Subject: DN 08852-04 in Docket 040216-GU

ORIGINAL

I pulled this document (Plant Allocation, Schedules B-05, B8, G1 and I-1 to I-4) from the confidential file and reviewed the transmittal memo and the cover memo. Neither indicate the material is confidential. Based on that as well as your phone call, Delores, I will place DN 08852-04 in the docket file.

I believe we thought the document was confidential because it was in a red binder. Just for future information, are all workpapers put in red binders, confidential or not?

Kay
