Atlantic.Net Broadband, Inc.

AGREEMENT

GENERAL TERMS AND CONDITIONS

THIS (SERVICES) AGREEMENT is made by and between BellSouth Telecommunications, Inc., (BellSouth), a Georgia corporation, and Atlantic.Net Broadband, Inc. (Atlantic.Net), a Florida corporation, and shall be effective on the Effective Date, as defined herein. This Agreement may refer to either BellSouth or Atlantic.Net or both as a “Party” or “Parties.”

WITNESSETH

WHEREAS, BellSouth is a local exchange telecommunications company authorized to provide Telecommunications Services in the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee; and

WHEREAS, Atlantic.Net is a Competitive Local Exchange Carrier (“CLEC”) authorized to provide Telecommunications Services in the state(s) of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee; and

WHEREAS, BellSouth desires to provide and Atlantic.Net desires to purchase certain Services not required pursuant to Section 251 of the Telecommunications Act of 1996 (“Act”); but required pursuant to Section 271 of the Act; and

WHEREAS, BellSouth desires to provide and Atlantic.Net desires to purchase certain other Services not required pursuant to the Act;

NOW, THEREFORE, in consideration of the mutual agreements contained herein, BellSouth and Atlantic.Net agree as follows:

Definitions

Affiliate is defined as a person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with, another person. For purposes of this paragraph, the term “own” means to own an equity interest (or equivalent thereof) of more than 10 percent.

Commission is defined as the appropriate regulatory agency in each state of BellSouth’s nine-state region (Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee).

Competitive Local Exchange Carrier (CLEC) means a telephone company certificated by the Commission to provide local exchange service within BellSouth's franchised area.

Effective Date is defined as the date that the Agreement is effective for purposes of rates, terms and conditions and shall be thirty (30) days after the date of the last signature executing the Agreement. Future amendments for rate changes will also be effective thirty (30) days after the date of the last signature executing the amendment.

End User means the ultimate user of the Telecommunications Service.

FCC means the Federal Communications Commission.

General Terms and Conditions means this document including all of the terms, provisions and conditions set forth herein.

Telecommunications means the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received.

Telecommunications Service means the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

Telecommunications Act of 1996 (Act) means Public Law 104-104 of the United States Congress effective February 8, 1996. The Act amended the Communications Act of 1934 (47 U.S.C. Section 1 et. seq.).

1. **Scope of this Agreement**

This Agreement sets forth the obligations of each Party with respect to BellSouth's provision of certain Services, set forth herein, to Atlantic.Net ("Service(s)"). BellSouth will make available to Atlantic.Net the Services and Atlantic.Net agrees to purchase BellSouth's Services as set forth herein, provided Atlantic.Net has in effect an effective and approved Interconnection Agreement with BellSouth in the states covered by this Agreement.

2. **CLEC Certification**

- 2.1 Prior to execution of this Agreement, Atlantic.Net agrees to provide BellSouth in writing Atlantic.Net's CLEC certification for all states covered by this Agreement except Kentucky. Should Atlantic.Net's certification in any state be rescinded or otherwise terminated, BellSouth may, at its election, terminate this Agreement immediately and all monies owed on all outstanding invoices shall become due, or BellSouth may refuse to provide Services hereunder in that state until certification is reinstated in that state.

2.2 To the extent Atlantic.Net is not certified as a CLEC in any state covered by this Agreement as of the execution hereof, Atlantic.Net may not purchase Services under this Agreement in that state. Atlantic.Net will notify BellSouth in writing and provide CLEC certification when it becomes certified to operate in any other state covered by this Agreement and, upon receipt thereof, Atlantic.Net may thereafter purchase Services pursuant to this Agreement in that state.

3. Term of the Agreement

3.1 The term of this Agreement shall commence on the Effective Date and shall apply to the BellSouth territory in the state(s) of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee. It shall continue in effect thereafter for a period of six (6) months (“Initial Term”), except as otherwise provided herein. After the Initial Term, this Agreement shall renew automatically in consecutive six (6) month increments (“Renewal Terms”) unless either Party notifies the other in writing no more than sixty (60) days and no less than thirty (30) days before the expiration date of the then current Term that it intends not to renew. This Agreement shall continue in effect as specified herein unless:

- a) Either Party terminates, without cause, at any time upon at least thirty (30) days prior written notice to the other Party; or
- b) Either Party terminates pursuant to the terms hereof upon the other’s breach;
- c) The Interconnection Agreement between the Parties is terminated and is not replaced by a subsequent interconnection agreement, in which case this Agreement shall terminate coterminous with the Interconnection Agreement.

3.2 Except as set forth in Attachment 3, if either Party breaches or defaults on any of the terms, conditions, or covenants of this Agreement, the other Party shall give the breaching Party written notice of such breach or default. If such breach or default continues for ten (10) days after such written notice, then in addition to all other rights and remedies of law or equity or otherwise, the non breaching Party may terminate this Agreement without any charge, obligation, or liability whatsoever for such breach, except for payment for Services already received and accepted.

4. Rates

Atlantic.Net shall pay the charges set forth in Exhibit A of this Agreement. If no rate is set forth for a Service in this Agreement then BellSouth shall not provide such Service until a rate has been established between the Parties. In the event that BellSouth is unable to bill the applicable rate under this Agreement for any Services provided pursuant to this Agreement, BellSouth reserves the right to

back-bill Atlantic.Net for such rate or for the difference between the rate actually billed and the rate that should have been billed pursuant to this Agreement.

5. Court Ordered Requests for Call Detail Records and Other Subscriber Information

5.1 Subpoenas Directed to BellSouth. Where BellSouth provides the Services for Atlantic.Net, BellSouth shall respond to subpoenas and court ordered requests delivered directly to BellSouth for the purpose of providing call detail records when the targeted telephone numbers belong to Atlantic.Net's End Users. Billing for such requests will be generated by BellSouth and directed to the law enforcement agency initiating the request. BellSouth shall maintain such information for Atlantic.Net End Users for the same length of time it maintains such information for its own End Users.

5.2 Subpoenas Directed to Atlantic.Net. Where BellSouth is providing to Atlantic.Net Services, then Atlantic.Net agrees that in those cases where Atlantic.Net receives subpoenas or court ordered requests regarding targeted telephone numbers belonging to Atlantic.Net's End Users, and where Atlantic.Net does not have the requested information, Atlantic.Net will advise the law enforcement agency initiating the request to redirect the subpoena or court ordered request to BellSouth for handling in accordance with 5.1 above.

5.3 In all other instances, where either Party receives a request for information involving the other Party's End User, the Party receiving the request will advise the law enforcement agency initiating the request to redirect such request to the other Party.

6. Liability and Indemnification

6.1 Atlantic.Net Liability. In the event that Atlantic.Net consists of two (2) or more separate entities as set forth in this Agreement and/or any Amendments hereto, all such entities shall be jointly and severally liable for the obligations of Atlantic.Net under this Agreement.

6.2 Liability for Acts or Omissions of Third Parties. BellSouth shall not be liable to Atlantic.Net for any act or omission of another Telecommunications company providing Services to Atlantic.Net.

6.3 Limitation of Liability

6.3.1 Except for any indemnification obligations of the Parties hereunder, each Party's liability to the other for any loss, cost, claim, injury, liability or expense, including reasonable attorneys' fees relating to or arising out of any negligent act or omission in its performance of this Agreement, whether in contract or in tort, shall

be limited to a credit for the actual cost of the Services not performed or improperly performed.

- 6.3.2 Limitations in Tariffs. A Party may, in its sole discretion, provide in its tariffs and contracts with its End Users and third parties that relate to any Service provided or contemplated under this Agreement, that to the maximum extent permitted by applicable law, such Party shall not be liable to the End User or third party for (i) any loss relating to or arising out of this Agreement, whether in contract, tort or otherwise, that exceeds the amount such Party would have charged that applicable person for the Service that gave rise to such loss and (ii) consequential damages. To the extent that a Party elects not to place in its tariffs or contracts such limitations of liability, and the other Party incurs a loss as a result thereof, such Party shall indemnify and reimburse the other Party for that portion of the loss that would have been limited had the first Party included in its tariffs and contracts the limitations of liability that such other Party included in its own tariffs at the time of such loss.
- 6.3.3 Neither BellSouth nor Atlantic.Net shall be liable for damages to the other Party's terminal location, equipment or End User premises resulting from the furnishing of a Service, including, but not limited to, the installation and removal of equipment or associated wiring, except to the extent caused by a Party's negligence or willful misconduct or by a Party's failure to ground properly a local loop after disconnection.
- 6.3.4 Under no circumstance shall a Party be responsible or liable for indirect, incidental, or consequential damages, including, but not limited to, economic loss or lost business or profits, damages arising from the use or performance of equipment or software, or the loss of use of software or equipment, or accessories attached thereto, delay, error, or loss of data. In connection with this limitation of liability, each Party recognizes that the other Party may, from time to time, provide advice, make recommendations, or supply other analyses related to the Services described in this Agreement, and, while each Party shall use diligent efforts in this regard, the Parties acknowledge and agree that this limitation of liability shall apply to provision of such advice, recommendations, and analyses.
- 6.3.5 To the extent any specific provision of this Agreement purports to impose liability, or limitation of liability, on either Party different from or in conflict with the liability or limitation of liability set forth in this Section, then with respect to any facts or circumstances covered by such specific provisions, the liability or limitation of liability contained in such specific provision shall apply.
- 6.4 Indemnification for Certain Claims. The Party providing Services hereunder, its Affiliates and its parent company, shall be indemnified, defended and held harmless by the Party receiving Services hereunder against any claim, loss or damage arising from the receiving Party's use of the Services provided under this Agreement pertaining to (1) claims for libel, slander or invasion of privacy arising from the

content of the receiving Party's own communications, or (2) any claim, loss or damage claimed by the End User of the Party receiving Services arising from such company's use or reliance on the providing Party's Services, actions, duties, or obligations arising out of this Agreement.

- 6.5 Disclaimer. EXCEPT AS SPECIFICALLY PROVIDED TO THE CONTRARY IN THIS AGREEMENT, NEITHER PARTY MAKES ANY REPRESENTATIONS OR WARRANTIES TO THE OTHER PARTY CONCERNING THE SPECIFIC QUALITY OF ANY SERVICES, OR FACILITIES PROVIDED UNDER THIS AGREEMENT. THE PARTIES DISCLAIM, WITHOUT LIMITATION, ANY WARRANTY OR GUARANTEE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, OR FROM USAGES OF TRADE.

7. Intellectual Property Rights and Indemnification

- 7.1 No License. No patent, copyright, trademark or other proprietary right is licensed, granted or otherwise transferred by this Agreement. The Parties are strictly prohibited from any use, including but not limited to, in the selling, marketing, promoting or advertising of Telecommunications Services, of any name, service mark, logo or trademark (collectively, the "Marks") of the Other Party. The Marks include those Marks owned directly by a Party or its Affiliate(s) and those Marks that a Party has a legal and valid license to use. The Parties acknowledge that they are separate and distinct and that each provides a separate and distinct service and agree that neither Party may, expressly or impliedly, state, advertise or market that it is or offers the same service as the Other Party or engage in any other activity that may result in a likelihood of confusion between its own service and the service of the Other Party.

