Director: Notice of Objection as necessary to comply with the appropriate rules.

We strongly object to the addition of territory to MSM UTILITIES, LLC water certificate No.611-W and waste water certificate No.527-S.

For the past 20 years our water source and septic system have been more than adequate.

After Hurricane Charley on Friday August 13, 2004, we were financially forced to suffer great losses. Retirement can restrict our ability to recover.

We are also aware that if this endeavor is allowed, it can only benefit a private corporation (adjacent property owners MSM UTILITIES, LLC). We again object to any cost we might be forced to pay to subsidize their development of said property in question.
