**VERIFICATION UNDER OATH
REGARDING CONFIDENTIALITY OF RESPONSE OF SBC TELECOM, INC.
TO THE 2004 CLEC DATA REQUEST**

I, Fred Goodwin, state and attest that the attached response (Response) to the 2004 Competitive Local Exchange Carrier (CLEC) data request is filed on behalf of SBC Telecom, Inc. (SBCT) as required by Florida PSC rules.

Further, that the information asserted to be highly sensitive confidential information (number of access lines-total and by exchange, number of digital access lines-total and by exchange, and switch location by exchange), is "proprietary confidential business information" within the meaning of F.S. 364.183(3)(e).

That the highly sensitive confidential information specifically comprises "information relating to competitive interests, the disclosure of which would impair the competitive business" of SBCT.

That disclosure of this highly sensitive confidential information would provide competitors valuable information about the geographic scope of SBCT's operations and service offerings that is not publicly available.

That such disclosure would allow competitors to unfairly target SBCT's customers and operations.

That the highly sensitive confidential information is intended to be, and is treated by SBCT as, private and has not been disclosed to the public.

That the highly sensitive confidential information is held as confidential within the Company, with limited access to and distribution of the information.

That the information asserted to be highly sensitive confidential information is in fact bona fide proprietary confidential business information.

And finally that highly sensitive confidential information contained in said Response has been prepared and presented in accordance with all applicable Florida Statutes, Commission Rules, and Commission Orders.
