Several mergers have been announced in the past year, e.g., Sprint-Nextel, SBC-AT&T, and Verizon-MCI.

- a. Do you anticipate more mergers? Why or why not?

**Response: As of July 15, 2005, Sprint-Florida does not anticipate additional mergers involving Sprint. With regard to mergers involving other companies, it is impossible to know what market conditions may exist going forward that would or would not create incentives for further consolidation in the industry.**

- b. What effects do you believe these mergers (if approved) will have on local competition in Florida?

**Response: To the extent that mergers represent companies attempting to efficiently re-structure themselves, and to the extent that the companies involved are participants in the market for local service, the mergers should produce a beneficial effect. In a dynamic industry such as telecommunications, companies are constantly re-structuring themselves in order to achieve increased efficiencies. And in competitive markets, these efficiencies ultimately are passed on to customers.**

- c. Has your local competition strategy changed as a result of the merger announcements? If so, please explain how.

**Response: As of July 15, 2005, no.**

- d. How will these mergers (if approved) affect your local competition strategy in Florida?

We would appreciate any comments or information on intermodal local competition (e.g., wireless, cable telephony), reports or studies you have completed on CLEC market share, or anything else that you believe to be relevant.
