

050000

2005 Incumbent Local Exchange Carrier (ILEC) Data Request
(Due by July 15, 2005)

Company: Verizon Florida

Contact name & title: David Christian, Vice President-Regulatory Affairs & Demetria Watts, Regulatory Specialist

Telephone number: David, 850-224-3963; Demetria, 850-222-5479

E-mail address: david.christian@verizon.com; demetria.c.watts@verizon.com

Stock Symbol (if company is publicly traded): VZ

Bundled Services

1. Please complete the following table. For each residential and business package of bundled services you sell, list its name (e.g., Sprint Solutions), mark the included services, and enter the price and take rate. The take rate is calculated by dividing the number of customers who have subscribed to the corresponding package by the number of customers that can obtain that package from your company. Examples have been shaded.

Response:

State-specific take rate data is highly sensitive and proprietary. Verizon is not able to provide such data at this time. However, the nationwide take rate on Verizon's packages is approximately 34% for residential and 13% for business.

Name of Residential Package	Local	Long Distance	Broad-band	Wire-less	Video Service	Price	Take Rate
Local Package (includes unlimited local DA, 3 vertical svcs, waives NRC)	X (including ECS)					\$28.95	
Local Package Extra (unlimited local DA, and up to 13 vertical options, waives NRC)	X (including ECS)					\$31.95	
Regional Package (includes 4 vertical svcs – excluding call intercept, waives NRC)	X (including ECS)	X (unlimited intraLATA LD)				\$34.95	
Regional Package Extra (includes up to 13 vertical svcs, call intercept, unlimited local DA, voice mail, waives NRC)	X (including ECS)	X (unlimited intraLATA LD)				\$39.95	
Freedom (includes 4 vertical svcs – excluding call intercept, waives NRC)	X (including ECS)	X (unlimited intraLATA and interLATA LD)				\$51.95	

Freedom Extra (includes up to 13 vertical svcs, call intercept, unlimited local DA, voice mail, waives NRC)	X (including ECS)	X (unlimited intraLATA and interLATA LD)					\$56.95	
---	----------------------	---	--	--	--	--	---------	--

Name of Business Package	Local	Long Distance	Broad-band	Wire-less	Video Service	Price	Take Rate
						Monthly \$17.00	
Freedom Basic with Toll	X	X (unlimited intraLATA LD)				1Yr Term \$12.00	
						Monthly \$32.00	
Freedom for Business	X	X (unlimited intraLATA and interLATA LD)				1Yr Term \$27.00	

VoIP

2. Indicate below whether you are offering or providing VoIP service to end-user customers in Florida. For purposes of this question, VoIP service is defined as IP-based voice service provided over a digital connection. VoIP calls under this definition may or may not terminate on the PSTN.

- Not offering VoIP service in Florida.
- Offering business VoIP services.
- Offering residential VoIP services.

If you are offering or providing VoIP service in Florida:

- (a.) Provide the exchanges where you are offering VoIP service.

Response: All

- (b.) Provide residential price(s) for VoIP service.

Response:

VoiceWing 500 (limited minutes) - \$19.95 monthly

Voice Wing Unlimited for Verizon Online DSL or FiOS customers (unlimited minutes - \$29.95 monthly for 12 months, \$34.95 monthly thereafter

VoiceWing Unlimited (unlimited) - \$34.95 monthly

- (c.) Provide business price(s) for VoIP service.

Response: NA

- (d.) List all call features included with the service, e.g., call forwarding, caller ID, voice mail, etc.

