Re: Docket Index/Service Lists

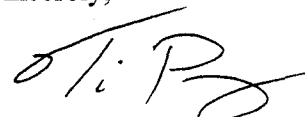

Dear Ms. Pena:

Please remove me from the docket index/service list for Docket No. 020507-TL. Please remove Vicki Kaufman from the docket index/service list for Docket Nos. 020233-EI, 031033-EI, 040029-EG, 040032-EG, 040033-EG, 041272-EI, 041291-EI, 041376-EI, 050001-EI, 050002-EG AND 050007-EI.

In addition, please be sure that both John McWhirter and I are on the docket index/service list for Docket Nos. 020233-EI, 031033-EI, 040029-EG, 040032-EG, 040033-EG, 041272-EI, 041291-EI, 041376-EI, 050001-EI, 050002-EG AND 050007-EI.

To assist you, I have attached an edited version of the "Docket Index Listing" that you faxed to me. If you have any questions, please feel free to contact me.

Sincerely,

Timothy J. Perry, Esq.

Re: Return of Confidential Document to the Source, Docket No. 050001-EI

Dear Ms. Ritenour:

Commission staff advised on December 9, 1999 that Confidential Document No. 13591-99, filed on behalf of Gulf Power Company can be returned to the source. The document was returned on March 29, 2000 by Certified Mail No. 00-129. Since that time an additional portion of Confidential Document No. 13591-99 was located. Please associate the enclosed document with the corresponding document number your office received in March of 2000.

Please do not hesitate to contact me if you have any questions concerning return of this material.

Subject: File Update

Hi Kay;

Please remove page 63 of 308 from the microfilm files for document 04865-05.

7/11/2005

this should be the picture of staff working paper numbered 43-4/1-5/3, page 1.

I note there is a page 2 of this working paper. This second page of this working paper is ok and should remain in the microfilm files..

If you would like for me to positively identify this page for you please let me know.

Bob Freeman

PS. I will check the file tomorrow to ensure this material is removed ok.

RE: PROGRESS ENERGY RATE INCREASE REQUEST

I am enclosing copies of our electric bills from Progress Energy, of January and September.

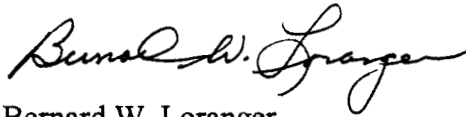

Please notice the very high increases in the "first 1,000 KWH"; it went from 4.486 to 4.813.

If you review our statements the consumer is paying very high increases.

I do not feel Progress Energy should get a rate increase.

Thank you for taking the time to read my letter.

Regards,

Bernard W. Loranger

SEPTEMBER 2005

FLORIDA PUBLIC SERVICE COMMISSION

BULLETIN

PROVIDED TO GOVERNMENT OFFICIALS

Fuel and Purchased Power Cost Recovery Clause with Generating Performance Incentive Factor

DOCKET NO. 050001-EI

Petition for Approval of Application of Temporary Fuel Clause Additive Charge to Mitigate Effects of New Fuel Contracts Effective January 1, 2008 by Florida Public Utilities Company

DOCKET NO. 050317-EI

In May 2005, Florida Public Utilities Company (FPUC or the company) filed a petition with the Florida Public Service Commission (PSC or Commission) requesting the application of a temporary fuel clause additive charge to mitigate the effects of new purchased power contracts that will be effective January 1, 2008. FPUC serves customers in two separate geographic areas; the Northeast or Fernandina Beach division with 15,100 customers and the Northwest or Marianna area with 15,000 customers.

Because FPUC does not generate its own power, it buys power from other utilities. Currently, the cost of these purchased power contracts is substantially below current market prices. These contracts will expire in December 2007. FPUC anticipates that the new contracts which will take effect in January 2008 will reflect market prices at that time.

FPUC seeks to mitigate these higher prices by collecting an additional charge from its customers in 2006 and 2007 and then crediting these amounts back to its customers in 2008, 2009 and 2010. This will smooth out the dramatic increase in electric bills that would otherwise take effect in January 2008.

