ORDER GRANTING REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 07240-05)

On July 29, 2005, Florida Power & Light Company (FPL) filed a request for confidential classification regarding certain portions of Document No. 07240-05. Specifically, FPL argues the following information within William L. Yeager's Exhibit No. WLY-10 is confidential: (1) page one, column A, lines 17-34, 36; (2) page one, column B, lines 37-38; (3) page two, column A, and (4) page two, column B, lines 14, 16 and 18. FPL states that the above portions of Exhibit No. WLY-10 consists of purchasing data between FPL and General Electric (GE) regarding a combustion turbine unit. FPL argues that pursuant to Section 366.093(3)(e), Florida Statutes, the disclosure of such contractual data would harm the company's competitive interests in other negotiations.

Section 366.093(1), Florida Statutes, provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from [the Public Records Act]." Section 366.093(3), Florida Statutes, defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), Florida Statutes, provides that proprietary confidential business information includes, but is not limited to "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" (subsection d); and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information" (subsection e).

Upon review and consideration, it appears that FPL's request for confidential classification regarding information in Document No. 07240-05 satisfies the criteria set forth in Section 366.093(3)(e), Florida Statutes, for classification as proprietary confidential business information and, thus, shall be treated as confidential. The information relates to contractual data and competitive interests of vendors, the disclosure of which would impair the competitive

business of the provider of the information. Thus, the information is granted confidential classification.

Pursuant to Section 366.093(4), Florida Statutes, the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. At the conclusion of the 18 month period, the confidential information will no longer be exempt from Section 119.07(1), Florida Statutes, unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Chairman Braulio L. Baez, as Prehearing Officer, that Florida Power & Light Company's request for confidential classification of Document No. 07240-05, as specified in the body of this Order, is granted. It is further

ORDERED that information granted confidential classification in Document No. 07240-05 shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Chairman Braulio L. Baez, as Prehearing Officer, this 15th day of September, 2005.