Response: Pick-Your-Own Area Code, Unlimited VW 2 VW Calls, Back-Up Number, Caller ID w/name, Caller ID Block (*67), Call Waiting/Cancel Call Waiting, Call Forwarding, Call Waiting with Caller ID, Repeat Dial (*66), Return Dial (*69), Speed Dial 10, Three Way Calling, Voice Portal, Voice Mail and Fax Capability

- (e.) Check all that apply to your VoIP service:

- Offer wireless VoIP service.
- Offer wireline VoIP service.
- 911 (Location information not provided automatically to PSAP).
- E911 (Location information provided automatically to PSAP).
(Currently in New York City, rolling out nationwide.)
- CALEA (Communications Assistance for Law Enforcement Act).
- Telephone Relay Service.
- Power Backup (If so, identify time duration below, e.g., 4 hours, 8 hours).
(No, but offer a network outage number).
- Time duration of power backup (in hours).
- Directory Assistance.
- Operator Services.
- Equal Access to long distance providers.
- Local Number Portability.
- Local Calling.
- Long Distance Calling.
- International Calling.
- Contribute to Universal Service Fund.
- Require VoIP subscriber to also purchase Broadband service.
(Can use any broadband not just Verizon).
- Offered as primary line service.
- Offered as secondary line service only.
- Interconnected with PSTN.
- Peer-to-Peer only (no interconnection with PSTN).
(Yes, VoiceWing to VoiceWing calls are enabled.)
- Use of public Internet.
- Use of private IP network.
- Call uptime 99.999%. (VoiceWing – 99.95%)
- Use of numbers from the North American Numbering Plan Administrator.

- (f.) If you are not offering or providing VoIP service to end-user customers in Florida, do you anticipate doing so? If yes, identify rollout month/year.

Broadband Internet Access

3. Information provided in your response to this question will be reported on an aggregate, statewide basis, not on a company-specific basis.

- (a.) Please provide the percentage of residential households to which your broadband service is available in your service area.

Response: Please refer to confidential Form 477.

- (b.) Provide the total number of **residential** lines and wireless channels over which you or an affiliate are providing broadband service in your service area.

Response: Please refer to confidential Form 477.

- (c.) Provide the total number of **business** lines and wireless channels over which you or an affiliate are providing broadband service in your service area.

Response: Please refer to confidential Form 477.

- (d.) What type(s) of broadband connection(s) do you provide?

- xDSL
- cable modem
- satellite
- fixed wireless
- mobile wireless
- Broadband over power line
- Other (Specify) : Fiber to the Premises

- (e.) Please fill out the following table providing the downstream and upstream data transfer rates and the monthly price for each tier of broadband service you offer.

Data Transfer Rate – Broadband Service

Residential - DSL	Downstream	Upstream	\$ Price/month
	Up to 3 Mbps	Up to 768 Kbps	\$37.95 stand-alone, or \$29.95 when purchased in an annual service plan or as part of a package of calling services from Verizon
Residential – FiOS	Downstream	Upstream	\$ Price/month

	Up to 5 Mbps	Up to 2 Mbps	\$39.95 stand-alone, or \$34.95 when purchased as part of a package of calling services from Verizon
	Up to 15 Mbps	Up to 2 Mbps	\$49.95 stand-alone, or \$44.95 when purchased as part of a package of calling services from Verizon
	Up to 30 Mbps	Up to 5 Mbps	\$199.95 stand-alone, or \$179.95 when purchased as part of a package of calling services from Verizon
Business – DSL Basic	Downstream	Upstream	\$ Price/month
	Up to 3 Mbps	Up to 768 Kbps	\$39.95 (Dynamic IP)
Business – DSL Full Featured (includes Remote Dial-Up Access and Personal Web Space)	Downstream	Upstream	\$ Price/month
	Up to 3 Mbps	Up to 768 Kbps	\$59.95 (Dynamic IP) \$79.95 (Static IP)
	Up to 7.1 Mbps	Up to 768 Kbps	\$204.95 (Dynamic IP) \$234.95 (Static IP)
Business – FiOS Data (via FTTP)	Downstream	Upstream	\$ Price/month
	Up to 15 Mbps	Up to 2 Mbps	\$59.95 (Dynamic IP) \$99.95 (Static IP)
	Up to 5 Mbps	Up to 5 Mbps	\$169.95 (Dynamic IP) \$209.95 (Static IP)
	Up to 30 Mbps	Up to 5 Mbps	\$349.95 (Dynamic IP) \$389.95 (Static IP)

Form 477

4. Please provide a copy of the Form 477 you filed with the FCC with data as of December 31, 2004.

Response: Please refer to confidential filing.