In both divisions, the initial impact to a residential customer bill of 1,000 kWh per month is expected to be \$2.54, commencing in January 2006. Additional increases of approximately \$2.77 every six months thereafter through 2007 are proposed. These amounts would be returned with interest to FPUC's customers during the 2008-2010 period. In addition, FPUC is proposing at this time to

consolidate its fuel factors for its two electric divisions into a single factor commencing in 2006. If approved, that proposal would have a separate rate impact on each division's fuel charge.

The staff of the PSC has scheduled two customer meetings in the utility's service area to provide customers an opportunity to comment and ask questions regarding the company's proposed fuel surcharge.

PSC staff is scheduled to present an oral recommendation to the Commission at the November 7-9, 2005 hearing. The Commissioners are expected to vote on this matter at that time.

Bob, this document is on your list of those audit materials still being tracked. However, it was sent back to AFA by memo dated 10/26/93. We have also a memo from Denise dated 10/21/93 saying the document could be declassified per TECO's 10/19/93 letter (they were granted confidential clas. before current statute which requires declassification dates). So that document should be in RCA's files.

Please let me know if questions or if you need a copy of any of the paperwork.

Customer Meetings Set For FPUC Fuel Surcharge Request

TALLAHASSEE — The members and staff of the Florida Public Service Commission will conduct two customer service hearings to provide customers an opportunity to comment and ask questions regarding Florida Public Utilities Company's (FPUC) proposed fuel surcharge. FPUC serves approximately 15,000 customers in each of its service areas; Fernandina Beach in the Northeast Division, and Marianna in the Northwest Division. This meeting will not address FPUC's proposal to consolidate fuel factors between divisions.

Customers of the utility are invited to attend the meetings, which will be held at the following times and locations:

Wednesday, October 5, 2005

Fernandina Beach City Hall
City Commission Chambers
204 Ash Street
Fernandina Beach, Florida
6:00 p.m. (EDT)

Thursday, October 6, 2005

Jackson County Administration Building
County Commission Meeting Room
2864 Madison Street
Marianna, Florida
6:00 p.m. (CDT)

Comments:

Below is the text of a letter sent to The Attorney General of Florida. The Attorney General recommended that it be forwarded to the PSC as the appropriate agency to receive such comments. As laughable as that is those comments are as follows.

I am writing in regard to the most recent flurry of rate hike requests made by FPL to the Public Service Commission. The PSC has shown that it can be bought and paid for by the very corporations they are charged with regulating. They can be wined and dined, given free trips by companies like Bellsouth among others, that include luxury accommodations at tennis resorts and Lord knows what other perks they have accepted from these companies. Are we to believe that these benefits do not influence their decisions? To claim that they do not is an insult. Recently the PSC granted a request which included a more than substantial rate increase and that unbelievably, allows FPL to recover projected revenue that was not earned due to the fact that they were not providing electricity. I find this amazing. They are being allowed to charge us for services that they were not providing. Charging for services that are not being provided is stealing. Plain and simple. FPL is robbing us and using the PSC as its weapon. The PSC appears to be all too happy to accommodate them. Subsequently FPL requested another more than substantial rate increase over and above the previous increase already granted. Again, much of which was not earned. My understanding is that there was an agreement made with the Attorney Generals office, that FPL would not raise rates again for 3 years if their original request was not contested. So, we are supposed to be happy that they do not rob us again if we dont complain about them robbing us the first time. That sounds like quite the deal. Now to add insult to injury, FPL is back again with another request. FPL is like most corporations. They care about the bottom line. And they should. However, like many companies they care about the bottom line without regard for the customers they serve. They do not care about the quality of service they provide or, in some cases, do

CCA Official Filing

10/12/2005 11:13 AM*****

11:13 AM*****

Timolyn Henry*****2

not provide. Then they have the nerve to ask us to pay for service they have not provided. And the state allows it.

How much does FPL and the PSC think they can squeeze from us?

