3. Section 364.183, Florida Statutes, provides an exemption from the public disclosure requirements of Section 119.07, Florida Statutes, for "proprietary confidential business information." Under Section 364.180(3)(e), Florida Statutes, "proprietary confidential business information" includes "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of information. The information described above and provided in Application Exhibit D relates to the competitive response and interests of Alltel and the public disclosure of such information would impair the competitive business of Alltel and provide a competitive advantage to competitors in the telecommunications service market. Alltel maintains this information as proprietary confidential business information which, if publicly disclosed, could be used by competitors to harm Alltel's competitive interests. The information for which confidential classification is sought is intended to be and treated as private and confidential by Alltel, and has not been disclosed publicly or otherwise. Accordingly, the information should be determined to be proprietary confidential business information pursuant to Section 364.183(3)(e), Florida Statutes, exempt from the public disclosure requirements of Section 119.07, Florida Statutes.