Fiber Deployment

5. Do you have any fiber deployment projects to homes or businesses in Florida? If yes, please answer the following questions.

(a.) Where (e.g., name of development, wire center, and exchange) and what type of project (e.g., Fiber to the Home/Fiber to the Premise/Fiber to the Curb).

Response: As of June 15, 2005, we have deployed fiber to the home and fiber to the premise in the following exchanges:

Ruskin
University
Wesley Chapel
Venice South
Poinciana RSU (Haines City) - [Remote]
Wallcraft
East Braden [Remote] (BradenWoods)
Haines City Main
Keystone
Palmetto
Brandon
Lena Road RSU (Bradenton Main)
Alafia
Carrollwood
Bradenton Bay
Tarpon Springs
Hudson
Cypress Gardens
Sarasota Northside
Haines City North [Remote]
Land O Lakes
Beach Park
Loughman RSU (Haines City) - [Remote]

This list represents a combination of overlay and greenfield applications. The goal of the project is to run fiber all the way to the home or, if it passes a business, to the business. Customers must make an elective decision to receive the fiber at their home or business.

(b.) How many customers do you expect to serve in each project?

Response: Due to competitive concerns, Verizon is not releasing this kind of information. However, we intend to serve as many customers as possible who desire to take advantage of these services.

(c.) What services do you expect to offer in each project?

Response: Voice, data and video. Additional services may be added at a future time.

Mergers

6. Several mergers have been announced in the past year, e.g., Sprint-Nextel, SBC-AT&T, and

Verizon-MCI.

- a. Do you anticipate more mergers? Why or why not?

Response: Verizon does not know whether more mergers will occur in the future.

- b. What effects do you believe these mergers (if approved) will have on local competition in Florida?

Response: See the Public Interest Statement filed with the FCC on March 11, 2005 in 'In the Matter of Verizon Communications Inc. and MCI, Inc. Applications for Approval of transfer of Control, WC Docket No. 05-75', Pages 34-68. Verizon and MCI describe in detail how their transaction will not adversely affect competition in any market segment. In every customer segment in which both Verizon and MCI provide service, there is significant competition from a large number of significant participants, including intermodal competitors such as cable companies, wireless providers, Internet and broadband services providers and voice over Internet protocol (VoIP) providers. Competition is intensifying due to industry restructuring around new technologies, new services, and new providers.

- c. Has your local competition strategy changed as a result of the merger announcements? If so, please explain how.

Response: The term "local competition strategy" is vague and ambiguous since it is subject to numerous interpretations, thus making the question difficult to answer. Nevertheless, in an attempt to be responsive without waiving any of Verizon's rights, Verizon provides the following:

Once the transaction is completed, Verizon will continue to provide local service to customers of all sizes. As described in the FCC Application (see response to (b) above), the transaction will enhance Verizon's ability to deliver a full suite of competitively priced services in a more efficient and effective manner.

- d. How will these mergers (if approved) affect your local competition strategy in Florida?

Response: See response to (c).

Comments

7. Please provide any comments, suggestions or information you believe will assist staff in evaluating and reporting on the development of local exchange competition in Florida. We would appreciate any comments or information on intermodal local competition (e.g., wireless, cable telephony), reports or studies you have completed on CLEC market share, or anything else that you believe to be relevant.

Response:

Verizon encourages staff to make intermodal competition and its effect on telecommunications competition an integral part of its analysis. The formerly distinct industry lines between wireline and wireless telephony providers, cable television companies and high-speed Internet service providers have been forever blurred and the concept of "local competition" strictly from wireline competitors is somewhat of an anomaly. Today's consumers reap the benefits of technological advancements and may utilize a wide variety of applications offered by different providers over a number of networks and communications platforms.

As discussed below, Verizon has invested heavily in fiber deployment, which will provide a tremendous platform for intermodal competition. Along with this update, Verizon has included general information regarding fiber technology and services available through its use. Finally, Verizon has included a variety of resources (further emphasizing the prevalence of intermodal competition) to assist staff in its analysis.