Between FPL and insurance rate increases how much can these companies squeeze from us with the blessing of the state before we can no longer afford to live here?

Do we not have the right as citizens of this state to expect that the people responsible for regulating utility companies and insurance companies and the like, represent our interests as well as those of the businesses in question.?

Do we not have the right to expect that those regulators not allow themselves to be in a position of obligation, real or perceived, to the companies they regulate?

Should we not demand that they not accept anything of any value, real or perceived, from the companies they regulate?

It seems to me to be common sense. Something there does not appear to be a lot of in the government of this state.

Thank you,
Mark Mumblow

RE: Proposed Fuel and Purchased Power Rate Increase
by Tampa Electric Company (TECO) - Docket #050001

To Whom It May Concern:

As a rate-paying customer, the Hillsborough County Board of County Commissioners is concerned by the enormous fiscal impact of the proposed fuel and purchased power rate increase by TECO (Docket # 050001).

TECO's proposed fuel and purchased power rate increase of 13.7% will translate into at least \$2 million in additional electric costs to Hillsborough County Government. It is our understanding that these new rates are being proposed in response to the increased market costs of fuel, and do not apply to TECO's base rate for electric service. However, an additional \$2 million annually above and beyond current electric rates, will create a heavy financial burden on already strained budgets, and could negatively affect County services to the citizens of Hillsborough County.

Therefore the Hillsborough County Board of County Commissioners respectfully requests the Public Service Commission to consider spreading any approved rate increase over a two year period of time. This will allow Hillsborough County and other affected electric customers time to plan and adjust their budgets accordingly.

Thank you in advance for your time and consideration. Should you have any questions, please contact Edith Stewart, Hillsborough County Public Affairs Officer at (813) 276-2640.

Sincerely,

Jim Norman

Subject: Docket # 05000-EI or 050317-E1 - Pre-emptive surcharge/10/19 News Leader article
Attachments: Blank Bkgrd.gif ⁰⁵⁷⁰⁰¹

1. The majority of FPU customers are perfectly capable of managing their own household affairs without the help of Big Brother FPU. I cannot conceive the arrogance of someone who has apparently failed to ladder their own supply contract hedges, now telling me they can manage my money better than I can.

2. IF they wish to offer this to customers to do of their own volition, with an interest rate at appropriate level to attract a response, I think it would be an excellent, creative idea. It would probably minimize, if not eliminate, the occurrences of "who owns what", where are the funds in the estate?, where is the owner? etc., a veritable zoo of complications and frauds that will occur if the surcharge is mandated.

3. Finally, if there are customers, who are now getting any energy subsidy from government or any source, it would make sense to me to work with the subsidizing agency to handle the phase in.

To tell me and all the customer base that we are incapable of managing our own affairs - and call a spade a spade, that is exactly what FPU is doing, presumably for their own benefit - is perhaps the most offensive, ill-thought out form of self-aggrandizing theft I can imagine.

Yours truly,

Re: Docket No. 050001-E1 and 050317-E1

I oppose the proposed electrical surcharge by the Florida Public Utilities Company (FPUC). FPUC has applied to the Florida Public Service Commission to begin adding a surcharge to its customer's bills, in anticipation of future expected electric costs in 2008. As stated in October 19, 2005 edition of the Fernandina Beach Newsleader, there is no precedent for this surcharge.

This appears to be an effort to increase FPUC's cash flow and build a huge cash reserve. Mr. George Bachman of FPUC is quoted as saying "The company will not profit". While technically, this may not show up in FPU's profit, it will be a cash asset on their balance sheet that will benefit the company.

Mr. Bachman is further quoted as saying, "I really think a lot of customers will be indifferent." I disagree with Mr. Bachman's assessment. I believe that most consumers shop for best buys on everything from mortgage rates to gasoline to fill up their cars. A reason for possible indifference on electric rates is the futile feeling of opposing the monopoly power of the local utility company. We are dependent upon you, the Florida Public Service Commission to adequately represent our interests against this monopoly power.