- 7.2 Ownership of Intellectual Property. Any intellectual property that originates from or is developed by a Party shall remain the exclusive property of that Party. Except for a limited, non assignable, non exclusive, non transferable license to use patents or copyrights to the extent necessary for the Parties to use any facilities or equipment (including software) or to receive any Service solely as provided under this Agreement, no license in patent, copyright, trademark or trade secret, or other proprietary or intellectual property right, now or hereafter owned, controlled or licensable by a Party, is granted to the other Party. Neither shall it be implied nor arise by estoppel. Any trademark, copyright or other proprietary notices appearing in association with the use of any facilities or equipment (including software) shall remain on the documentation, material, product, service, equipment or software. It is the responsibility of each Party to ensure at no additional cost to the other Party that it has obtained any necessary licenses in relation to intellectual property of third parties used in its network that may be required to enable the other Party to use any facilities or equipment (including software), to receive any service, or to perform its respective obligations under this Agreement.

7.3 Intellectual Property Remedies

7.3.1 Indemnification. The Party providing a Service pursuant to this Agreement will defend the Party receiving such Service or data provided as a result of such Service against claims of infringement arising solely from the use by the receiving Party of such Service in the manner contemplated under this Agreement and will indemnify the receiving Party for any damages awarded based solely on such claims in accordance with Section 6 preceding.

7.3.2 Claim of Infringement. In the event that use of any facilities or equipment (including software), becomes, or in the reasonable judgment of the Party who owns the affected network is likely to become, the subject of a claim, action, suit, or proceeding based on intellectual property infringement, then said Party shall promptly and at its sole expense and sole option, but subject to the limitations of liability set forth below:

7.3.2.1 modify or replace the applicable facilities or equipment (including software) while maintaining form and function, or

7.3.2.2 obtain a license sufficient to allow such use to continue.

7.3.2.3 In the event Section 7.3.2.1 or 7.3.2.2 are commercially unreasonable, then said Party may terminate, upon reasonable notice, this Agreement with respect to use of, or Services provided through use of, the affected facilities or equipment (including software), but solely to the extent required to avoid the infringement claim.

7.3.3 Exception to Obligations. Neither Party's obligations under this Section shall apply to the extent the infringement is caused by: (i) modification of the facilities or equipment (including software) by the indemnitee; (ii) use by the indemnitee of the facilities or equipment (including software) in combination with equipment or facilities (including software) not provided or authorized by the indemnitor, provided the facilities or equipment (including software) would not be infringing if used alone; (iii) conformance to specifications of the indemnitee which would necessarily result in infringement; or (iv) continued use by the indemnitee of the affected facilities or equipment (including software) after being placed on notice to discontinue use as set forth herein.

7.3.4 Exclusive Remedy. The foregoing shall constitute the Parties' sole and exclusive remedies and obligations with respect to a third party claim of intellectual property infringement arising out of the conduct of business under this Agreement.

7.3.5 Dispute Resolution. Any claim arising under this Section 7 shall be brought in a court of competent jurisdiction.

8. Proprietary and Confidential Information

- 8.1 Proprietary and Confidential Information. It may be necessary for BellSouth and Atlantic.Net, each as the “Discloser,” to provide to the other Party, as “Recipient,” certain proprietary and confidential information (including trade secret information) including but not limited to technical, financial, marketing, staffing and business plans and information, strategic information, proposals, request for proposals, specifications, drawings, maps, prices, costs, costing methodologies, procedures, processes, business systems, software programs, techniques, customer account data, call detail records and like information (collectively the “Information”). All such Information conveyed in writing or other tangible form shall be clearly marked with a confidential or proprietary legend. Information conveyed orally by the Discloser to Recipient shall be designated as proprietary and confidential at the time of such oral conveyance, shall be reduced to writing by the Discloser within forty-five (45) days thereafter, and shall be clearly marked with a confidential or proprietary legend.
- 8.2 Use and Protection of Information. Recipient agrees to protect such Information of the Discloser provided to Recipient from whatever source from distribution, disclosure or dissemination to anyone except employees of Recipient with a need to know such Information solely in conjunction with Recipient’s analysis of the Information and for no other purpose except as authorized herein or as otherwise authorized in writing by the Discloser. Recipient will not make any copies of the Information inspected by it.
- 8.3 Exceptions. Recipient will not have an obligation to protect any portion of the Information which:
- 8.3.1 (a) is made publicly available by the Discloser or lawfully by a non-Party to this Agreement; (b) is lawfully obtained by Recipient from any source other than Discloser; (c) is previously known to Recipient without an obligation to keep it confidential; or (d) is released from the terms of this Agreement by Discloser upon written notice to Recipient.
- 8.4 Recipient agrees not to publish or use the Information for any advertising, sales or marketing promotions, press releases, or publicity matters that refer either directly or indirectly to the Information or to the Discloser or any of its affiliated companies.
- 8.5 The disclosure of Information neither grants nor implies any license to the Recipient under any trademark, patent, copyright, application or other intellectual property right that is now or may hereafter be owned by the Discloser.
- 8.6 Survival of Confidentiality Obligations. The Parties’ rights and obligations under this Section 8 shall survive and continue in effect until two (2) years after the expiration or termination date of this Agreement with regard to all Information exchanged during the term of this Agreement. Thereafter, the Parties’ rights and

obligations hereunder survive and continue in effect with respect to any Information that is a trade secret under applicable law.

9. Resolution of Disputes

In the event the Parties are unable to resolve any disputes that arises under this agreement, the aggrieved Party may exercise its legal right to pursue resolution of such dispute as appropriate.

10. Taxes

10.1 Definition. For purposes of this Section, the terms “taxes” and “fees” shall include but not be limited to federal, state or local sales, use, excise, gross receipts or other taxes or tax-like fees of whatever nature and however designated (including tariff surcharges and any fees, charges or other payments, contractual or otherwise, for the use of public streets or rights of way, whether designated as franchise fees or otherwise) imposed, or sought to be imposed, on or with respect to the Services furnished hereunder or measured by the charges or payments therefore, excluding any taxes levied on income.

10.2 Taxes and Fees Imposed Directly On Either Providing Party or Purchasing Party.

10.2.1 Taxes and fees imposed on the providing Party, which are not permitted or required to be passed on by the providing Party to its customer, shall be borne and paid by the providing Party.

10.2.2 Taxes and fees imposed on the purchasing Party, which are not required to be collected and/or remitted by the providing Party, shall be borne and paid by the purchasing Party.

10.3 Taxes and Fees Imposed on Purchasing Party But Collected And Remitted By Providing Party.

10.3.1 Taxes and fees imposed on the purchasing Party shall be borne by the purchasing Party, even if the obligation to collect and/or remit such taxes or fees is placed on the providing Party.

10.3.2 To the extent permitted by applicable law, any such taxes and/or fees shall be shown as separate items on applicable billing documents between the Parties. Notwithstanding the foregoing, the purchasing Party shall remain liable for any such taxes and fees regardless of whether they are actually billed by the providing Party at the time that the respective Service is billed.

10.3.3 If the purchasing Party determines that in its opinion any such taxes or fees are not payable, the providing Party shall not bill such taxes or fees to the purchasing Party if the purchasing Party provides written certification, reasonably satisfactory to the providing Party, stating that it is exempt or otherwise not subject to the tax or fee,

setting forth the basis therefor, and satisfying any other requirements under applicable law. If any authority seeks to collect any such tax or fee that the purchasing Party has determined and certified not to be payable, or any such tax or fee that was not billed by the providing Party, the purchasing Party may contest the same in good faith, at its own expense. In any such contest, the purchasing Party shall promptly furnish the providing Party with copies of all filings in any proceeding, protest, or legal challenge, all rulings issued in connection therewith, and all correspondence between the purchasing Party and the taxing authority.

10.3.4 In the event that all or any portion of an amount sought to be collected must be paid in order to contest the imposition of any such tax or fee, or to avoid the existence of a lien on the assets of the providing Party during the pendency of such contest, the purchasing Party shall be responsible for such payment and shall be entitled to the benefit of any refund or recovery.

10.3.5 If it is ultimately determined that any additional amount of such a tax or fee is due to the imposing authority, the purchasing Party shall pay such additional amount, including any interest and penalties thereon.

10.3.6 Notwithstanding any provision to the contrary, the purchasing Party shall protect, indemnify and hold harmless (and defend at the purchasing Party's expense) the providing Party from and against any such tax or fee, interest or penalties thereon, or other charges or payable expenses (including reasonable attorney fees) with respect thereto, which are incurred by the providing Party in connection with any claim for or contest of any such tax or fee.

10.3.7 Each Party shall notify the other Party in writing of any assessment, proposed assessment or other claim for any additional amount of such a tax or fee by a taxing authority; such notice to be provided, if possible, at least ten (10) days prior to the date by which a response, protest or other appeal must be filed, but in no event later than thirty (30) days after receipt of such assessment, proposed assessment or claim.

10.4 Taxes and Fees Imposed on Providing Party But Passed On To Purchasing Party.

10.4.1 Taxes and fees imposed on the providing Party, which are permitted or required to be passed on by the providing Party to its customer, shall be borne by the purchasing Party.

10.4.2 To the extent permitted by applicable law, any such taxes and/or fees shall be shown as separate items on applicable billing documents between the Parties. Notwithstanding the foregoing, the purchasing Party shall remain liable for any such taxes and fees regardless of whether they are actually billed by the providing Party at the time that the respective Service is billed.

- 10.4.3 If the purchasing Party disagrees with the providing Party's determination as to the application or basis for any such tax or fee, the Parties shall consult with respect to the imposition and billing of such tax or fee. Notwithstanding the foregoing, the providing Party shall retain ultimate responsibility for determining whether and to what extent any such taxes or fees are applicable, and the purchasing Party shall abide by such determination and pay such taxes or fees to the providing Party. The providing Party shall further retain ultimate responsibility for determining whether and how to contest the imposition of such taxes and fees; provided, however, that any such contest undertaken at the request of the purchasing Party shall be at the purchasing Party's expense.
- 10.4.4 In the event that all or any portion of an amount sought to be collected must be paid in order to contest the imposition of any such tax or fee, or to avoid the existence of a lien on the assets of the providing Party during the pendency of such contest, the purchasing Party shall be responsible for such payment and shall be entitled to the benefit of any refund or recovery.
- 10.4.5 If it is ultimately determined that any additional amount of such a tax or fee is due to the imposing authority, the purchasing Party shall pay such additional amount, including any interest and penalties thereon.
- 10.4.6 Notwithstanding any provision to the contrary, the purchasing Party shall protect, indemnify and hold harmless (and defend at the purchasing Party's expense) the providing Party from and against any such tax or fee, interest or penalties thereon, or other reasonable charges or payable expenses (including reasonable attorneys' fees) with respect thereto, which are incurred by the providing Party in connection with any claim for or contest of any such tax or fee.
- 10.4.7 Each Party shall notify the other Party in writing of any assessment, proposed assessment or other claim for any additional amount of such a tax or fee by a taxing authority; such notice to be provided, if possible, at least ten (10) days prior to the date by which a response, protest or other appeal must be filed, but in no event later than thirty (30) days after receipt of such assessment, proposed assessment or claim.
- 10.4.8 Mutual Cooperation. In any contest of a tax or fee by one Party, the other Party shall cooperate fully by providing records, testimony and such additional information or assistance as may reasonably be necessary to pursue the contest. Further, the other Party shall be reimbursed for any reasonable and necessary out-of-pocket copying and travel expenses incurred in assisting in such contest.

