RE: **Docket No. 041269-TP** - Petition to establish generic docket to consider amendments to interconnection agreements resulting from changes in law, by BellSouth Telecommunications, Inc.

Issue 1: Should the Commission grant Supra's Emergency Motion to Require BellSouth to Effectuate Orders for Supra's Embedded Customer Base?

Recommendation: No. Staff recommends that the Motion should be denied because while CLECs retain access to unbundled local circuit switching during the 12-month transition period for their embedded end-user customers, that access is limited to the arrangements existing on March 11, 2005. Orders requiring a new UNE-P arrangement, such as a customer move to another location or an additional line, are not permitted pursuant to the FCC's *TRRO*.
