Re: Application of Xspedius Management Co. Switched Services. LLC
Requesting Review and Intervention in NXX Code Denials

Dear Ms. Bayó:

Xspedius Management Co. Switched Services, LLC ("Xspedius"), a subsidiary of Xspedius Communications, LLC, respectfully submits this request to the Florida Public Service Commission ("Commission") for expedited review of the decision by the Pooling Administrator, NeuStar, Inc. ("NeuStar"), to deny Xspedius' application for assignment of one NXX in each of the following fifteen (15) rate centers:

Bartow	Palmetto
Bradenton	Plant City
Clearwater	St. Petersburg
Hudson	Sarasota
Jacksonville	Tarpon Springs
Lakeland	West Palm Beach
Mulberry	Zephyrhills;
New Port Richey	

and requests that the Commission direct NeuStar to immediately release the requested NXXs in those rate centers to allow Xspedius to serve its customer.

This request for review of a NeuStar code denial is based on the Federal Communications Commission ("FCC") Rules found at 47 C.F.R. § 52.15(g)(4) and pursuant to the Central Office Code (NXX) Assignment Guidelines published by the Industry Numbering Committee ("INC").

DOCUMENT NUMBER-DATE

04290 MAY-2 05

Xspedius has requested and been denied the numbering resources required to serve a customer requiring *intermediate* numbers in the identified rate centers. The intermediate number classification refers to a block of numbers given to another carrier or non-carrier entity for future assignment.¹ Although Xspedius has requested the intermediate numbering resources and reports utilization and forecast data, subsequent allocation of the numbers will be relinquished to Xspedius' customer, which will then assign the numbers to its end users. Xspedius' current numbering resources cannot accommodate this customer's initial growth requirements, which call for a complete NXX (comprised of ten consecutive uncontaminated thousands blocks) in each of the listed rate centers to provide a new e-fax service to end user customers. Thus, in order for Xspedius to serve this customer, it must have the numbering resources requested in an expedited timeframe.

Xspedius' NXX code request was denied by NeuStar on March 12, 2005, on the grounds that Xspedius had not met the months-to-exhaust and utilization criteria established by the FCC.² (See rate center worksheets, which correspond to the specified rate centers, attached as **Exhibit 1**.) NeuStar denied Xspedius' code request despite the fact that Xspedius does not have adequate numbering resources to satisfy the customer demands referenced above. (See Affidavit of Daniel Klaas, Manager Switch Translations, attached as **Exhibit 2**.)

Xspedius' inability to provide this important customer with the requested numbers within the same NXX prevents Xspedius from providing the quality of service this customer requires and expects. If Xspedius is not assigned the codes needed to meet its customer's request, Xspedius will be unable to provide the telecommunication services requested by the customer. NeuStar's denial of numbering resources sufficient to meet the customer's needs is inconsistent with the FCC's position that "[u]nder no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for a want of numbering resources."³

The FCC established a "safety valve mechanism," which delegates authority to state commissions to review the Pooling Administrator's decisions and reverse them when appropriate.⁴ The FCC further allowed that "a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier's inability to satisfy a specific customer's request,"⁵ as is the case in this instance. Additionally, states may grant relief if a carrier demonstrates that it has

received a customer request for numbering resources in a rate center that it cannot meet with its current inventory.⁶ The rate center worksheets demonstrate that there are not adequate numbers in available inventory to meet the customer's demand for 10,000 numbers per rate center, much less 10,000 consecutive numbers.⁷ As required by the FCC, the customer requesting the additional numbering resources has documented its request.⁸ (See letter from customer to Xspedius, attached as **Exhibit 3**.)

Xspedius requests that the Commission reverse NeuStar's decision to withhold numbering resources in the Bartow, Bradenton, Clearwater, Hudson, Jacksonville, Lakeland, Mulberry, New Port Richey, Palmetto, Plant City, St. Petersburg, Sarasota, Tarpon Springs, West Palm Beach, and Zephyrhills rate centers. The additional numbers requested by this application are necessary in order for Xspedius' customer to meet the service demands of its e-fax customer, which in turn will be able to offer a valuable service to Florida consumers.

Please acknowledge receipt of this letter by stamping the extra copy of this letter "filed" and returning the same to me. Questions regarding this matter may be referred to me, or directly to Xspedius by calling Pamela Rak at (636)625-7562.

Thank you for your assistance with this filing.

Sincerely,

Norman H. Horton, Jr.

⁷For example, Xspedius has its largest inventory of 8,740 available numbers in the Zephyr Hills rate center, while the in West Palm Beach rate center Xspedius has only 487 available numbers. See page 3 of each specific rate center's worksheets for this information. None of the 15 rate centers have 10,000 consecutive numbers available.

Affidavit of Daniel Klaas

STATE OF MISSOURI

COUNTY OF ST. CHARLES

I, Daniel Klaas, Manager Switch Translations, for Xspedius Communications, LLC, parent company of Xspedius Management Co. Switched Services, LLC ("Xspedius") being duly sworn, state that in such capacity I am personally familiar with the facts in this application;

1. Xspedius currently does not have the numbering resources it requires in order to serve the growth needs of a customer requesting a dedicated NXX in the Bartow, Bradenton, Clearwater, Hudson, Jacksonville, Lakeland, Mulberry, New Port Richey, Palmetto, Plant City, St. Petersburg, Sarasota, Tarpon Springs, West Palm Beach, and Zephyr Hills rate centers for e-fax service;

2. The numbering resources Xspedius is requesting in this waiver will meet the immediate needs forecasted by the customer upon completion of its growth within the aforementioned rate centers;

3. I have personal knowledge of the facts herein and certify that they are true and correct to the best of my knowledge.

Mr. Jim Falvey
Sr. Vice President - Regulatory Affairs
Xspedius Communications, Inc.
555 Winghaven Blvd., Suite 300
O'Fallon, MO 63366

April 11, 2005

Dear Mr. Falvey,

This letter documents discussions between Xspedius Communications, Inc. ("Xspedius") and j2 Global Communications, Inc. ("j2") regarding the request made by j2 for Xspedius to provide j2 with complete NPA-NXX DID numbers in each rate center that Xspedius serves in Florida.

As discussed, j2 intends to use these numbers to make its eFax service available to end users in the Florida rate centers served by Xspedius. eFax service offers paperless Internet faxing, which replaces cumbersome facsimile machines, eliminates the cost of maintaining machines, and reduces the use of paper. This service also allows users to access facsimiles at any web-accessible location through the user's email. Based on past experience, eFax service is in great demand from consumers in new markets. Consequently, prior to marketing this service, j2 must be assured it will have access to numbering resources that are sufficient to serve its prospective customers. Given current number conservation policies and the amount of time required to receive approval for and provision of previously unused numbers, adequate start-up numbering resources is an essential prerequisite to advertising this new service.

We request provisioning of a complete NPA-NXX because it is extremely expensive to port non-contiguous blocks of DIDs. It is cost free for j2 and takes our providers a few hours of work to move a full NPA-NXX, whereas non-contiguous numbers cost j2 up to \$3.00 a DID (a cost saving of \$30,000 for contiguous blocks of 10,000 DIDs). We prefer to be good citizens and participate in activities that allow us to conserve numbers, but we require our numbers to be in contiguous blocks. We provision numbers numerically and do not sell vanity numbers.

Thank you in advance for your continued support in helping us to provide excellent service to our customers in Florida.

Sincerely,

A handwritten signature in black ink, appearing to read "Dennis M. T. Pascual", written over a horizontal line.
