Subject: Rate increase for Plantation Bay

Dear Mr. Fletcher, I would like it on record that the proposed rate increases for the Plantation Bay community should reflect an incentive for those residents who are conservation minded and conscientiously make every effort to save water. The incentive should reward those individuals who use less than 1000 gal. of water per month. I spoke to this point at the meeting held here at Plantation Bay and sent in a written note regarding it as well, but it seems the commission has not seen fit to include such an incentive. Once again, I would like to go on record as supporting such a measure.
