COMMISSION
CLERK

Director,

Please note my objection to the addition of territory to MSM Utilities LLC, Water Certificate No. 611-W and Wastewater Certificate No. 527-5.

I am a property owner at 29181 Crawford Ave., Punta Gorda, Florida and will be directly affected by any amendments to the present certifications.

The well and septic systems in the area in and around Crawford Ave., are serving the residents very satisfactorily. Property owners have followed the rules and regulations required for owning their own water and septic systems. Many owners are currently rebuilding what hurricane Charley destroyed and have spent considerable amounts of money for inspections and upgrading systems where necessary.

The State of Florida and Charlotte County have set the standards for water and sewage system design. Inspections and approval of systems is required before occupancy is permitted. This process offers assurances that all systems are completely adequate.

The request for amendments by MSM Utilities, LLC, is clearly a subversive movement to find creative ways to broker a deal satisfying their own perceived needs. It appears the owner(s) of MSM Utilities, LLC, think it appropriate to benefit at the expense of others. This mind-set of self-servitude is not acceptable to me or many of my friends and neighbors.

I request that the Florida Public Service Commission reject all amendments to Water Certificate No. 611-W and Wastewater Certificate No. 527-5.

Sincerely,

Thomas O. Westcott