FIBER DEPLOYMENT

Verizon is leading a historic transformation of telecommunications in Florida. Verizon has invested more than \$300 million linking residences and businesses to a new fiber optic network in Tampa Bay. On May 19, 2004, Verizon announced that it was embarking on the most significant transformation in over a century of the technology used to carry phone calls, data, and video to and from homes and businesses. This new technology – known as fiber to the premises (FTTP) – uses fiber-optic cable and optical electronics to directly link homes and businesses to Verizon's network. Verizon is building this network-of-the-future to provide customers with unmatched network reliability, incredible speed, and exciting new options for voice, data, and video connections. Fiber-optics will unleash a range of advanced communications services. This new suite of fiber optic services is called Verizon FiOSSM.

While the use of fiber-optic technology is common throughout the telecom industry, Verizon is the first company to use fiber to directly connect homes and businesses on a widespread scale. Since rolling out its FTTP network in 2004, Verizon has passed over one million homes and businesses with the new technology. Verizon plans to pass an additional two million homes and businesses by the end of 2005, with more to come. Verizon is now building its FTTP network in 15 states – California, Connecticut, Delaware, Florida, Indiana, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Texas, and Virginia.

To help build the network across the country, Verizon will hire 3,000 to 5,000 new employees by the end of this year. And, Verizon has opened new customer call centers in Providence, RI; Dallas, TX; Hampton, VA; Thousand Oaks, CA, and Dewitt, NY. Building the FTTP network also will spur new jobs and investment across the country for vendors that partner with Verizon.

The Basics of Fiber Optics

How does FTTP work? Fiber-optics cables consist of bundles of hair-thin glass strands. Laser-generated pulses of light transmit voice, data, and video signals via the fiber at speeds far exceeding today's copper-wire systems.

What equipment is needed for FTTP? Several key components are needed for a FTTP network:

- **Optical Line Terminals (OLT)** – Located in Verizon's central switching office, this equipment serves as the point of origination for FTTP transmissions coming into and out of the national Verizon network.
- **Optical splitters / splitter hubs** – A focal point for the main fiber feed in a neighborhood or development, where the optical signals from a fiber link are split off to serve multiple customers over individual strands of fiber.
- **Optical Network Terminals (ONT)** – The termination point for fiber at the home or business, where the optical signal is converted into voice, data, or video feeds to equipment in the customer's premises. A battery backup will provide power for voice service during any loss of commercial power.

What will FTTP do? Serving primarily residential and small-to-medium-sized business customers, FTTP will provide voice service and associated features, while offering nearly unlimited bandwidth for an array of data and video applications. It also will accommodate new broadband products and services not possible with today's network.

What are the advantages of FTTP? Fiber has a number of advantages over copper-wire:

- FTTP provides nearly unlimited bandwidth.
- FTTP provides more reliable service that is less susceptible to inclement weather and is easier to maintain.

- FTTP enables a wide variety of uses, from interactive content and home shopping to telecommuting to telemedicine and audio /video on demand.
- FTTP is extremely flexible to meet customer preferences – new products and services can be activated remotely, either permanently or on demand.

FiOS Internet Service

Verizon is offering groundbreaking high-speed Internet services over its fiber-to-the-premises network. FTTP will deliver data speeds of up to 30 megabits-per-second (Mbps), which is at least 10 times faster than consumer broadband speeds typically available today. FTTP has the capability of providing over 100 Mbps in both downstream and upstream transmissions. Details regarding FiOS pricing are provided in the response to Question No. 3(e). All FiOS Internet service packages include:

- Ultra high-speed Internet access
- Free installation by Verizon technicians
- Free networking router
- MSN™ Premium Internet software
- 24/7 live technical support
- Up to nine verizon.net e-mail accounts
- Access to newsgroups
- Personal Web space of 10 MB

Digital subscriber line (DSL) service will remain Verizon's most widely available form of high-speed Internet access for the foreseeable future, as the company ramps up FTTP deployment.