11. Force Majeure

In the event performance of this Agreement, or any obligation hereunder, is either directly or indirectly prevented, restricted, or interfered with by reason of fire, flood, earthquake or like acts of God, wars, revolution, civil commotion,

explosion, acts of public enemy, embargo, acts of the government in its sovereign capacity, labor difficulties, including without limitation, strikes, slowdowns, picketing, or boycotts, unavailability of equipment from vendor, changes requested by Atlantic.Net, or any other circumstances beyond the reasonable control and without the fault or negligence of the Party affected, the Party affected, upon giving prompt notice to the other Party, shall be excused from such performance on a day-to-day basis to the extent of such prevention, restriction, or interference (and the other Party shall likewise be excused from performance of its obligations on a day-to-day basis until the delay, restriction or interference has ceased); provided, however, that the Party so affected shall use diligent efforts to avoid or remove such causes of non performance and both Parties shall proceed whenever such causes are removed or cease.

12. Modification of Agreement

12.1 Subject to the provisions of Section 18, if Atlantic.Net changes its name or makes changes to its company structure or identity due to a merger, acquisition, transfer or any other reason, it is the responsibility of Atlantic.Net to notify BellSouth of said change and request that an amendment to this Agreement, if necessary, be executed to reflect said change, and shall notify the appropriate state commission of such modification of company structure in accordance with the state rules governing such modification in company structure, if applicable.

12.2 No modification, amendment, supplement to, or waiver of the Agreement or any of its provisions shall be effective and binding upon the Parties unless it is made in writing and duly signed by the Parties.

13. Non-waiver of Legal Rights

Execution of this Agreement by either Party does not confirm or imply that the executing Party agrees with any decision(s) issued pursuant to the Telecommunications Act of 1996 and the consequences of those decisions on specific language in this Agreement. Neither Party waives its rights to appeal or otherwise challenge any such decision(s) and each Party reserves all of its rights to pursue any and all legal and/or equitable remedies, including appeals of any such decision(s).

14. Indivisibility

The Parties intend that this Agreement be indivisible and nonseverable, and each of the Parties acknowledges that it has assented to all of the covenants and promises in this Agreement as a single whole and that all of such covenants and promises, taken as a whole, constitute the essence of the contract. The Parties further acknowledge that this Agreement is intended to constitute a single transaction, that

the obligations of the Parties under this Agreement are interdependent, and that payment obligations under this Agreement are intended to be recouped against other payment obligations under this Agreement.

15. Severability

If any provision of this Agreement, or part thereof, shall be held invalid or unenforceable in any respect, the remainder of the Agreement or provision shall not be affected thereby, provided that the Parties shall negotiate in good faith to reformulate such invalid provision, or part thereof, or related provision, to as closely reflect the original intent of the Parties as possible, consistent with applicable law, and to effectuate such portions thereof as may be valid without defeating the intent of such provision.

16. Waivers

A failure or delay of either Party to enforce any of the provisions hereof, to exercise any option which is herein provided, or to require performance of any of the provisions hereof shall in no way be construed to be a waiver of such provisions or options, and each Party, notwithstanding such failure, shall have the right thereafter to insist upon the performance of any and all of the provisions of this Agreement.

17. Governing Law

This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Georgia without regard to its conflict of laws principles.

18. Assignments

Atlantic.Net shall not assign to any entity any right, obligation or duty, or any other interest hereunder, in whole or in part, without the prior written consent of BellSouth. The assignee must provide evidence of a state commission approved certification to provide Telecommunications Service in each state that Atlantic.Net is providing service. After BellSouth's consent, the Parties shall amend this Agreement to reflect such assignments and shall work cooperatively to implement any changes required due to such assignment. Any such assignment shall be subject to applicable charges negotiated between the Parties. All obligations and duties of any Party under this Agreement shall be binding on all successors in interest and assigns of such Party. No assignment or delegation hereof shall relieve the assignor of its obligations under this Agreement in the event that the assignee fails to perform such obligations. Notwithstanding anything to the contrary in this Section, Atlantic.Net shall not assign this Agreement to any Affiliate or non affiliated entity unless either (1) Atlantic.Net pays all bills, past due and current,

under this Agreement, or (2) Atlantic.Net's assignee expressly assumes liability for payment of such bills.

19. Notices

19.1 Every notice, consent, approval, or other communications required or contemplated by this Agreement shall be in writing and shall be delivered by hand, by overnight courier or by US mail postage prepaid, address to:

BellSouth Telecommunications, Inc.

BellSouth Local Contract Manager
600 North 19th Street, 8th floor
Birmingham, AL 35203

and

ICS Attorney
Suite 4300
675 West Peachtree Street
Atlanta, GA 30375

Atlantic.Net Broadband, Inc.

Jacques Ward
General Counsel
2815 NW 13th Street
Suite 201
Gainesville, Florida 32609

or at such other address as the intended recipient previously shall have designated by written notice to the other Party.

19.2 Unless otherwise provided in this Agreement, notice by mail shall be effective on the date it is officially recorded as delivered by return receipt or equivalent, and in the absence of such record of delivery, it shall be presumed to have been delivered the fifth day, or next business day after the fifth day, after it was deposited in the mails.

19.3 BellSouth shall post changes to business processes and policies not requiring an amendment to this Agreement, pursuant to all legal and regulatory requirements. Such notices will be posted to BellSouth's website.

20. Rule of Construction

No rule of construction requiring interpretation against the drafting Party hereof shall apply in the interpretation of this Agreement.

21. Headings of No Force or Effect

The headings of Articles and Sections of this Agreement are for convenience of reference only, and shall in no way define, modify or restrict the meaning or interpretation of the terms or provisions of this Agreement.

22. Multiple Counterparts

This Agreement may be executed in multiple counterparts, each of which shall be deemed an original, but all of which shall together constitute but one and the same document.

23. Compliance with Applicable Law

Each Party shall comply at its own expense with applicable law.

24. Good Faith Performance

Each Party shall act in good faith in its performance under this Agreement and, in each case in which a Party's consent or agreement is required or requested hereunder, such Party shall not unreasonably withhold or delay such consent or agreement.

25. Survival

The Parties' obligations under this Agreement which by their nature are intended to continue beyond the termination or expiration of this Agreement shall survive the termination or expiration of this Agreement.

26. Entire Agreement

26.1 This Agreement means the General Terms and Conditions, the Attachments identified in Section 26.2 below, and all documents identified therein, as such may

be amended from time to time and which are incorporated herein by reference, all of which, when taken together, are intended to constitute one indivisible agreement. This Agreement sets forth the entire understanding and supersedes prior agreements between the Parties as they relate to the Services provided under this Agreement and merges all prior discussions between them. Any orders placed under prior agreements between the Parties shall be governed by the terms of this Agreement and Atlantic.Net acknowledges and agrees that any and all amounts and obligations owed for services provisioned or orders placed under prior agreements between the Parties, related to the Services hereof, shall be due and owing under this Agreement and be governed by the terms and conditions of this Agreement as if such Services or orders were provisioned or placed under this Agreement. Neither Party shall be bound by any definition, condition, provision, representation, warranty, covenant or promise other than as expressly stated in this Agreement or as is contemporaneously or subsequently set forth in writing and executed by a duly authorized officer or representative of the Party to be bound thereby.

26.2 This Agreement includes Attachments with provisions for the following:

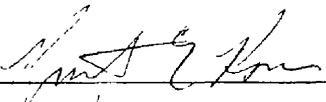

Services
Pre-Ordering, Ordering, Provisioning, Maintenance and Repair
Billing

27. Service Levels

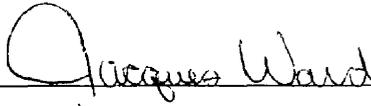

Notwithstanding any provision of any document referenced herein, BellSouth shall not be subject to any intervals, performance measurements or penalty payments associated with the performance of this Agreement.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

Services

1. Introduction

- 1.1 Upon request of Atlantic.Net, BellSouth shall provide the Services set forth in this Attachment, at the rates set forth in Exhibit A, and pursuant to the terms and conditions of this Agreement. The terms and conditions set forth in this Attachment apply only when the Services are purchased pursuant to this Agreement.

2. Wholesale Local Circuit Switching

- 2.1 Wholesale Local Circuit Switching is defined as all line-side and trunk-side facilities, plus the features, functions, and capabilities of the switch. The features, functions, and capabilities of the switch shall include the basic switching function of connecting lines to lines, lines to trunks, trunks to lines, and trunks to trunks. Wholesale Local Circuit Switching includes all vertical features that the switch is capable of providing, including custom calling, custom local area signaling service features, and Centrex, as well as any technically feasible customized routing functions.
- 2.2 BellSouth shall provide Wholesale Local Circuit Switching for Atlantic.Net at the rates set forth in this Agreement when Atlantic.Net: (1) serves an End User with four (4) or more voice grade (DS0) equivalents or lines served by BellSouth in Zone 1 of one of the following MSAs: Atlanta, GA; Miami, FL; Orlando, FL; Ft. Lauderdale, FL; Charlotte-Gastonia-Rock Hill, NC; Greensboro-Winston Salem-High Point, NC; Nashville, TN; and New Orleans, LA; or (2) serves an End User with a DS1 or higher capacity Loop in any service area covered by this Agreement. The Wholesale Local Circuit Switching rate shall apply to all voice grade (DS0) equivalents or lines where (1) applies.
- 2.3 Intercarrier compensation for Atlantic.Net's arrangements utilizing Wholesale Local Circuit Switching shall be governed by the provisions of the UNE attachment of the Parties' Interconnection Agreement.
- 2.4 Wholesale Port Features
- 2.4.1 Charges for wholesale Ports are as set forth in Exhibit A and include switch based features.
- 2.4.2 Where applicable and available, non-switch-based services at BellSouth's retail rates may be ordered with wholesale Ports.
- 2.5 Provision for Wholesale Local Circuit Switching

