RE: Docket No. 040247-WS - Application for Certificates to Provide Water and Wastewater Service in Franklin County by St. James Island Utility Company

Dear Ms. Bayo:

Enclosed for filing in the above-referenced docket, on behalf of St. James Island Utility Company ("St. James"), are the following documents:

- 1) Revised Exhibit "J" to St. James' Application consisting of a revised territory map showing township, range, and section, with the proposed territory plotted thereon by use of metes and bounds, and with a defined reference point of beginning.
- 2) The original and four copies of Exhibit "D-1" to St. James' Application providing a statement that describes with particularity the reasons that St. James has elected not to use reuse.

Revised Exhibit "J" and Exhibit "D-1" are being provided in response to Patti Daniel's letter dated April 15, 2004, in which two deficiencies are identified in St. James' Application. We believe that the enclosed exhibits cure the identified deficiencies and St. James' Application should be deemed complete.

Please acknowledge receipt of these documents by stamping the extra copy of this letter "filed" and returning the copy to me.

## EXHIBIT D-1

### STATEMENT REGARDING REUSE

The utility has no plans for using reuse at this time. The developers of SummerCamp have made every effort to limit the requirement for irrigation water by limiting the planting area and by utilizing xeroscaping to reduce the need for water. Therefore, the demand for irrigation water will be minimal. Under the circumstances, because of the substantial distance between the plant and the development, it is not economically feasible to construct a reuse main from the wastewater treatment plant back to the development to serve such a limited demand.