FiOS TV Service

Verizon FiOS TV will offer customers a competitive alternative to cable TV or satellite. Customers will be able to buy FiOS TV as a stand-alone service or packaged with voice and FiOS Internet service. This next-generation technology will have customers watching television in a whole new light. It will be all digital. And with a robust lineup of high-definition programming (HDTV) – FiOS TV customers will get an amazingly clear entertainment experience. And customers can control it all with Verizon's powerful interactive programming guide. Even more, a digital video recorder (DVR) will give customers more control over their viewing experience, allowing them to record, pause, and rewind any program – even live TV. With an abundant library of video on demand (VOD) titles, customers will be able to watch what they want, whenever they want. And they will have other features like pay-per-view and parental controls. Verizon is

negotiating with a variety of networks to acquire programming for FiOS TV. Programming agreements already signed include:

- **NBC Universal Cable** – 10 networks, including Bravo, CNBC, CNBC World, MSNBC, SCI FI Channel, Trio, USA, ShopNBC, Telemundo, and mun2. Also included are NBC and Universal HD, a service that features high-definition films, TV shows, performing arts, sports, and special events.
- **Showtime Networks** – 11 networks, including Showtime, Showtime Too, Showtime Showcase, Showtime Beyond, Showtime Extreme, Showtime Women, Showtime Next, Showtime Family Zone, The Movie Channel, TMC xtra, and Flix. Also included are Showtime HD and The Movie Channel HD, Showtime On Demand, and The Movie Channel on Demand.
- **Starz Entertainment Group** – 13 movie channels, including Starz and Encore brands, Starz On Demand, and Starz HDTV.
- **NFL Network** – The first 24-hour network dedicated to the National Football League and the sport of football. Also included are NFL Network in HD and NFL on Demand.
- **Discovery Communications** – 14 networks, including Discovery Channel, TLC, Animal Planet, Travel Channel, Discovery Health Channel, Discovery Kids Channel, Discovery Times Channel, The Science Channel, Discovery Home Channel, Military Channel, Discovery en Español, FitTV, BBC America, and Discovery HD Theater. Also included is Discovery On Demand.
- **A&E Television Networks** – 7 networks, including A&E, The History Channel, The Biography Channel, History International, Military History Channel, The History Channel en español, and Crime & Investigation Network. Also included is video-on-demand content from all of A&E's services.
- **Turner Broadcasting System** - TBS, TNN, CNN, Cartoon Network, and CNN en Español.
- **TVN Entertainment** – Video-on-demand programming, including new studio releases, a library of previous releases, independent movies, family and kids programming, and specialty VOD networks.
- **Varsity TV** – The only 24-hour network dedicated exclusively to teenagers, featuring teen-created and professionally produced programming.
- **Gospel Music Channel** – The first 24-hour network devoted to all styles of gospel music.
- **Soundtrack Channel** – Channel featuring music videos from movie and television soundtracks.
- **MavTV** – A new network targeting men aged 15-24, with an emphasis on sports and gaming.
- **GoITV** – The only bilingual (English/Spanish) channel in the U.S. dedicated to soccer.
- **Sí TV** – The only English-language Latino network in the nation featuring hip and

irreverent culturally relevant programming.

The Verizon One™ communications command center, manufactured by Westell Technologies, fully integrates voice and data services into a single device. The Verizon One device will include several technologies – a broadband modem, 802.11g wireless router, 5.8 GHz cordless telephone, and a color touch screen. Using the touch screen, customers will be able to:

- Call with one touch from their online address book or SuperPages directory listings.
- Check the weather, news headlines, movie listings, sports scores, stocks, and more.
- Leave notes for other household members with the free-style memo pad.
- Access and manage an online calendar.

Verizon One also will be configured to support additional features for customers subscribing to Verizon's iobiSM Home service, which lets customers manage all of their communications via a single user interface. Verizon will begin offering the Verizon One device to its broadband customers by mid-year 2005.

INTERMODAL COMPETITION

Competition in Florida's telecommunications market is flourishing. Competitors continue to make significant inroads, particularly wireless and other intermodal providers. In the Tampa Bay area cable providers have launched voice service using VOIP technologies. Bright House Networks and Knology, both CLECs operating in FL, have launched facilities-based service bypassing the PSTN.