FPUC's financial strategy appears to be, "Pay me today, because my costs are going up tomorrow". This application for a rate increase only benefits FPUC. Paying a higher monthly electric rate now, to avoid future "sticker shock" is not in the best interests of local FPUC customers.

Sincerely,

Robert W. Loveless

Details:

FPL plans to increase the their rates up to 16%. I find this outrageous given the cost we are currently paying. They are not starting an increase at a 2% or something more reasonable, but straight to 16%. On top of the fact that we still have people with out power since Wilma, they are going to give themselves a raise? It's as if we lived in a third world country to be with out power for weeks after a storm.

I do not believe an increase is meritorious and I hope that more people step up and take a stand since this is the only company, publicly owned I might add, who will service our residences and businesses.

Thank you.

THE 16% RATE/FUEL SURCHARGE IS ABSURD.

FPL HAS CONSISTANTLY CUT BACK ON SERVICES TO THE LINES AND POWER POLES IN THE LAST SEVERAL YEARS.

THE LACK OF ATTENTION HAS LEFT MANY PEOPLE WITHOUT POWER FROM 2 LOW CATEGORY HURRICANES. CURRENTLY, I AM ON DAY 16 WITHOUT ELECTRICTIY FROM HURRICANE WILMA. HURRICANE KATRINA LEFT ME WITHOUT POWER FOR 9 DAYS.

IF FPL BETTER MANAGED THE POWER POLES AND LINES, I DON'T THINK THEY WOULD BE IN SUCH A DISASTEROUS STATE.

Complaint: Repairs against Florida Power & Light Company
Details:

In response to the recent request by FPL for a 16% rate increase I feel compelled to voice my opinion. Granted their expenses have increased incredibly due to the increase of fuel as well as the recent onslaught of hurricanes in their service area, however, to just hand them money and continue with the status quo is nothing short of ludicrous. With hurricanes forecast to be more and more common for at least the next decade and maybe longer, why would they throw hundreds of millions of dollars into repair an obviously antiquated system? Go ahead and grant them the rate increase but with the stipulation that they must begin immediately to bury the lines and must have the entire system underground by a certain date like January of 2009, for example. I also feel that it's only fair that the cable companies and Bellsouth also contribute as their lines are to be buried in the same time period. Our local economy cannot withstand year after year of this happening!
Thank you.

Best regards,
Donald Denis

Subject: FP&L

am totally opposed to the fee increase that FP&L is requesting. Not only are they a monopoly, but they are hardly the only company that suffered during the hurricane season. Can the other companies that lost money during the season mandate price increases? Why should this utility have the right to do this when other companies do not?

South Florida has suffered a great deal and the last thing we need are higher energy costs, especially when so much of their power is generated through nuclear at Turkey Point. They have suffered the least from the oil prices. I believe FP&L are merely capitalizing on the hurricane season to add to their already substantial profits. FP&L is a public company and their profits are public knowledge. They are doing just fine.

Thank you for your attention.

Subject: Florida Power and Light

Sirs:

FPL has failed miserably to provide service during the recent strike on Broward County by Hurricane Wilma.

They do not deserve any kind of financial relief. They are an extremely profitable utility that failed to maintain their equipment. They continue to profit and pay huge bonuses to senior executives.

Why should the public pay for their "non fuel energy surcharge"? If a business has damage they pay for their own repairs, use their insurance, or take it out of their profits. Of course the option is always to raise prices to cover costs. But, FPL has been negligent. A cat. 2 storm wipes out millions in 3 counties? Can you imagine another Andrew hitting this area. I have friends who still lack power. A utility should be penalized for shirking routine maintenance and repairs, not rewarded for it!!! By your policies, FPL is almost encouraged to wait for storms to destroy the infrastructure, knowing full well the PSC will get us, the average citizen to pay for it in the end.

Last year, your commission allowed FPL to recoup \$33 million in lost storm revenue. Are you kidding me?