- 2.5.1 BellSouth shall perform routine testing (e.g., Mechanized Loop Tests (MLT) and test calls such as 105, 107 and 108 type calls) and fault isolation on a mutually agreed upon schedule.
- 2.5.2 BellSouth shall control congestion points such as those caused by radio station call-ins and network routing abnormalities. All traffic shall be restricted in a nondiscriminatory manner.
- 2.5.3 BellSouth shall perform manual call trace and permit customer originated call trace. BellSouth shall provide Switching Service Point (SSP) capabilities and signaling software to interconnect the signaling links destined to the Signaling Transfer Point Switch (STPS). These capabilities shall adhere to the technical specifications set forth in the applicable industry standard technical references.
- 2.5.4 BellSouth shall provide interfaces to adjuncts through Telcordia standard interfaces. These adjuncts may include, but are not limited to, the Service Circuit Node and Automatic Call Distributors. BellSouth shall offer to Atlantic.Net all Advanced Intelligent Network (AIN) triggers in connection with its Service Management System and Service Creation Environment (SMS/SCE) offering.
- 2.6 Wholesale Local Circuit Switching Interfaces
 - 2.6.1 Atlantic.Net shall order ports and associated interfaces compatible with the services it wishes to provide as listed in Exhibit A. BellSouth shall provide the following local switching interfaces:
 - 2.6.1.1 Standard Tip/Ring interface including loopstart or groundstart, on-hook signaling (e.g., for calling number, calling name and message waiting lamp);
 - 2.6.1.2 Coin phone signaling;
 - 2.6.1.3 Basic Rate Interface ISDN adhering to appropriate Telcordia Technical Requirements;
 - 2.6.1.4 Two-wire analog interface to PBX;
 - 2.6.1.5 Four-wire analog interface to PBX;
 - 2.6.1.6 Four-wire DS1 interface to PBX or customer provided equipment (e.g. computers and voice response systems);
 - 2.6.1.7 Primary Rate ISDN to PBX adhering to ANSI standards Q.931, Q.932 and appropriate Telcordia Technical Requirements;
 - 2.6.1.8 Switched Fractional DS1 with capabilities to configure Nx64 channels (where N = 1 to 24); and

- 2.6.1.9 Loops adhering to Telcordia TR-NWT-08 and TR-NWT-303 specifications to interconnect Digital Loop Carriers.
- 2.6.2 All End Users of Atlantic.Net who have service provisioned via 4-Wire ISDN DS1 Port with E911 Locator Capability shall physically be located in the E911 Tandem Switch service area.
- 2.6.3 Atlantic.Net shall pass its End User's telephone number to BellSouth over the Primary Interface (PRI) trunk group via ANI or via direct Centralized Automatic Message Accounting (CAMA) trunks to the appropriate E911 tandem switch.
- 2.6.4 Atlantic.Net shall maintain the individual telephone number and the correct corresponding address/location data, including maintaining the End User listed address as the actual physical End User location in the E911 Automatic Location Identification (ALI) Database.
- 2.6.5 Atlantic.Net will be responsible and liable for any errors resulting from the submission of invalid telephone number and address/location data for the Atlantic.Net's End Users.
- 2.7 Wholesale Local Circuit Switching – Tandem Switching
 - 2.7.1 Tandem Switching is defined as: (i) trunk connect facilities, which include, but are not limited to, the connection between trunk termination at a cross connect panel and switch trunk card; (ii) the basic switch trunk function of connecting trunks to trunks; and (iii) the functions that are centralized in the Tandem Switches (as distinguished from separate end office switches), including but not limited to call recording, the routing of calls to operator services and signaling conversion features.
 - 2.7.2 Where Atlantic.Net utilizes portions of the BellSouth network in originating or terminating traffic, the Tandem Switching rates are applied in call scenarios where the Tandem Switching network element has been utilized. BellSouth will charge a melded rate that takes into account the average percentage of calls that utilize the Tandem Switching network element utilized for an interoffice call originating from a wholesale port and terminating to a BellSouth, Independent Company or Facility Based CLEC office. BellSouth shall apply the melded Tandem Switching rate for every call in these scenarios. BellSouth shall utilize the melded Tandem Switching Rate until BellSouth has the capability to measure actual Tandem Switch usage in each call scenario specifically mentioned above.
 - 2.7.3 Technical Requirements
 - 2.7.3.1 Tandem Switching shall have the same capabilities or equivalent capabilities as those described in Telcordia TR-TSY-000540 Issue 2R2, Tandem Supplement,

6/1/90. The requirements for Tandem Switching include but are not limited to the following:

- 2.7.3.1.1 Tandem Switching shall provide signaling to establish a tandem connection;
- 2.7.3.1.2 Tandem Switching will provide screening as jointly agreed to by Atlantic.Net and BellSouth;
- 2.7.3.1.3 Where applicable, Tandem Switching shall provide AIN triggers supporting AIN features where such routing is not available from the originating end office switch, to the extent such Tandem switch has such capability;
- 2.7.3.1.4 Where applicable, Tandem Switching shall provide access to Toll Free number database;
- 2.7.3.1.5 Tandem Switching shall provide connectivity to Public Safety Answering Points (PSAPs) where 911 solutions are deployed and the tandem is used for 911; and
- 2.7.3.1.6 Where appropriate, Tandem Switching shall provide connectivity for the purpose of routing transit traffic to and from other carriers.
- 2.7.3.2 BellSouth may perform testing and fault isolation on the underlying switch that is providing Tandem Switching. Such testing shall be testing routinely performed by BellSouth. The results and reports of the testing shall be made available to Atlantic.Net.
- 2.7.3.3 BellSouth shall control congestion points and network abnormalities. All traffic will be restricted in a non discriminatory manner.
- 2.7.3.4 Tandem Switching shall process originating toll-free traffic received from Atlantic.Net's local switch.
- 2.7.3.5 In support of AIN triggers and features, Tandem Switching shall provide SSP capabilities when these capabilities are not available from the Local Switching Network Element to the extent such Tandem Switch has such capability.
- 2.7.3.6 Upon Atlantic.Net's purchase of overflow trunk groups, Tandem Switching shall provide an alternate routing pattern for Atlantic.Net's traffic overflowing from direct end office high usage trunk groups.

3. Wholesale Common (Shared) Transport

- 3.1 Wholesale Common (Shared) Transport is defined as transmission facilities shared by more than one carrier, including BellSouth, between end office switches, between end office switches and tandem switches, and between tandem switches, in BellSouth's network. Where BellSouth Network Elements are connected by intraoffice wiring, such wiring is provided as part of the Network Element and is

not Common (Shared) Transport. Wholesale Common (Shared) Transport is available only in connection with the Wholesale Access Line Platform.

- 3.2 In developing the market based rates for this Agreement, BellSouth evaluated the difference between the UNE prices and a commercially reasonable market rate for Wholesale Local Circuit Switching, including tandem switching, switch usage and Wholesale Common (Shared) Transport. For billing and administrative ease, BellSouth has included the difference between the UNE rates and the market rates for such Services in the Wholesale Local Circuit Switch Port rate element. Nothing in this Agreement shall be deemed to imply that the UNE prices for such Services are equivalent to a market rate for such Services.

4. Wholesale Access Line Platform

- 4.1 The Wholesale Access Line Platform provides an end to end telecommunications service by combining Wholesale Local Circuit Switching with, at a minimum, UNE Loops as set forth in the Interconnection Agreement and Wholesale Common Transport as set forth in this Agreement, which together provide local exchange service for the origination or termination of calls. The Wholesale Access Line Platform supports the same calling and feature requirements as described in the Wholesale Local Circuit Switching or port section of this Agreement and the ability to presubscribe to a primary carrier for intraLATA toll service and/or to presubscribe to a primary carrier for interLATA toll service. BellSouth shall make 911 updates in the BellSouth 911 database for Atlantic.Net's Wholesale Access Line Platform. BellSouth will not bill Atlantic.Net for 911 surcharges. Atlantic.Net is responsible for paying all 911 surcharges to the applicable governmental agency.

- 4.2 Various network elements may be used in providing Wholesale Access Line Platform offerings, including UNE Loops, UNE Dedicated Transport and other elements that BellSouth unbundles pursuant to FCC orders. All UNEs that may be included in the Wholesale Access Line Platform shall be ordered and provisioned pursuant to the Parties' Interconnection Agreement. Any reference in this Agreement or in Exhibit A to UNEs is intended for informational purposes only.

5. Wholesale Sub-Loop Feeder Network Element

- 5.1 Sub-Loop Feeder (SLF) provides connectivity between BellSouth's central office and cross-box (or other access point) that serves one or more End User locations.
- 5.2 SLF can be configured as 2-wire Copper, 4-wire Copper, or 4-wire DS1.
- 5.3 SLF will provide access to both the equipment and the features in the BellSouth central office and BellSouth cross box necessary to provide a 2-wire or 4-wire

communications pathway from the BellSouth central office to the BellSouth cross-box. This element will allow for the connection of Atlantic.Net's loop distribution elements onto BellSouth's feeder system.

5.4 Requirements

5.4.1 Atlantic.Net will extend a compatible cable to BellSouth's cross-box. BellSouth will connect the cable to a cross-connect panel inside the BellSouth cross-box to the requested level of feeder element. BellSouth will provide access to SLF where existing capacity is available. If there are no existing facilities, BellSouth will not place additional facilities.

5.4.2 SLF will be a designed circuit and BellSouth will provide a Design Layout Record (DLR) for this element.

5.4.3 BellSouth will provide SLF elements in accordance with applicable industry standards for these types of facilities. Where industry standards do not exist, BellSouth's TR73600 will be used to determine performance parameters.

5.5 Rates

5.5.1 Rates for these Services are as set forth in Exhibit A of this Attachment.

6. Wholesale Operator Services (Operator Call Processing and Directory Assistance)

6.1 Operator Call Processing (OCP) provides: (1) operator handling for call completion (for example, collect, third number billing, and manual calling card calls); (2) operator or automated assistance for billing after the End User has dialed the called number (for example, calling card calls); and (3) special services including but not limited to Busy Line Verification and Emergency Line Interrupt (ELI), Emergency Agency Call, and Operator-assisted Directory Assistance.

6.2 BellSouth will provide access to Wholesale Operator Call Processing.

6.3 Upon request for BellSouth OCP, BellSouth shall:

6.3.1 Process 0+ and 0- dialed local calls.

6.3.2 Process 0+ and 0- intraLATA toll calls.

6.3.3 Process calls that are billed to Atlantic.Net End User's calling card that can be validated by BellSouth.

6.3.4 Process person-to-person calls.

- 6.3.5 Process collect calls.
- 6.3.6 Provide the capability for callers to bill to a third party and shall also process such calls.
- 6.3.7 Process station-to-station calls.
- 6.3.8 Process Busy Line Verify and Emergency Line Interrupt requests.
- 6.3.9 Process emergency call trace originated by Public Safety Answering Points.
- 6.3.10 Process operator assisted directory assistance calls.
- 6.3.11 Adhere to equal access requirements, providing Atlantic.Net local End Users the same IXC access as provided to BellSouth End Users.
- 6.3.12 Exercise at least the same level of fraud control in providing Operator Service to Atlantic.Net that BellSouth provides for its own operator service.
- 6.3.13 Perform Billed Number Screening when handling Collect, Person-to-Person, and Billed-to-Third-Party calls.
- 6.3.14 Direct customer account and other similar inquiries to the customer service center designated by Atlantic.Net.
- 6.3.15 Provide call records to Atlantic.Net in accordance with ODUF standards specified in the Parties' Interconnection Agreement.
- 6.4 The interface requirements shall conform to the interface specifications for the platform used to provide Operator Services as long as the interface conforms to industry standards.
- 7. Wholesale Selective Call Routing Using Line Class Codes (SCR-LCC)**
 - 7.1.1 Where Atlantic.Net utilizes an operator services provider other than BellSouth, BellSouth will route Atlantic.Net's End User calls to that provider through Selective Call Routing using Line Class Codes (SCR-LCC).
 - 7.1.2 SCR-LCC provides the capability for Atlantic.Net to have its Operator Call Processing/Directory Assistance (OCP/DA) calls routed to BellSouth's OCP/DA platform for BellSouth provided Custom Branded or Unbranded OCP/DA or to its own or an alternate OCP/DA platform for Self-Branded OCP/DA. SCR-LCC is only available if line class code capacity is available in the requested BellSouth end office switches.