Nationally, wireless subscribers surpassed wireline subscribers for the first time. The FCC recently reported that there are more than 181 million wireless subscribers vs. 177 million wireline access lines in service as of December 2004. In Florida there were 13,169,278 wireless subscribers, a 21 percent increase from December 2003.

REPORTS AND STUDIES

Verizon would like to suggest that staff review the following analyst reports, articles and other publications (copies attached to this filing), which may be of interest in its analysis:

- "The World Has Changed: Welcome to the Broadband Era" – an in-depth study of the evolution of the telecommunications marketplace

- Verizon Wireless news – articles regarding technical specifications of Verizon’s network, EV-DO and its launch in the Tallahassee area, V CAST and Verizon’s contract with the State of Florida
- CLEC competition news – announcements regarding Knology, Bright House Networks, Covad, etc.
- “Merger Memories” article – a *TechNewsWorld* commentary discussing the need to make “forward-looking” decisions on upcoming telecommunications company mergers
- “Making Connections” report - Verizon’s Corporate Responsibility Report details the company’s commitment to making a positive impact on the community.

OTHER RECOMMENDATIONS

As in prior year responses, VZ-FL recommends that the PSC use data from the Numbering Resource Utilization Forecast (NRUF) report in order to accurately assess local competition in FL. Number utilization levels should serve as a suitable surrogate for access line equivalents.

All filers must complete Items 1 - 11 of this Cover Page. File data as of: December 31, 2004

1. Filing status Meet broadband, local competition and wireless thresholds
2. Company Verizon Florida
3. Indicate the category that best describes the operations covered by this filing.
Wireline Local Exchange Carrier
4. Filers must report separate data for ILEC and non-ILEC operations. Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.
ILEC operations
5. Use the following drop-down box to select your company, parent or controlling entity name. Select "not shown" if it is not in the list. See instructions Section IV-B-1 for information on preparing file names.
Verizon Communications, Inc.

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

6. State. Florida
7. Contact person (person who prepared the data contained below).
Ann D.Berkowitz
8. Contact person telephone number and e-mail address.
phone 202-515-2539
e-mail aberkowitz@verizon.com
9. Indicate whether this is an original or revised filing.
Original Filing
10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.
Filer certifies that some data in this report is privileged and confidential
11. Indicate if this is a complete file or a redacted version of a complete file.
Complete version of file

Please review instructions before completing form.

Reminders:

- 1) Ensure files are virus free by using up-to-date virus detection software. Filers are encouraged to submit files via e-mail (address: FCC477@fcc.gov).
- 2) If you are filing original or revised data for an earlier semi-annual reporting period, do not use this particular form (which is only for data as of December 31, 2004). See reminder 4.
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will have to be refiled.
- 4) If you have questions about the form, contact the Wireline Competition Bureau, Industry Analysis and Technology Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must submit a Certification Statement signed by an officer of your company. A single statement may cover all files submitted. See Instructions sections IV & V
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Instructions sections IV.B and IV.C for information on preparing a redacted file.
- 7) Name your files as specified in Instructions section IV.B.1. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example FLB#D04Verizon Florida .XLS

Verizon Florida ILEC operations for Florida December 31, 2004

Complete Part I if you and all affiliates (including commonly controlled entities) provide 250 or more broadband lines or wireless channels in the state over your own facilities or over lines you provisioned as broadband. See instructions for definitions of "own facilities", "broadband", "end user", and "residential and small business".

If you provide data in Part I, you must provide in Part V a list containing the 5-digit Zip Codes of the end-user locations in which you provide the broadband services reported herein. See instructions.

Data as of December 31, 2004

A. Lines and wireless channels of broadband service that you provided over your own facilities, or over UNE loops or other lines and wireless channels that you obtained from other service providers and equipped as broadband, categorized by technology at the end-user location.

