Re: Petition for Approval of Amended Standard Offer Contract and Retirement of
COG-2 Rate Schedule; **Docket No. 060310-EQ**

Dear Ms. Bayó:

Progress Energy Florida, Inc. ("PEF") filed our petition for approval of amended standard offer contract and retirement of COG-2 rate schedule on April 3, 2006. Under the "Available" section in Appendix D (Tariff Sheet 9.946), PEF inadvertently put the wrong date, April 1, 2006 when it should be April 1, 2007. Attached for filing are PEF's revised rate schedules with the corrected date. Please substitute the originals that were filed on April 3, 2006 with the attached revised sheets.

Thank you, and please feel free to call me should you have any questions.

Very truly yours,

John T. Burnett LMS

REVISED EXHIBIT A

AMENDED STANDARD OFFER CONTRACT

**APPENDIX D
TO
PROGRESS ENERGY FLORIDA RENEWABLE OR QUALIFYING FACILITY
STANDARD OFFER CONTRACT
RATE SCHEDULE REN**

SCHEDULE

REN, Firm Capacity and Energy from a Renewable Energy Provider

AVAILABLE

PEF will, under the provisions of this Schedule and PEF's Renewable or Qualifying Facility Standard Offer Contract for the Purchase of Firm Capacity and Energy from a Renewable Energy Provider ("Renewable or Qualifying Facility Standard Offer Contract") to which this Appendix is attached and incorporated into by reference, purchase firm capacity and energy offered by a Renewable Provider as defined in the contract. PEF's obligation to contract to purchase firm capacity from such Renewable Providers by means of this schedule and the Renewable or Qualifying Facility Standard Offer Contract will continue only as long as, and the extent that, the subscription limit is not exceeded and, in any event, no later than April 1, 2007 unless extended by the FPSC. PEF's obligation to purchase firm capacity by means of this rate schedule and the Renewable or Qualifying Facility Standard Offer Contract from REPs locating north of the latitude of PEF's Central Florida Substation is conditioned upon PEF being able to acquire import capability to replace that amount of Florida-Southern Interface import capability lost as a result of the location of the Facility.

APPLICABLE

To REPs as defined in the Renewable or Qualifying Facility Standard Offer Contract producing capacity and energy for sale to PEF on a firm basis pursuant to the terms and conditions of this schedule and PEF's Renewable or Qualifying Facility Standard Offer Contract. Firm Capacity and Energy are described by FPSC Rule 25-17.0832, F.A.C., and are capacity and energy produced and sold by a REP pursuant to the Renewable or Qualifying Facility Standard Offer Contract provisions addressing (among other things) quantity, time and reliability of delivery.

CHARACTER OF SERVICE

Purchases within the territory served by PEF shall be, at the option of PEF, single or three phase, 60-hertz alternating current at any available standard PEF voltage. Purchases from outside the territory served by PEF shall be three phase, 60-hertz alternating current at the voltage level available at the interchange point between PEF and the entry delivering the Firm Energy and Capacity from the REP.