- 7.1.3 Custom Branding for Directory Assistance (DA) is not available for certain classes of service, including but not limited to Hotel/Motel services, WATS service, and certain PBX services.
- 7.1.4 Where available, Atlantic.Net specific and unique line class codes are programmed in each BellSouth end office switch where Atlantic.Net intends to serve End Users with customized OCP/DA branding. The line class codes specifically identify Atlantic.Net's End Users so OCP/DA calls can be routed over the appropriate trunk group to the requested OCP/DA platform. Additional line class codes are required in each end office if the end office serves multiple NPAs (i.e., a unique LCC is required per NPA), and/or if the end office switch serves multiple rate areas and Atlantic.Net intends to provide Atlantic.Net -branded OCP/DA to its End Users in these multiple rate areas.
- 7.1.5 SCR-LCC supporting Custom Branding and Self Branding require Atlantic.Net to order dedicated trunking from each BellSouth end office identified by Atlantic.Net, either to the BellSouth Traffic Operator Position System (TOPS) for Custom Branding or to the Atlantic.Net operator service provider for Self Branding. Separate trunk groups are required for Operator Services and for Directory Assistance. Rates for trunks are set forth in applicable BellSouth tariffs.
- 7.1.6 Unbranding - Unbranded DA and/or OCP calls ride common trunk groups provisioned by BellSouth from those end offices identified by Atlantic.Net to the BellSouth TOPS.
- 7.1.7 The rates for SCR-LCC are as set forth in this Attachment.

8. Wholesale Directory Assistance Service

- 8.1 Directory Assistance (DA) Service provides local and non-local End User telephone number listings with the option to complete the call at the caller's direction separate and distinct from local switching.
- 8.2 BellSouth will provide access to Wholesale Directory Assistance Service at the rates set forth in Exhibit A.
- 8.3 DA Service shall provide up to two listing requests per call. If available and if requested by Atlantic.Net's End User, BellSouth shall provide caller-optional directory assistance call completion service to one of the provided listings.
- 8.4 DA Service Updates
- 8.5 BellSouth shall update End User listings changes daily. These changes include:
- 8.5.1 New End User connections;

- 8.5.2 End User disconnections;
- 8.5.3 End User address changes.
- 8.6 These updates shall also be provided for non listed and non published numbers for use in emergencies.
- 8.7 Branding for Wholesale Operator Call Processing and Directory Assistance
 - 8.7.1 BellSouth's branding feature provides a definable announcement to Atlantic.Net End Users using DA/OCP prior to placing such End Users in queue or connecting them to an available operator or automated operator system. This feature allows Atlantic.Net to have its calls custom branded with Atlantic.Net's name on whose behalf BellSouth is providing DA and/or OCP.
 - 8.7.2 BellSouth offers three branding offering options to Atlantic.Net when ordering BellSouth's DA and OCP: BellSouth Branding, Unbranding and Custom Branding.
 - 8.7.3 Upon receipt of the custom branding order from Atlantic.Net, the order is considered firm after ten (10) business days. Should Atlantic.Net decide to cancel the order, written notification to Atlantic.Net's Local Contract Manager is required. If Atlantic.Net decides to cancel after ten (10) business days from receipt of the custom branding order, Atlantic.Net shall pay all charges per the order.
 - 8.7.4 Branding via Originating Line Number Screening (OLNS)
 - 8.7.4.1 Where Atlantic.Net is reselling BellSouth services pursuant to a resale or interconnection agreement or is purchasing Wholesale Local Circuit Switching hereunder, BellSouth Branding, Unbranding and Custom Branding are also available for DA, OCP or both via OLNS software. When utilizing this method of Unbranding or Custom Branding, Atlantic.Net shall not be required to purchase dedicated trunking.
 - 8.7.4.2 BellSouth Branding is the default branding offering.
 - 8.7.4.3 For BellSouth to provide Unbranding or Custom Branding via OLNS software for OCP or for DA, Atlantic.Net must have its Operating Company Number (OCN(s)) and telephone numbers reside in BellSouth's LIDB To implement Unbranding and Custom Branding via OLNS software, Atlantic.Net must submit a manual order form which requires, among other things, Atlantic.Net's OCN and a forecast, pursuant to the appropriate BellSouth form provided, for the traffic volume anticipated for each BellSouth TOPS during the peak busy hour. Atlantic.Net shall provide updates to such forecast on a quarterly basis and at any time such forecasted traffic volumes are expected to change significantly. Upon

Atlantic.Net's purchase of Unbranding or Custom Branding using OLNS software for any particular TOPS, all Atlantic.Net End Users served by that TOPS will receive the Unbranded "no announcement" or the Custom Branded announcement.

- 8.7.5 Facilities Based Carrier Branding
 - 8.7.5.1 Service Levels require Atlantic.Net to order dedicated trunking from their end office(s) point of interface to the BellSouth TOPS Switches. Rates for trunks are set forth in applicable BellSouth tariffs.
 - 8.7.5.2 BellSouth Branding is the default branding offering.
 - 8.7.5.3 Where Atlantic.Net utilizes an Operator Service Provider other than BellSouth, BellSouth will route Atlantic.Net End User calls to that provider through Selective Call Routing. Selective Call Routing can be purchased through the Interconnection Agreement.
- 9. Service Control Points/Databases**
 - 9.1 Access to any call-related database requires Atlantic.Net to purchase links to BellSouth's Service Control Points (SCPs) from applicable BellSouth tariffs.
 - 9.2 Line Information Database (LIDB)
 - 9.2.1 The BellSouth LIDB stores up-to-date information on working telephone numbers and Special Billing Numbers that is accessible through Common Channel Signalling (CCS) networks. LIDB data is used by Telecommunications Service Providers to validate billing of Collect, Billed-to Third Number and non proprietary calling card calls, to screen out attempts to bill calls to payphones, for Billing and fraud prevention.
 - 9.2.2 Where Atlantic.Net purchases Wholesale Local Circuit Switching, unbundled switching, resold services from BellSouth, or is a Facilities Based Carrier, BellSouth agrees to store in its LIDB certain information at the request of Atlantic.Net. Atlantic.Net understands that BellSouth provides access to information in its LIDB to various telecommunications service providers pursuant to applicable tariffs and agrees that information stored at the request of Atlantic.Net, pursuant to this Agreement, shall be available to those telecommunications service providers.
 - 9.2.2.1 Where Atlantic.Net is purchasing Wholesale Local Circuit Switching from BellSouth, and using the BellSouth service order process, Atlantic.Net's telephone line number data will be automatically loaded into LIDB via the service order process.

- 9.2.2.2 Where Atlantic.Net is a Facilities Based Carrier the mechanism to be used by Atlantic.Net for providing the initial telephone line number data load and subsequent updates into LIDB will be determined by mutual agreement. Within two (2) weeks after a request by Atlantic.Net, BellSouth shall provide Atlantic.Net with the End User telephone line number data items, which Atlantic.Net would have to provide in order to support each required LIDB function.
- 9.2.2.3 All additions, updates and deletions of Atlantic.Net data to the LIDB shall be solely at the direction of Atlantic.Net. Such direction from Atlantic.Net will not be required where the addition, update or deletion is necessary to perform standard fraud control measures (e.g., calling card auto-deactivation).
- 9.2.2.4 BellSouth shall provide priority updates to LIDB for Atlantic.Net data upon Atlantic.Net's request (e.g., to support fraud detection), via password protected telephone card, facsimile, or electronic mail within one hour of notice from the established BellSouth contact.
- 9.2.2.5 BellSouth shall perform backup and recovery of all of Atlantic.Net's data in LIDB including sending to LIDB all changes made since the date of the most recent backup copy.
- 9.2.2.6 BellSouth shall accept queries to LIDB associated with Atlantic.Net customer records and shall return responses in accordance with industry standards.
- 9.3 For purposes of LIDB storage the following definitions apply.
- 9.3.1 Definitions
- 9.3.1.1 Billing Number - a number that Atlantic.Net creates for the purpose of identifying an account for the imposition of charges. This number may be a line or a special billing number.
- 9.3.1.2 Line Number - a ten-digit number that identifies a telephone line administered by Atlantic.Net.
- 9.3.1.3 Special Billing Number - a ten digit (10) number that identifies a billing account established by Atlantic.Net.
- 9.3.1.4 Calling Card Number - a billing number plus PIN number.
- 9.3.1.5 PIN Number - a four (4) digit security code assigned by Atlantic.Net that is added to a billing number to compose a fourteen (14) digit calling card number.
- 9.3.1.6 Toll Billing Exception Indicator - associated with a billing number to indicate that it is considered invalid for billing of collect calls or third number calls or both, by Atlantic.Net.

- 9.3.1.7 Billed Number Screening - refers to the query service used to determine whether a toll billing exception indicator is present for a particular billing number.
- 9.3.1.8 Calling Card Validation - refers to the query service used to determine whether a particular calling card number exists as stated or otherwise provided by a caller.
- 9.3.1.9 Billing Number Information - information about billing number, Calling Card number and toll billing exception indicator provided to BellSouth by Atlantic.Net.
- 9.3.1.10 Account Owner – name of the local exchange telecommunications company that is providing dial tone on a subscriber line.
- 9.3.1.11 GetData – refers to the query service used to determine, at a minimum, the Account Owner and/or Regional Accounting Office/Billing Service Provider for a line number. This query service may be modified to provide additional information in the future.
- 9.3.1.12 OLNS – refers to the query service used to determine the billing, screening and call handling indicators, station type, Billing Service Provider and Account Owner provided to BellSouth by Atlantic.Net for originating line numbers.
- 9.3.2 BellSouth will provide responses to on-line, call-by-call queries to local exchange line and/or billing number information for the following purposes:
 - 9.3.3 Billed Number Screening
 - 9.3.3.1 BellSouth is authorized to use the billing number information to determine whether Atlantic.Net has identified the billing number as one that should not be billed for collect or third number calls.
 - 9.3.4 Calling Card Validation
 - 9.3.4.1 BellSouth is authorized to validate a fourteen (14) digit Calling Card number where the first ten (10) digits are a line number or special billing number assigned by BellSouth and where the last four (4) digits (PIN) are a security code assigned by BellSouth.
 - 9.3.5 OLNS
 - 9.3.5.1 BellSouth is authorized to provide originating line screening information for billing and services restrictions, station type, Billing Service Provider and Account Owner on the lines of Atlantic.Net from which a call originates.
 - 9.3.6 GetData
 - 9.3.6.1 BellSouth is authorized to provide, at a minimum, the Account Owner and/or Regional Accounting Office/Billing Service Provider information on the lines of

Atlantic.Net indicating the local service provider and where billing records are to be sent for settlement purposes. This query service may be modified to provide additional information in the future.

9.3.7 Fraud Control

9.3.7.1 BellSouth will provide seven (7) days per week, twenty four (24) hours per day, fraud monitoring on Calling Cards, bill-to-third and collect calls made to numbers in BellSouth's LIDB, provided that such information is included in the LIDB query. BellSouth will establish fraud alert thresholds and will notify Atlantic.Net of fraud alerts so that Atlantic.Net may take action it deems appropriate.