(a) Total one-way and two-way (full) broadband lines and wireless channels	Percentages of lines and wireless channels reported in (a)				
	(b) % of (a) used by residential & small business customers	(c) % of (a) provided over your own facilities	(d) % of (a) provided provided (i.e. billed directly) to end users	(e) % of (a) providing customers greater than 200 kbps in both directions	(f) % of (a) providing customers greater than 2 mbps in both directions
I - 1. Asymmetric xDSL.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
I - 2. Other traditional wireline including symmetric xDSL.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
I - 3. Coaxial carrier systems including hybrid fiber-coaxial systems.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
I - 4. Optical carrier (fiber to the end user).	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
I - 5. Satellite.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
I - 6. Terrestrial wireless fixed.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
I - 7. Terrestrial wireless mobile.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
I - 8. All other technologies, such as distribution over electric power lines.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]

Note: In Part I, report actual counts. Do not report voice-grade equivalent measures.

Verizon Florida ILEC operations for Florida December 31, 2004

Complete Part II if you and all affiliates (including commonly controlled entities) provide 10,000 or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See instructions for definitions of "voice telephone service", "voice-grade equivalent lines", "residential and small business", "owned facilities", "COLO switching centers", and "end users".

If you provide data in Part II, you must provide in Part V a list containing the 5-digit Zip Codes of the end-user locations in which you provide the wireline or fixed wireless voice grade services reported herein. See instructions.

Data as of December 31, 2004

A. Voice telephone service provided to end users.

II - 1. Total lines and channels you provided to end users.

B. Voice telephone service provided to other communications carriers, categorized by:

II - 2. Lines and channels that you provided under a Total Service Resale arrangement. See instructions.

II - 3. Lines and channels you provided under other resale arrangements, such as resold Centrex.

C. UNE loops, special access lines, and those private lines that connect to carriers, categorized by:

II - 4. Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.

II - 5. Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.

II - 6. Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.

D. Total wireline voice-grade equivalent lines & fixed wireless voice-grade equivalent channels in service.

II - 7. Total lines and channels provided. [line II-1+line II-2 + line II-3]

(a) Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	Percentages of lines and wireless channels reported in (a)			
	(b) % of (a) used for residential & small business service	(c) % of (a) provided over your own facilities	(d) % of (a) provided over UNE loops	(e) % of (a) in ILEC COLO switching centers
II - 1. Total lines and channels you provided to end users.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
II - 2. Lines and channels that you provided under a Total Service Resale arrangement. See instructions.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
II - 3. Lines and channels you provided under other resale arrangements, such as resold Centrex.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
(a) Total lines and wireless channels				
II - 4. Lines and channels that you provided under a UNE loop arrangement, where you do not provide switching for the line.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
II - 5. Lines and channels that you provided under a UNE loop arrangement, where you also provided switching for the line.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
II - 6. Special access lines not provided as broadband and private lines that connect an end-user premises to a telecommunications common carrier and is not provided as broadband.	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]
Percentage of channels reported in (a), carried over the following types of facilities categorized by the technology used in the part of the line or wireless channel at the end-user location				
	(f) Cable coaxial	(g) Wireless	(h) All other including traditional wireline	
II - 7. Total lines and channels provided. [line II-1+line II-2 + line II-3]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]

Verizon Florida ILEC operations for Florida December 31, 2004

Complete Part III if you and all affiliates (including commonly controlled entities) serve 10,000 or more mobile voice telephony subscribers in the state over your own facilities. See instructions for definitions of "mobile voice telephony subscribers" and "own facilities".

Data as of December 31, 2004

A. Mobile voice telephony subscribers in service and served over your own facilities.

(a) Network telephone service subscribers	(b) Percentage of (a) provided (i.e. billed directly) to end users
--	--

III - 1. Cellular, PCS & other mobile telephony.

[REDACTED]

[REDACTED]

Verizon Florida ILEC operations for Florida December 31, 2004

Filers completing Part I or Part II must supply a list of 5-digit Zip Codes in which the filer has at least one customer.
Do not provide customer counts by Zip Code.

Data as of December 31, 2004

V - 1. 5-digit Zip Codes in the state in which you provide service to end-user locations:

(a) Broadband service	(b) Wireline & fixed wireless exchange telephone
