September 19, 2006

Docket No. 060478-EG – Petition for approval of modifications to approved energy conservation programs, by Peoples Gas System.

Issue 1: Should the Commission approve Peoples' Petition for Approval of Modifications to Approved Energy Conservation Programs?

Recommendation: Yes. Each of the proposed residential programs are cost-effective. The proposed increase in appliance allowances could decrease the cost to customers when purchasing new appliances. Also, as a result of the higher appliance allowances, it is possible to see an increase in customer participation resulting in more customer savings. Finally, by merging the West Florida and Non-West Florida programs, the company will reduce time and expense that would otherwise be used if the programs were still filed separately.
