Re: Walgreens - Sebring

Dear Mr. Miller:

The Walgreen Company is proposing to construct a drug store on the corner of US 27 and Cornell where the BP service plaza is now located. In order to meet regulatory agency requirements, Walgreen's needed additional area in which to retain storm water. The logical location was immediately behind the store but on property owned by the Sun Bank. This area is now being used by the bank for their septic tank drainfield. The proposal is to connect both the bank and the Walgreen's into your wastewater treatment system. However your service area includes only the BP station which is already connected to your system.

Enclosed for your review are six copies of the application to the Public Service Commission (PSC). Please sign and remit five copies and the enclosed \$100 check to the PSC in the enclosed envelope. We will appreciate your adding the following information to the application.

- 1) An affidavit that you have the tariffs and annual reports on file with the PSC.
- 2) The original and two copies of sample revisions to the tariffs to incorporate the proposed change to the certified area.
- 3) The utilities current certificate. (Copy of)
- 4) Evidence that the utility owns the land on which the treatment facilities are located. This should be marked exhibit B.

Should you need additional information please contact our office. Thank you for your time and attention.