9.3.8 Responsibilities of the Parties

9.3.8.1 BellSouth will administer all data stored in the LIDB, including the data provided by Atlantic.Net pursuant to this Agreement, in the same manner as BellSouth's data for BellSouth's End User customers.

9.3.8.2 Atlantic.Net is responsible for the completeness and accuracy of the data being provided to BellSouth.

9.3.8.3 BellSouth shall not be responsible to Atlantic.Net for any lost revenue which may result from BellSouth's administration of the LIDB pursuant to its established practices and procedures as they exist and as they may be changed by BellSouth in its sole discretion from time to time.

9.3.9 Billing and Collection Customers

9.3.9.1 BellSouth currently has in effect numerous billing and collection agreements with various interexchange carriers and billing clearinghouses and as such these Billing and Collection Customers (B&C Customers) query BellSouth's LIDB to determine whether to accept various billing options from End Users. Until such time as BellSouth implements in its LIDB and its supporting systems the means to differentiate Atlantic.Net's data from BellSouth's data, the following terms and conditions shall apply:

9.3.9.1.1 BellSouth will identify Atlantic.Net's End User originated long distance charges and will return those charges to the interexchange carrier as not covered by the existing B&C agreement with interexchange carriers for handling of long distance charges by their End Users.

9.3.9.1.2 BellSouth shall have no obligation to become involved in any disputes between Atlantic.Net and B&C Customers. BellSouth will not issue adjustments for charges billed on behalf of any B&C Customer to Atlantic.Net. It shall be the

responsibility of Atlantic.Net and the B&C Customers to negotiate and arrange for any appropriate adjustments.

- 9.3.10 Fees for Service and Taxes
 - 9.3.10.1 Atlantic.Net will not be charged a fee for storage services provided by BellSouth to Atlantic.Net.
 - 9.3.10.2 Sales, use and all other taxes (excluding taxes on BellSouth's income) determined by BellSouth or any taxing authority to be due to any federal, state or local taxing jurisdiction with respect to the provision of the service set forth herein will be paid by Atlantic.Net.
- 9.4 Wholesale Calling Name (CNAM) Database Service
 - 9.4.1 CNAM is the ability to associate a name with the calling party number, allowing the End User (to which a call is being terminated) to view the calling party's name before the call is answered. The calling party's information is accessed by queries launched to the BellSouth Wholesale CNAM database. This service is only provided where Atlantic.Net loads and stores its End User names in the BellSouth CNAM SCPs.
 - 9.4.2 Atlantic.Net CNAM records provided for storage in the BellSouth CNAM SCP shall be available, on a SCP query basis only, to all Parties querying the BellSouth CNAM SCP. Further, CNAM service shall be provided by each Party consistent with state and/or federal regulation.
 - 9.4.3 The mechanism to be used by Atlantic.Net for initial CNAM record load and/or updates shall be determined by mutual agreement. The initial load and all updates shall be provided by Atlantic.Net in the BellSouth specified format and shall contain records for every working telephone number that can originate phone calls. It is the responsibility of Atlantic.Net to provide accurate information to BellSouth on a current basis.
 - 9.4.4 Updates to the CNAM database shall occur no less than once a week, reflect service order activity affecting either name or telephone number, and involve only record additions, deletions or changes.
 - 9.4.5 Atlantic.Net shall submit to BellSouth a notice of its intent to access and utilize BellSouth's Wholesale CNAM Database Services. Said notice shall be in writing no less than sixty (60) days prior to Atlantic.Net's requested date of access to BellSouth's Wholesale CNAM Database Services and shall be addressed to Atlantic.Net's Local Contract Manager.
 - 9.4.6 In order to formulate a CNAM query to be sent to the BellSouth CNAM SCP, Atlantic.Net shall provide its own CNAM Switching Service Point (SSP).

Atlantic.Net's CNAM SSPs must be compliant with TR-NWT-001188, "CLASS Calling Name Delivery Generic Requirements".

10. Remote Site Line Sharing

10.1 General

10.2 Remote Site Line Sharing is defined as the process by which Atlantic.Net provides digital subscriber line service over the same copper sub-loop that BellSouth uses to provide voice service, with BellSouth using the low frequency portion of the loop and Atlantic.Net using the high frequency spectrum (as defined below) of the sub-loop. The Unbundled Sub-Loop Distribution facility is a dedicated transmission facility that BellSouth provides from an End User's point of demarcation to a BellSouth cross-connect device. The BellSouth cross-connect device may be located within a remote terminal (RT) or a stand-alone cross-box in the field or in the equipment room of a building. The unbundled sub-loop distribution media is a copper twisted pair that can be provisioned as a 2-Wire facility.

10.3 The High Frequency Spectrum is defined as the frequency range above the voiceband on a copper sub-loop facility carrying analog circuit-switched voiceband transmissions. Access to the High Frequency Spectrum is intended to allow Atlantic.Net the ability to provide Digital Subscriber Line (xDSL) data services to the End User for whom BellSouth provides voice services. The High Frequency Spectrum shall be available for any version of xDSL complying with Spectrum Management Class 5 of ANSI T1.417, American National Standard for Telecommunications, Spectrum Management for Loop Transmission Systems. BellSouth will continue to have access to the low frequency portion of the sub-loop spectrum (from 300 Hertz to at least 3000 Hertz, and potentially up to 3400 Hertz, depending on equipment and facilities) for the purposes of providing voice service. Atlantic.Net shall only use xDSL technology that is within the PSD mask for Spectrum Management Class 5 as found in the above-mentioned document.

10.4 Access to the High Frequency Spectrum requires an unloaded, 2-wire (Non-Designed) copper sub-loop. An unloaded copper sub-loop has no load coils, low-pass filters, range extenders, DAMLs, or similar devices and minimal bridged taps consistent with ANSI T1.413 and T1.601.

10.5 Procedures for High Frequency Spectrum Remote site Unbundled Sub-Loop Modification are posted at <http://www.interconnection.bellsouth.com/html/unes.html>. BellSouth will not modify a sub-loop for access to the High Frequency Spectrum if modification of that sub-loop significantly degrades BellSouth's voice service. If Atlantic.Net requests modifications on a sub-loop longer than 18,000 feet and requested modifications significantly degrade the voice services on the Loop, Atlantic.Net shall pay for the sub-loop to be restored to its original state.

- 10.6 The High Frequency Spectrum shall only be available on sub-loops provided by BellSouth on which BellSouth continues to provide analog retail voice service directly to a BellSouth End User. In the event the BellSouth End User terminates its BellSouth provided retail voice service for any reason, or in the event BellSouth disconnects the End User's retail voice service pursuant to its tariffs or applicable law, and Atlantic.Net desires to continue providing xDSL service on such sub-loop, Atlantic.Net shall be required to purchase a full stand-alone sub-loop pursuant to the Parties' Interconnection Agreement. To the extent commercially reasonable, BellSouth shall give Atlantic.Net notice in a reasonable time prior to disconnection of the retail voice End User. Such notice shall give Atlantic.Net an adequate opportunity to notify BellSouth of its intent to purchase such sub-loop. In those cases where BellSouth no longer provides retail voice service to the End User and Atlantic.Net purchases the full stand-alone sub-loop, Atlantic.Net will pay the appropriate recurring and nonrecurring rates for such sub-loop. In the event Atlantic.Net purchases a standalone voice grade sub-loop, Atlantic.Net acknowledges that such sub-loop may not remain xDSL compatible.
- 10.7 Only one competitive local exchange carrier shall be permitted access to the High Frequency Spectrum of any particular sub-loop.
- 10.8 Provisioning of High Frequency Spectrum and Splitter Space
- 10.8.1 BellSouth will provide Atlantic.Net with access to the High Frequency Spectrum as follows:
- 10.8.2 To order High Frequency Spectrum on a particular sub-loop, Atlantic.Net must have a Digital Subscriber Line Access Multiplexer (DSLAM) collocated at the remote site that serves the End User of such sub-loop.
- 10.8.3 Atlantic.Net may provide its own splitters or may order splitters in a remote site once the Atlantic.Net has installed its DSLAM at that remote site. Atlantic.Net may order BellSouth owned splitters at the rates set forth in Exhibit A.
- 10.8.4 Once a splitter is installed on behalf of Atlantic.Net in a remote site in which Atlantic.Net is located, Atlantic.Net shall be entitled to order the High Frequency Spectrum on lines served out of that remote site. BellSouth will bill and Atlantic.Net shall pay the applicable rate for Atlantic.Net's High Frequency Spectrum End User's activation.
- 10.9 BellSouth Owned Splitter
- 10.9.1 At Atlantic.Net request BellSouth will select, purchase, install and maintain a splitter at the remote site. The Atlantic.Net's meet point is at the BellSouth "cross connect" point located at the Feeder Distribution Interface (FDI). Atlantic.Net will provide a cable facility to the BellSouth FDI. BellSouth will splice the Atlantic.Net's cable to BellSouth's spare binding post in the FDI and use "cross

connects” to connect the Atlantic.Net’s cable facility to the BellSouth splitter. The splitter will route the high frequency portion of the circuit to the Atlantic.Net’s xDSL equipment in their collocation space. Access to the high frequency spectrum is not compatible with Foreign Exchange (FX) lines, ISDN, shall comply with ANSI T1.413 and other services listed in the technical section of this document.

10.9.2 The BellSouth splitter bifurcates the digital and voice band signals. The low frequency voice band portion of the circuit is routed back to the BellSouth switch. The high frequency digital traffic portion of the circuit is routed to the xDSL equipment in the Atlantic.Net’s Remote Terminal (RT) collocation space and routed back to the Atlantic.Net’s network. Atlantic.Net shall purchase ports on the splitter in increments of 24 ports.

10.9.3 BellSouth will install the splitter in (i) a common area close to Atlantic.Net’s collocation area, if possible; or (ii) in a BellSouth relay rack as close to Atlantic.Net’s DS0 termination point as possible. Atlantic.Net shall have access to the splitter for test purposes regardless of where the splitter is placed in the BellSouth premises. For purposes of this section, a common area is defined as an area in the remote site in which both Parties have access to a common test access point. BellSouth will cross-connect the splitter data ports to a specified Atlantic.Net DS0 at such time that a Atlantic.Net End User’s service is established.

10.10 CLEC Owned Splitter

10.10.1 Atlantic.Net may at its option purchase, install and maintain splitters in its collocation arrangements. Atlantic.Net may use such splitters for access to its End Users and to provide digital line subscriber services to its End Users using the High Frequency Spectrum. Atlantic.Net will be required to activate cable pairs in no less than eight (8) pair increments.

10.10.2 Any splitters installed by Atlantic.Net in its collocation arrangement shall comply with ANSI T1.413, Annex E, or any future ANSI splitter Standards. Atlantic.Net may install any splitters that BellSouth deploys or permits to be deployed for itself or any BellSouth affiliate.

10.11 **Ordering**

10.11.1 Atlantic.Net shall use BellSouth’s Remote Splitter Ordering Document (RSOD) to order and activate splitters from BellSouth or to activate CLEC owned splitters at an RT for use with High Frequency Spectrum.

