDIUS does not serve any residential customers in Florida.
8. Specifically, Xspedius currently serves [REDACTED] in Florida. Yet Xspedius has only [REDACTED] total Xspedius VGEs in the state. These [REDACTED] customers are an incidental part of Xspedius'

**CONFIDENTIAL**

CC

business. Serving these DS-0 customers is not currently, and never has been, a significant part of Xspedius sales and marketing efforts.

9. The few DS-0 customers that Xspedius retains are not even widely dispersed across the geographic areas Xspedius serves. Xspedius has [REDACTED] Ft. Lauderdale, all served out of the Main Relief LSO. In Jacksonville, there are [REDACTED]

[REDACTED] This limited distribution of DS-0 customers is reflective of the incidental nature of these customers.

10. The small business customers are not "mass market customers" in the sense that they are not "lower revenue accounts characterized by low margins and serviced on a month to month basis and not pursuant to annual contracts". As discussed in Xspedius' marketing materials on its web site, Xspedius offers Complete Access, an integrated T-1 product designed for and marketed to sophisticated small and midsize companies with complex voice and data telecommunications needs. The Xspedius T-1 products are not designed for very small business customers and would not represent an efficient or affordable solution to the needs of very small business customers. Xspedius Complete Access is an "integrated T-1" service integrating local, long distance, and toll-free on a single T-1. It is sold with or without dedicated Internet service.
11. Xspedius utilizes an individualized contract with each customer. As a result, the lower revenues and "churn" experienced by carriers serving mass market customers tends not to be present with Xspedius' targeted customer segment.

Further affiant sayeth not,

Signed to this 6<sup>th</sup> day of January, 2004.
