HAND DELIVERED

Ms. Blanca S. Bayo, Director  
Division of Commission Clerk  
and Administrative Services  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Re: Petition of Tampa Electric Company for Approval of Revised Tariff Sheets for  
Underground Residential Distribution Service; Docket No. 060299-EI

Dear Ms. Bayo:

On March 31, 2006 Tampa Electric filed its Petition for Approval of Revised Tariff Sheets for Underground Residential Distribution Service. In response to an inquiry from Staff regarding that filing, Tampa Electric discovered that an incorrect inflation factor had been used to update the non-refundable deposit amounts shown on Tariff Sheets Nos. 5.515 and 5.516. These non-refundable deposit amounts have been recalculated using historical CPI inflation rates. We enclose the original and fifteen (15) copies of Revised Tariff Sheets Nos. 5.515 and 5.516 which reflect the corrected amounts. We would appreciate your distributing these corrected tariff sheets to the recipients of the original filing, so that they may substitute the corrected sheets in place of the ones contained in the original filing.

Please acknowledge receipt and filing of the above by stamping the duplicate copy of this letter and returning same to this writer.

Thank you for your assistance in connection with this matter.

Sincerely,

  
James D. Beasley

*Original forwarded to ECR*

**3.7.1.3 Single-phase UG Service Laterals Converted from Existing Overhead Service Drops**

|  |           |
|--|-----------|
| Removal charge for overhead service with no service pole           | \$159.00  |
| Removal charge for overhead service with a service pole            | \$315.00  |
| Fixed Charge for 2/0 service lateral                               | (\$17.65) |
| Fixed Charge for 4/0 service lateral                               | \$17.57   |
| Per trench foot charge for 2/0 service lateral                     | \$8.45    |
| Per trench foot charge for 4/0 service lateral                     | \$8.49    |
| Credit for service pole if otherwise required for overhead service | \$228.49  |

**3.7.2 Non-refundable Deposits for Estimates of CIAC**

**3.7.2.1 New Construction**

Requests for construction of new underground systems, except for residential subdivisions covered under Section 3.4.2, will be accompanied by a non-refundable amount as follows:

| <b>Density Class</b>                 | <b>Deposit Amount</b> |
|--------------------------------------|-----------------------|
| Urban Commercial or Residential..... | \$4,701 per mile*     |
| Rural Commercial or Residential..... | \$2,645 per mile*     |

\* Measured along centerline of roadways or proposed roadways

Continued to Sheet No. 5.516

Continued from Sheet No. 5.515

**3.7.2.2 Conversion**

Qualified applicants can request, upon payment of a non-refundable deposit as listed below, the conversion of overhead distribution facilities to underground in accordance with these Rules and Regulations for conversion areas of not less than one (1) city block in length along both sides of the main distribution system, or in the absence of city blocks, not less than five (5) contiguous building lots along both sides of the main distribution system, or in the absence of both, not the less than 600 pole-feet of the main distribution system, including all Customers served along both sides of the main distribution system, and so as to result in a decrease in the number of non-lighting poles in the system.

Requests for conversions, except for individual residential service covered under Section 3.4.3.3, will be accompanied by a non-refundable amount as follows:

| <b>Density Class</b>                 | <b>Deposit Amount</b> |
|--------------------------------------|-----------------------|
| Urban Commercial or Residential..... | \$7,787 per mile*     |
| Rural Commercial or Residential..... | \$4,555 per mile*     |
| High or Low Density Subdivision..... | \$37 per lot          |

\* As measured along the existing overhead primary and secondary distribution system.
