Re: **Docket No. 000121A-TP**: GAAP Audit of 2004 SEEM Payments  
**In Re: Investigation into the establishment of operations support  
systems permanent incumbent local exchange Telecommunications  
companies**

Dear Ms. Bayó:

Consistent with Appendix F of the Service Quality Measurements Plan, BellSouth Telecommunications, Inc. ("BellSouth") hereby files its Proposed Data Notification Report for November 2006 data month. The November 2006 changes will be discussed at the October 6, 2006 industry conference call.

A copy of the same is being provided to all parties as reflected in the attached certificate of service.

Sincerely,

Robert A. Culpepper

## PROPOSED NOVEMBER DATA NOTIFICATION

BellSouth is considering making the changes described in this document to generate results for the November 2006 data month. Results for the November 2006 data month will be posted as follows:

Preliminary results	December 20, 2006
Final results	December 31, 2006

BellSouth provides Data Notifications each month in compliance with the SQM Plan. This order specifies that when BellSouth proposes making any change to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. BellSouth must also provide notification if it is considering making changes to the method of calculating data for the following month.

ENCORE Releases may affect monthly data flows from the source systems (e.g., LEO, LESOG, etc.) that PMAP uses to calculate measurements. BellSouth will make changes to PMAP to ensure that data continues to be correctly captured as ENCORE Releases are implemented.

### Ordering Measurements

(1) *Affected Measures:* O-9 (FOCT)

*Description of Change:* Currently, BellSouth is incorrectly reporting a small number of records as INP LSRs when they are actually LNP LSRs. BellSouth proposes to modify the code to correct this issue. This proposed change was Item (1) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ6998)

*Impact of Change:* For July 2006 data, there was one record counted in UNE Analog Loop instead of UNE Analog Loop / w LNP for Georgia and one record that was not reported in FOCT in LA. Due to the impact of this change, reposting is not necessary.

(2) *Affected Measures:* OSS-1 (ARI), OSS-2 (IA), PO-2 (LMT), PO-3 (BMA)

*Description of Change:* Currently the PMAP website has OSS Reports listed under Pre-Ordering and Maintenance and Repair subject drop down boxes. BellSouth proposes to create a new subject drop down box to be named "OSS" to display all reports related to OSS Systems. This change is consistent with the SQM table of contents. This proposed change was Item (2) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ7722)

*Impact of Change:* None. Due to the impact of this change, reposting is not necessary.

- (3) *Affected Measures:* O-8 (RI), O-9 (FOCT)

*Description of Change:* Currently, BellSouth's starting timestamps for EDI and XML Single LSRs in a Bulk Arrangement are being taken from LNP gateway instead of EDI or SGG. BellSouth proposes to modify the code, which will allow PMAP to capture the correct timestamp. This proposed change was Item (3) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ7968)

*Impact of Change:* For July 2006 data, there was no change to the reported results. Due to the impact of this change, reposting is not necessary.

- (4) *Affected Measures:* OSS-1 (ARI)

*Description of Change:* Currently, BellSouth is displaying EDI transaction names as diagnostic and is displaying some RNS and ROS transaction names as diagnostic. Additionally, BellSouth is not displaying ATLAS MLH for TAG/XML in Tennessee and Florida. BellSouth proposes to remove all transaction names currently displayed as diagnostic and to include ATLAS MLH for TAG/XML in TN and FL. This proposed change was Item (4) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8423)

*Impact of Change:* None. Due to the impact of this change, reposting is not necessary.

- (5) *Affected Measures:* OSS-1 (ARI)

*Description of Change:* Currently, BellSouth is reporting duplicate records for the Response Interval Measure. BellSouth proposes adding a code to check and eliminate duplicates from this measure. This proposed change was Item (5) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8670)

*Impact of Change:* For November 2005 data, the CLEC average interval for the LENS COFFI/USOC disaggregation changed from 1.41 to 1.33 seconds. For December 2005 data, the BST average interval for the ROS RSAG BY ADDR disaggregation changed from 3.21 to 3.11 seconds. Due to the complexity of this measure, reposting will be determined after implementation.

- (6) *Affected Measures:* OSS- 1 (ARI)

*Description of Change:* Currently, BellSouth has discovered records that were not included in the Response Interval Measure. For example, this scenario can occur where COFFI queries PSIMS more than once during the same transaction. BellSouth proposes changing the code to allow these transactions to be included in the measure. This proposed change was Item (6) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8683)

*Impact of Change:* For January 2006 data, the CLEC average interval for the LENS COFFI/USOC disaggregation changed from 3.76 to 3.93 seconds. Due to the complexity of this measure, reposting will be determined after implementation.

- (7) *Affected Measures:* O-8 (RI), O-9 (FOCT), & O-11(FOCC) AL, MS, NC, & SC

*Description of Change:* Currently, BellSouth is not counting LSRs submitted as Single LSRs in a Bulk Arrangement in Alabama, Mississippi, North Carolina, or South Carolina. BellSouth proposes to modify its code to include single LSRs submitted in a Bulk arrangement in these states. This proposed change was Item (7) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8699)

*Impact of Change:* For July 2006 data in Mississippi, the results for Fully Mechanized FOCT for UNE Analog Loop with LNP would have increased from 63.64% to 90.97%. Partial Mechanized FOCT for UNE Analog Loop with LNP would have increased from 80.00% to 81.00%. There was no change in results for Fully Mechanized Rejects. Partial Mechanized Rejects would have decreased from 97.89% to 97.08%. There was no change in results for FOCC. Due to the impact of this change, reposting is not necessary.

