Hi Bob.

CCA rec'd a memo to return some confidential documents back to the source, re: ECS. (DNs 04706-04 and 04703-04).

DN 04706-04 has an x-ref. DN 05482-04. did you want this document to be returned also ????

DN 04703-04 has a related DN with additional information to responses, DN 04865-04., should that document be returned as well ????

thanks.