Who will reimburse me for lost wages during the storm? The PSC? Gov. Bush? My employer? The answer is nobody, of course. Who will reimburse me for all the food that I had to discard because of lack of power? The PSC? FPL? My homeowners insurance? The answer is nobody! Who will pay for the replacement of all my landscaping that is destroyed? My homeowners insurance..yeah right, so they can cancel me and then put me in the Citizens Property pool??!! Who will pay to repair my fence that has been destroyed at a cost of \$2000 (way less than my ridiculous hurricane deductible)? The PSC? Gov. Bush? FEMA? You got it guys...NO ONE!!!!!! Have I made my point clear enough??

It's time the **Public** Service Commission starts serving the **PUBLIC**, not FPL!!!!!!!!!!!!!!

Start forcing FPL to repair their infrastructure, repair old power poles, bury their lines and transformers underground. We the tax payers of this state are fed up. We don't need the PSC to "continue to be supportive of the financial integrity of FPL." (a direct quote from the PSC last year) Try being supportive of the taxpayers financial integrity.

Now is your chance to prove to the citizens of this state that you care about us, not FPL, Bell South and all the other monopolies that provide service to us.

Act now with a conscience..turn them down!!! For whatever they ask for!!

Sincerely,

Robert Feinberg
Plantation, FL

Yesterday workers from FPL came to my door and they were unable to speak English enough for me to understand. I believe a minimal standard for workers that work for the state should be the ability to speak and understand English. Coming to my door was a waste of tax payers money

I disagree with the the PSC and there proposed FLP rates as well as allowing FPL to bill for unused services. This is unnecessary. I continue to believe the PSC needs to be elected.

Subject: FPL Management

I realize that you are a board of cronies appointed by our great governor but your job on the PSC is to protect the consumers not insure high profit returns for FPL, their executives or shareholders. Since FPL has one of the highest bottom lines in the Utility sector, I think it is about time they make their own investments in line improvements, power grids, etc. During the most recent storm, we were without electricity for some 13 days and would probably still be out if we had not greased the palms of the FPL workers. No, I will not provide further information, as I do not want my electric to go off again and have to wait a month after the next storm.

What a company and you want to grant them have more surcharges and increases. Maybe the 2 executives that got some \$12 million dollar in bonuses, could give some of the monies back to help their profits more. Maybe instead of admitting they cannot provide consistent power, as proven by their going into the generator business, they should either invest more of their profits in electrical improvements or the PSC should take their monopoly away and allow for some decent competition. If another electric company was allowed in the area, I am sure FPL would be a much different company.

NO MORE INCREASES FOR FPL. THEY NEED TO ACT LIKE A BUSINESS NOT A NON PROFIT CHARITY.

Details:

Florida Power and Light should not be allowed another rate increase. You just gave them one last year for all the storm damage created by the storms. That increase will be for two years and this one will be for two years. Will next years be for two years also? At this rate no person will be able to afford light bills. They need to be stopped now. How much more do you expect us to pay. What are there profits at? Let them absorb the cost, it appears they are not maintaining equipment for this many poles to fall, in a category one so why do we need to give them any more money. Our insurance is going up, gas is up, and they keep asking for more. Can we as consumers ask for losses from the mega companies for our losses as their rates continue to raise. Please do not give them a rate increase.

As an FPL hostage customer, who was without power for 14 days following Hurricane Wilma, I was astonished to read in today's Miami Herald, that FPL has the unmitigated gall to now request a 16% rate hike!! Their excuse this time is "higher enrgy prices than we had expected", which again translates into "poor business judgement". Every time this company makes any kind of mistake, they just shift the cost of that mistake to the consumers, never their shareholders.

If it is at all possible, I would very much like a response that includes how we may go about deregulating the electric power market in South Florida, in order to break the monopoly this arrogant & bungling company has over our region. Maybe some competition would incentivize them to clean up their act.

I would simply like to ask that the PSC immediately & completely deny FPL this rate hike, and any other.

