Re: Docket No. 060166-WS; Application of Gold Coast Utility Corp., for Amendment of Water and Wastewater Certificates in Polk County
Our File No.: 40057.07

Dear Ms. Bayo:

This letter is in response to the Commission Staff's March 22, 2006, correspondence regarding the above-referenced Application.

Gold Coast Utility Corp., was approached by representatives of the Collany family, which owns the property in question, regarding obtaining water and wastewater service to its properties which it was proposing for development. The property owner expressed a need for such service for any prospective purchaser who would develop the property. It is necessary for the property owner to secure the right to utility services to the property before a specific development plan can be devised since the manner in which the property can be developed is related to whether central water and wastewater service will be available to the property.

It appears as if the Staff is requesting that the proposed lines and capacities of such lines be provided prior to approving the territory extension; whereas the territory extension needs to be approved in order to know the manner in which the property can be developed,

and thus, where and what capacities the lines will have. Therefore, it is imperative that the Commission go forward with the territory extension without the detailed information regarding line locations and sizes.

Very truly yours,

MARTIN S. FRIEDMAN