10.11.2 BellSouth will provide Atlantic.Net the Local Service Request (LSR) format to be used when ordering the High Frequency Spectrum.

- 10.11.3 BellSouth will provide Atlantic.Net access to Preordering Loop Makeup (LMU) in accordance with the terms of the Parties' Interconnection Agreement. For billing and administrative ease, during the term of this Agreement, BellSouth will continue to offer LMU and Unbundled Loop Modification (ULM) for the Services described herein at the rates set forth in the Interconnection Agreement. Upon renewal of this Agreement, BellSouth reserves the right to charge market rates for LMU and ULM used in conjunction with the Services hereunder.
- 10.11.4 BellSouth shall test the data portion of the sub-loop to ensure the continuity of the wiring for Atlantic.Net's data.
- 10.12 Maintenance and Repair
- 10.12.1 Atlantic.Net shall have access for repair and maintenance purposes to any sub-loop for which it has access to the High Frequency Spectrum. If Atlantic.Net is using a BellSouth owned splitter, Atlantic.Net may access the sub-loop at the point where the data signal exits. If Atlantic.Net provides its own splitter, it may test from the collocation space or the termination point.
- 10.12.2 BellSouth will be responsible for repairing voice services and the physical line between the network interface device at the End User's premises and the termination point. Atlantic.Net will be responsible for repairing data services. Each Party will be responsible for maintaining its own equipment.
- 10.12.3 Atlantic.Net shall inform its End Users to direct problems with the High Frequency portion of the sub-loop to Atlantic.Net, unless both voice and data services are impaired, in which event the End Users should call BellSouth.
- 10.12.4 Once a Party has isolated a trouble to the other Party's portion of the sub-loop, the Party isolating the trouble shall notify the End User that the trouble is on the other Party's portion of the sub-loop.
- 10.12.5 Notwithstanding anything else to the contrary in this Agreement, when BellSouth receives a voice trouble and isolates the trouble to the physical collocation arrangement leased by Atlantic.Net, BellSouth will notify Atlantic.Net. Atlantic.Net will provide at least one but no more than two (2) verbal connecting facility assignments (CFA) pair changes to BellSouth in an attempt to resolve the voice trouble. In the event a CFA pair change resolves the voice trouble, Atlantic.Net will provide BellSouth submit an LSR providing the new CFA pair information within twenty four (24) hours of the verbal notification. If the owner of the physical collocation arrangement fails to resolve the trouble by providing BellSouth with the verbal CFA pair changes, BellSouth may discontinue Atlantic.Net's access to the High Frequency Spectrum on such sub-loop. BellSouth will not be responsible for any loss of data as a result of this action and BellSouth shall not have any liability for disconnection of Atlantic.Net's access to the high frequency portion of the sub-loop.

11. Operational Support Systems (OSS)

11.1 BellSouth has developed and made available the following electronic interfaces by which Atlantic.Net may submit LSRs electronically.

LENS	Local Exchange Navigation System
EDI	Electronic Data Interchange
TAG	Telecommunications Access Gateway

11.2 LSRs submitted by means of one of these electronic interfaces will incur an OSS electronic ordering charge. An individual LSR will be identified for billing purposes by its Purchase Order Number (PON). LSRs submitted by means other than one of these interactive interfaces (mail, fax, courier, etc.) will incur a manual order charge. All OSS charges are specified in the Parties' Interconnection Agreement.

11.3 Denial/Restoral OSS Charge

11.3.1 In the event Atlantic.Net provides a spreadsheet with a list of End Users to be denied and restored, rather than an LSR, each location on the list will require a separate PON and therefore will be billed as one LSR per location.

11.4 Cancellation OSS Charge

11.4.1 Atlantic.Net will incur an OSS charge for an accepted LSR that is later canceled.

11.4.2 Supplements or clarifications to a previously billed LSR will not incur another OSS charge.

11.5 Network Elements and Other Services Manual Additive

11.6 The Commissions in some states have ordered per element manual additive nonrecurring charges (NRC) for Network Elements and Other Services ordered by means other than one of the interactive interfaces. These ordered Network Elements and Other Services manual additive NRCs will apply in these states, rather than the charge per LSR. The per element charges are as specified in the Parties' Interconnection Agreement.

Maintenance and Repair**

TABLE OF CONTENTS

1. QUALITY OF PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR. 3

2. MISCELLANEOUS..... 4

PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR

- 1. QUALITY OF PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR**
- 1.1 The guidelines for pre-ordering, ordering, provisioning, and maintenance and repair are set forth in the various guides and business rules, as appropriate, and as they are amended from time to time during this Agreement. The guides and business rules are found at BellSouth's Interconnection website and are incorporated herein by reference.
- 1.2 BellSouth shall provision Services during its regular working hours. To the extent Atlantic.Net requests provisioning of Service to be performed outside BellSouth's regular working hours, or the work so requested requires BellSouth's technicians or Project Manager to work outside of regular working hours, overtime charges shall apply. Notwithstanding the foregoing, if such work is performed outside of regular working hours by a BellSouth technician or Project Manager during his or her scheduled shift and BellSouth does not incur any overtime charges in performing the work on behalf of Atlantic.Net, BellSouth will not assess Atlantic.Net additional charges beyond the rates and charges specified in this Agreement. To the extent Atlantic.Net requests project management for provisioning of Services under this Agreement, additional charges may apply.
- 1.3 Atlantic.Net shall conduct pre-ordering functions and order the Services described in this Agreement in the same manner, and using the same Operations Support Systems (OSS), as Atlantic.Net uses for pre-ordering and ordering as set forth in the Parties' Interconnection Agreement.
- 1.4 The Atlantic.Net agrees not to view, copy, or otherwise obtain access to the customer record information of any customer without that customer's permission. Atlantic.Net will obtain access to customer record information only in strict compliance with applicable laws, rules, or regulations of the state in which the service is provided. BellSouth reserves the right to audit Atlantic.Net's access to customer record information. If a BellSouth audit of Atlantic.Net's access to customer record information reveals that Atlantic.Net is accessing customer record information without having obtained the proper End User authorization, BellSouth upon reasonable notice to Atlantic.Net may take corrective action, including but not limited to suspending or terminating Atlantic.Net's electronic access to BellSouth's OSS functionality. All such information obtained through an audit shall be deemed Information covered by the Proprietary and Confidential Information section in the General Terms and Conditions of this Agreement.
- 1.5 Maintenance and Repair. Atlantic.Net may report and monitor service troubles and obtain repair services from BellSouth for the Services described in this

Agreement in the same manner as provided in the Parties' Interconnection Agreement.

- 1.6 Rates. Charges for use of OSS shall be as set forth pursuant to the Parties' Interconnection Agreement.

2. MISCELLANEOUS

- 2.1 Pending Orders. Orders pursuant to this Agreement placed in the hold or pending status by Atlantic.Net will be held for a maximum of thirty (30) days from the date the order is placed on hold. After such time, Atlantic.Net shall be required to submit a new service request. Incorrect or invalid requests returned to Atlantic.Net for correction or clarification will be held for thirty (30) days. If Atlantic.Net does not return a corrected request within thirty (30) days, BellSouth will cancel the request.

- 2.2 Single Point of Contact. Atlantic.Net will be the single point of contact with BellSouth for ordering activity pursuant to this Agreement, except that BellSouth may accept a request directly from another CLEC, or from BellSouth, acting with authorization of the affected End User, to disconnect the Services provided hereunder in order to permit the End User to change service providers. Atlantic.Net shall each execute a blanket letter of authorization with respect to customer requests so that prior proof of End User authorization will not be necessary with every request (except in the case of a local service freeze). The Parties shall each be entitled to adopt their own internal processes for verification of customer authorization for requests, provided, however, that such processes shall comply with applicable state and federal law and industry and regulatory guidelines. Pursuant to a request from another carrier, BellSouth may disconnect any network components or elements being used by Atlantic.Net to provide service to that End User and may reuse such network components, elements or facilities to enable such other carrier to provide service to the End User. BellSouth will notify Atlantic.Net that such a request has been processed but will not be required to notify Atlantic.Net in advance of such processing.

- 2.3 Neither BellSouth nor Atlantic.Net shall prevent or delay an End User from migrating to another carrier because of unpaid bills, denied service, or contract terms.

- 2.4 Use of Facilities. When a customer of Atlantic.Net elects to discontinue service and to transfer service to another local exchange carrier, including BellSouth, BellSouth shall have the right to reuse the facilities provided to Atlantic.Net by BellSouth. In addition, BellSouth may disconnect and reuse facilities when the facility is in a denied state and BellSouth has received a request to establish new or additional service or transfer of service from an End User or an End User's CLEC at the same address served by the denied facility. BellSouth will notify Atlantic.Net that such a request has been processed after the disconnect order has been completed.

- 2.5 Contact Numbers. The Parties agree to provide one another with toll-free nationwide (50 states) contact numbers for the purpose of ordering, provisioning and maintenance of Services.
- 2.6 Subscription Functions. In cases where BellSouth performs subscription functions for an interexchange carrier (IXC) (i.e. End User Preferred Interexchange Carrier (PIC) and End User Local Preferred Interexchange Carrier (LPIC) changes via Customer Account Record Exchange (CARE)), BellSouth will provide the affected IXCs with the Operating Company Number (OCN) of the local provider for the purpose of obtaining End User billing account and other End User information required under subscription requirements.
- 2.7 PIC, LPIC Charges. When Atlantic.Net's End User, served utilizing Wholesale Local Circuit Switching, changes its PIC or LPIC, and per BellSouth's FCC or state tariff and the interexchange carrier elects to charge the End User the PIC or LPIC change charge, BellSouth will bill the PIC or LPIC change charge to Atlantic.Net, which has the billing relationship with that End User, and Atlantic.Net may pass such charge to the End User.
- 2.8 Cancellation Charges. If Atlantic.Net cancels a request for Services ordered pursuant to this Agreement, any costs incurred by BellSouth in conjunction with the provisioning of Services pursuant to this Agreement will be recovered in accordance with the cancellation methodology set forth in BellSouth's Private Line Tariff or BellSouth's FCC No. 1 Tariff, Section 5.4.
- 2.9 Service Date Advancement Charges (a.k.a. Expedites). For Service Date Advancement requests by Atlantic.Net, Service Date Advancement charges will apply for intervals less than the due date provided by BellSouth.
- 2.10 Order Modification Charge. If Atlantic.Net modifies an order through submission of a supplemental order after being sent a Firm Order Confirmation (FOC) from BellSouth, Atlantic.Net shall pay the Order Modification Charge (OMC) or Order Modification Additional Dispatch (OMCAD) set forth in BellSouth's FCC No. 1 Tariff, Section 5 or the BellSouth's State E Tariffs, section 5 as applicable.