Subject: Fuel Adjustments Set For Electric Utilities

A news release was distributed to the daily newspapers this afternoon, 11/9/05, and is now available on the PSC web site:

<http://www.psc.state.fl.us/general/news/pressrelease.cfm?release=43>

State of Florida
Public Service Commission
NEWS RELEASE

November 9, 2005

Contact: 850-413-6482

Fuel Adjustments Set For Electric Utilities

TALLAHASSEE — Annual fuel adjustment charges approved by the Florida Public Service Commission (PSC) and their impact on residential customers of investor-owned utilities are listed below.

These adjustments reflect fluctuations in the price paid by utilities for fuel and will become effective during the January 2006 billing cycle. The Commission allows utilities to recover fuel-related costs that are prudently incurred. The following monthly amounts are based on 1,000 kilowatt-hours (kWh) of use have been verified by PSC staff:

- Residential customers of Florida Power & Light Company will pay \$108.61 for 1,000 kWh of electricity. This reflects an increase of \$16.99 when compared with the current amount of \$91.62.
- A residential customer of Progress Energy Florida will pay \$109.56 for 1,000 kWh of electricity, which is \$11.78 more than the current level of \$97.78.
- Residential customers of Tampa Electric Company will pay \$109.60 for 1,000 kWh of electricity. This reflects a increase of \$11.53 when compared with the current amount of \$98.07.
- A residential customer of Gulf Power Company will pay \$92.48 for 1,000 kWh of electricity, which is \$4.57 more than the current level of \$87.91.
- Calculations for Florida Public Utilities Company (FPUC) are not available at this time and will be verified Thursday.

I don't think FPL should get a rate increase unless they can prove they can implement a program to update their equipment. In our neighborhood every time we have a bad storm (not necessarily a hurricane) we loose our power. It is always the same problem. Please take your time to evaluate your decision before you hand over millions of dollars. You are our only means of getting FPL to step up to plate and perform.

Thank you for your time

RECEIVED-FPSC

Dear Commissioners:

Now that you have granted Florida Power & Light another fuel adjustment, you will no doubt consider granting them an increase for the 10,000 poles they say they lost, and repairs to 240 of their substations which they said were damaged by Hurricane Wilma, plus the cost of restoring power including overhead and profit. Maybe you will even grant them money for lost revenue which they could not earn with the lines down.

CMP _____

COM _____

CTR _____

ECR 1

SCL 1

My question is, can you read your own staff report that says FPL was not inspecting or repairing poles? Why were so many substations not better protected? The Governor says homeowners must take better care of their own properties. He is right. Why not FPL?

XPC _____

ICA _____

IDR _____

ISA _____

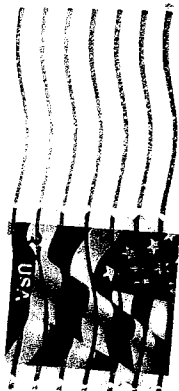

EC _____

TH _____

Is it true that you respond to customer complaints about FPL by simply forwarding them to FPL? When we tried to call FPL after the storm, all we could get was recordings. When we called BellSouth, we got live people who were responsive. Why the difference? Because BellSouth knows we have telephone choices, and FPL knows we do not have power choices. The real solution to the FPL problem is to **deregulate electric power in Florida.**

You must hold FPL responsible to maintain and repair their system, and not reward them for their failure to provide hurricane protection for their distribution network. Read your own reports and charge FPL for their failures, not just pass the cost on to the public.

DOCUMENT NO. 04957-06

DISTRIBUTION: —

Thanks, Adrienne. In this instance, it will just be up to your secretary to mark the motion as "satisfied" (in CMS) when the order is issued, while we in CCA won't have any confidential document to change the status on.

Thanks very much for the heads-up!

Kay

Subject: Docket No. 050001--Request for Confidential Classification

Kay--a request for confidential classification, Document No. 10740-05, was granted orally at the fuel hearing, and I will reflect it in the fuel order, but the actual confidential document was never filed at the Commission. The staff looked at it the same day the request was granted at the hearing, but FPUC never actually filed the document (and does not plan to file it). I just wanted you to know for purposes of tracking confidential information.
