Re: Docket No. 050862-WU; Application for Staff Assisted Rate Case in Marion County by County-Wide Utility Co., Inc.

Dear Ms. Bayo:

As requested by Gerald Edwards in his letter dated January 24th, 2006, we hereby submit the following information:

- CMP _____
- COM _____
- CTR _____
- ECR _____
- GCL _____
- OPC _____
- RCA _____
- SCR _____
- SGA _____

1. Attachments "B" and "C" lists our employees, their duties and responsibilities, and an explanation of how they are allocated.
2. Attachment "A" lists our testing costs for 2005.
3. Attachment "A" lists our required testing costs now that we are a consecutive system.
4. We are still obtaining prices on the dismantlement and disposal of the water treatment plant but expect the cost to abandon the wells and dismantle and dispose of the piping to not exceed \$10,000. We hope to find someone that will remove the tank free for its salvage value. The newest well pump and motor is more than twelve years old and the well driller has told us that there is very little chance that someone would buy them because of the cost to remove and replace them if there was a failure. The salvage value of the electrical components is less than a couple hundred dollars if of any value. We will be talking to the electrician to see if we should consider using any of the parts in the new lift station.

We have enclosed 24"x36" engineering maps of the water system and the new interconnect. We believe that the following information is proprietary and confidential business information under F.S. 364.183, 366.093, and/or 367.156:

1. Payroll Data
2. Any data that would disclose unit prices paid for services or goods to vendors such as Enviromasters.
3. Attachments "A", "B", and "C" and any other data that would disclose the specific detailed information in those attachments.

The timely dissemination of this information is appreciated in order to allow staff to prepare their recommendation for emergency rates.

Sincerely,

Dirk Leeward, President