Attachment 3
Billing

TABLE OF CONTENTS

1. PAYMENT AND BILLING ARRANGEMENTS.....3

2. BILLING DISPUTES..... 6

BILLING

1 PAYMENT AND BILLING ARRANGEMENTS

- 1.1 Billing. BellSouth will bill through the Carrier Access Billing System (CABS), Integrated Billing System (IBS) and/or the Customer Records Information System (CRIS). BellSouth will format all bills in CABS Billing Output Specification (CBOS) Standard or CLUB/EDI format, depending on the type of service provided. For those Services where standards have not yet been developed, BellSouth's billing format will change as necessary when standards are finalized by the applicable industry forum.
 - 1.1.1 BellSouth will render bills each month on established bill days for each of Atlantic.Net's accounts. If Atlantic.Net requests multiple billing media or additional copies of the bills, BellSouth will provide these at the applicable tariff rate.
 - 1.1.2 BellSouth will bill Atlantic.Net in advance for all services to be provided during the ensuing billing period except charges associated with service usage and nonrecurring charges, which will be billed in arrears.
 - 1.1.3 Charges for Services will be calculated on an individual End User account level, including, if applicable, any charge for usage or usage allowances. BellSouth will also bill Atlantic.Net, and Atlantic.Net will be responsible for and remit to BellSouth, all charges applicable to said Services including but not limited to 911 and E911 charges, End Users common line charges, federal subscriber line charges, telecommunications relay charges (TRS), and franchise fees, unless otherwise ordered by a Commission.
 - 1.1.4 BellSouth will not perform billing and collection services for Atlantic.Net as a result of the execution of this Agreement.
- 1.2 Establishing Accounts. After submitting a credit profile and deposit, if required, and after receiving certification as a local exchange carrier from the appropriate regulatory agency, Atlantic.Net will provide the appropriate BellSouth advisory team/local contract manager the necessary documentation to enable BellSouth to establish accounts for the Services described in this Agreement. Such documentation shall include an Application for the establishment of Accounts, if applicable, proof of authority to provide telecommunications services, the appropriate Operating Company Numbers (OCN) for each state as assigned by the National Exchange Carriers Association (NECA), Carrier Identification Code (CIC), Access Customer Name and Abbreviation (ACNA), Blanket Letter of Authorization (LOA), Misdirected Number form, and a tax exemption certificate, if applicable. Notwithstanding anything to the contrary in this Agreement, Atlantic.Net may not order Services under a new account established in accordance with this Section 1.2 until thirty (30) days after all information specified in this Section 1.2 is received from Atlantic.Net.
- 1.3 Company Codes. If Atlantic.Net needs to change its company codes, OCN(s), ACNAs, and other identifying codes ("Company Codes") under which it operates when Atlantic.Net has

already been conducting business utilizing those Company Codes, Atlantic.Net shall pay all charges as a result of such conversions to the new Company Codes. Company Code conversion charges include, but are not limited to, all time required to make system updates to all of Atlantic.Net's End User customer records and will be handled in a separately negotiated agreement.

- 1.4 Payment Responsibility. Payment of all charges will be the responsibility of Atlantic.Net. Atlantic.Net shall make payment to BellSouth for all Services billed. Payments made by Atlantic.Net to BellSouth as payment on account will be credited to Atlantic.Net's accounts receivable master account. BellSouth will not become involved in billing disputes that may arise between Atlantic.Net and Atlantic.Net's End User.
- 1.5 Payment Due. Payment for Services provided is due on or before the next bill date in immediately available funds. Payment is considered to have been made when received by BellSouth.
- 1.6 Due Dates. If the payment due date falls on a Sunday or on a holiday that is observed on a Monday, the payment due date shall be the first non-holiday day following such Sunday or holiday. If the payment due date falls on a Saturday or on a holiday which is observed on Tuesday, Wednesday, Thursday, or Friday, the payment due date shall be the last non-holiday day preceding such Saturday or holiday. If payment is not received by the payment due date, a late payment charge, as set forth in Section 1.8, below, shall apply.
- 1.7 Tax Exemption. It is the responsibility of Atlantic.Net to provide BellSouth with a tax exemption certificate. Upon BellSouth's receipt of tax exemption certificate, the total amount billed to Atlantic.Net will not include those taxes or fees from which Atlantic.Net is exempt. Atlantic.Net will be solely responsible for the computation, tracking, reporting and payment of all taxes and like fees associated with the Services provided to the End User of Atlantic.Net.
- 1.8 Late Payment. If any portion of the payment is not received by BellSouth on or before the payment due date as set forth preceding, or if any portion of the payment is received by BellSouth in funds that are not immediately available to BellSouth, then a late payment charge shall be due to BellSouth. The late payment charge shall be the portion of the payment not received or made immediately available to BellSouth by the payment due date multiplied by a late factor and will be applied on a per bill basis. The late factor shall be as set forth in Section A2 of the General Subscriber Services Tariff, Section B2 of the Private Line Service Tariff or Section E2 of the Intrastate Access Tariff, as appropriate. In addition to any applicable late payment charges, Atlantic.Net may be charged a fee for all returned checks as set forth in Section A2 of the General Subscriber Services Tariff or pursuant to the applicable state law.
- 1.9 Discontinuing Service to Atlantic.Net. The procedures for discontinuing Service to Atlantic.Net are as follows:

- 1.9.1 BellSouth reserves the right to suspend or terminate Service in the event of prohibited, unlawful or improper use of BellSouth facilities or service, abuse of BellSouth facilities, or any other violation or noncompliance by Atlantic.Net of the rules and regulations of BellSouth's tariffs.
- 1.9.2 BellSouth reserves the right to suspend or terminate Service for nonpayment. If payment of amounts not subject to a Billing Dispute, as described in Section 2, is not received in immediately available funds by the bill date in the month after the original bill date, BellSouth will provide written notice to Atlantic.Net that additional applications for Service may be refused, that any pending orders for Service may not be completed, and/or that access to ordering systems may be suspended if payment of such amounts, and all other amounts not in dispute that become past due before refusal, incompleteness or suspension, is not received by wire transfer or cashier's check by the fifteenth day following the date of the notice. In addition, BellSouth may, at the same time, provide written notice to the person designated by Atlantic.Net to receive notices of noncompliance that BellSouth may discontinue the provision of existing Services to Atlantic.Net if payment of such amounts, and all other amounts not in dispute that become past due before discontinuance, is not received by wire transfer or cashier's check by the thirtieth (30) day following the date of the initial notice.
- 1.9.3 In the case of discontinuance of Services, all billed charges, as well as applicable termination charges, shall become due.
- 1.9.4 Discontinuance of service on Atlantic.Net's account will effect a discontinuance of service to Atlantic.Net's End Users. BellSouth will reestablish service for Atlantic.Net upon payment by wire transfer or cashier's check of all past due charges and the appropriate connection fee subject to BellSouth's normal application procedures. Atlantic.Net is solely responsible for notifying the End User of the discontinuance of the service. If within fifteen (15) days after Atlantic.Net's service has been discontinued and no arrangements to reestablish service have been made consistent with this subsection, Atlantic.Net's service will be disconnected.
- 1.10 Deposit Policy. Atlantic.Net shall complete the BellSouth Credit Profile and provide information to BellSouth regarding credit worthiness. Based on the results of the credit analysis, BellSouth reserves the right to secure the account with a suitable form of security deposit. Such security deposit shall take the form of cash, an Irrevocable Letter of Credit (BellSouth form), Surety Bond (BellSouth form) or, in BellSouth's sole discretion, some other form of security proposed by Atlantic.Net. Any such security deposit shall in no way release Atlantic.Net from its obligation to make complete and timely payments of its bill. Atlantic.Net shall pay any applicable deposits prior to the inauguration of service. If, in the sole opinion of BellSouth, circumstances so warrant and/or gross monthly billing has increased beyond the level initially used to determine the level of security deposit, BellSouth reserves the right to request additional security and/or file a Uniform Commercial Code (UCC-1) security interest in Atlantic.Net's "accounts receivables and proceeds." Interest on a security deposit, if provided in cash, shall accrue and be paid in accordance with the terms in the appropriate BellSouth tariff. Security deposits collected under this Section

shall not exceed two (2) months' estimated billing. In the event Atlantic.Net fails to remit to BellSouth any deposit requested pursuant to this Section, service to Atlantic.Net may be terminated in accordance with the terms of Section 1.9 and any security deposits will be applied to Atlantic.Net's account(s). In the event Atlantic.Net defaults on its account, service to Atlantic.Net will be terminated in accordance with the terms of Section 1.9 above, and any security deposits will be applied to Atlantic.Net's account.

- 1.11 Notices. Notwithstanding anything to the contrary in this Agreement, all bills and notices regarding billing matters, including notices relating to security deposits, disconnection of Services for nonpayment of charges, and rejection of additional orders from Atlantic.Net, shall be forwarded to the individual and/or address provided by Atlantic.Net in establishment of its billing account(s) with BellSouth, or to the individual and/or address subsequently provided by Atlantic.Net as the contact for billing information. All monthly bills and notices described in this Section shall be forwarded to the same individual and/or address; provided, however, upon written request from Atlantic.Net to BellSouth's billing organization, the notice of discontinuance of Services purchased by Atlantic.Net under this Agreement provided for in Section 1.9.2 of this Attachment shall be sent via certified mail to the individual(s) listed in the Notices provision of the General Terms and Conditions of this Agreement.
- 1.12 Rates. Rates for Optional Daily Usage File (ODUF), Access Daily Usage File (ADUF), Enhanced Optional Daily Usage File (EODUF) and Centralized Message Distribution Service (CMDS) as set out in the Parties Interconnection Agreement.

2 BILLING DISPUTES

- 2.1 Atlantic.Net shall report all billing disputes to BellSouth using the form specified by BellSouth and shall be submitted to BellSouth electronically. In the event of a billing dispute, the Parties will endeavor to resolve the dispute within sixty (60) calendar days of the notification date. If the Parties are unable within the sixty (60) day period to reach resolution, then Atlantic.Net may pursue dispute resolution in accordance with the General Terms and Conditions of this Agreement.
- 2.2 For purposes of this Section 2, a billing dispute means a reported dispute of a specific amount of money actually billed by BellSouth. The dispute must be clearly explained by Atlantic.Net and submitted via the applicable form as specified in Section 2.1, which clearly shows the basis for disputing charges. A billing dispute will not include the refusal to pay all or part of a bill or bills when no written documentation is provided to support the dispute, nor shall a billing dispute include the refusal to pay other amounts owed by Atlantic.Net until the dispute is resolved. Claims by Atlantic.Net for damages of any kind will not be considered a billing dispute for purposes of this Section. If the billing dispute is resolved in favor of BellSouth, Atlantic.Net will make immediate payment of any of the disputed amount owed to BellSouth or BellSouth shall have the right to pursue normal treatment procedures. Any credits due to Atlantic.Net, pursuant to the billing dispute, will be applied to Atlantic.Net's account by BellSouth immediately upon resolution of the dispute.

- 2.3 If Atlantic.Net disputes a charge and does not pay such charges in immediately available funds by the payment due date, or if a payment or any portion of a payment is received by BellSouth after the payment due date, or if a payment or any portion of a payment is received in funds which are not immediately available to BellSouth, then a late payment charge and interest, where applicable, shall be calculated based on the portion of the payment not received by the payment due date multiplied by the late factor as set forth by the following BellSouth tariffs: for services purchased from the General Subscribers Services Tariff for ports and non-designed loops, Section A2 of the General Subscriber Services Tariff; for services purchased from the Private Line Service Tariff; and for designed network elements and other services and local interconnection charges, Section E2 of the Access Service Tariff. BellSouth shall assess interest on previously assessed late payment charges only in a state where it has the authority pursuant to its tariffs.