#### Provisioning Measurements

- (8) *Affected Measures:* P-3 (MIA), P-4 (OCI), P-5 (CNI), & P-9 (PPT)

*Description of Change:* Currently in PMAP, Port-only Standalone products roll up into two product groups: LNP Standalone and UNE Other Non-Design. BellSouth proposes to remove the Port-only Standalone products from the UNE Other Non-Design, so they will only be reported in LNP Standalone. This proposed change was Item (8) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8657)

*Impact of Change:* For June 2006, Florida OCI UNE Other Non-Design volume would decrease from 9512 to 1, but the data is still captured in LNP Standalone. Due to the impact of this change, reposting is not necessary.

- (9) *Affected Measures:* P-5 (CNI) All States except LA

*Description of Change:* Currently, the CNI 12-month report has the numerator as a whole number, while the Aggregate and CLEC specific reports have the numerator as two decimal places. BellSouth proposes to change the numerator on the 12-month report to match the numerator on the Aggregate and CLEC Specific reports. This proposed change was Item (9) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8666)

*Impact of Change:* No change to the reported results. Due to the impact of this change, reposting is not necessary.

- (10) *Affected Measures:* P-7D (NCDD) All States except LA

*Description of Change:* Currently PMAP is not mechanically capturing the manually sent 'Go Ahead' CLEC messages. A process in WFA has been developed to capture this information. BellSouth Proposes to modify its code so that PMAP will begin using these fields from WFA during the metric calculation process. This proposed change was Item (10) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8693)

*Impact of Change:* For June 2006 data, the results for Non-Coordinated Customer Conversions in GA would change from 94.63% to 98.05%. BellSouth is reposting data for the months of May and June 2006 for Georgia only.

For June 2006 data, the results for Non-Coordinated Customer Conversions in FL would change from 95.89% to 98.15%. Due to the impact of this change, reposting is not necessary.

- (11) *Affected Measures:* P-1 (HOI), P-2A (PJ48), P-2B (PJ), P-3 (MIA), P-4 (OCI), P-5 (CNI), & P-9 (PPT)

*Description of Change:* BellSouth has identified an additional USOC that can be utilized to segregate UNE Analog Loop Non-Design orders from UNE other Non-Design orders. BellSouth proposes to modify its code to report these orders in the UNE Analog Loop Non-Design disaggregation as outlined in the SQM. This proposed change was Item (11) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8750)

*Impact of Change:* For July 2006 data, Florida OCI results for UNE Analog Loop Non-Design, Non-Dispatch, with < 6 circuits would change from 2.74 to 2.94 days and UNE Other Non-Design, Non-Dispatch, with < 6 circuits would change from 1.30 to 1.27 days. Due to the impact of this change, reposting is not necessary.

For July 2006 data, Georgia OCI results for UNE Analog Loop Non-Design, Non Dispatch, with < 6 circuits would change from 3.25 to 3.24 days and UNE Other Non Design, Non-Dispatch, with < 6 circuits would change from 1.31 to 1.30 days. Due to the impact of this change, reposting is not necessary.

### Trunk Group Performance Measurements

- (12) *Affected Measures:* TGP-1 (TGP)

*Description of Change:* Currently, on the CLEC Specific web reports, trunk group blocking data is displayed regardless of which state code is selected. BellSouth proposes to correct the CLEC Specific web report to display only the data for the state code that is selected. This proposed change was Item (12) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8513)

*Impact of Change:* There is no impact to results; only the data for the state code that is selected will be displayed. Due to the impact of this change, reposting is not necessary.

### Database Update Measurements

- (13) *Affected Measures:* D-1 (Average Database Update Interval), D-2 (Percent Database Update Accuracy), & D-3 (Percent NXXs and LRNs Loaded by the LERG Effective Date) – LA Only

*Description of Change:* Currently, BellSouth is reporting D-1, D-2, and D-3 in Louisiana. These measures are not part of the Louisiana SQM. BellSouth proposes to delete these measures. This proposed change was Item (13) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8187)

*Impact of Change:* Reports will not be posted in Louisiana.

### Collocation Measurements

- (14) *Affected Measures:* C-2 (AT)

*Description of Change:* Currently, PMAP does not sum the Average Arrangement Time correctly on the CLEC Specific reports. BellSouth proposes to modify its code by totaling "like" collocation arrangement times by Parent OCN. This proposed change was Item (14) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8726)

*Impact of Change:* There is no impact to reported results. Due to the impact of this change, reposting is not necessary.

### Special Access Measurements

- (15) *Affected Measures:* SA-1, SA-2, & SA-3 (GA, KY, & FL)

*Description of Change:* BellSouth has developed coding rules, which better identifies records that should be included in these measures. BellSouth proposes to implement these changes. This proposed change was Item (15) on the Preliminary November 2006 Data Notification filed on September 1, 2006. (RQ8697)

*Impact of Change:* For July 2006 data in Florida, the DS1 metric for the "0 Days" interval would change from 66.36% to 65.00%. For July 2006 data in Georgia, the DS1 metric for "0 Days" interval would change from 69.2% to 67.6%. Due to the impact of this change, reposting is not necessary.
