RE: Docket No.: 060260-WS; Lake Placid Utilities, Inc.'s Application for Rate Increase in
Highlands County, Florida
Our File No.: 30057.120

Dear Ms. Bayo:

Enclosed for filing in the above-referenced docket is the response of Lake Placid
Utilities, Inc., (*Utility*) to Staff's third request for information dated September 19, 2006:

- (1) On MFR Schedule E-4, Lake Placid reflected its current miscellaneous service charges. Further, the utility proposed after hours charges of \$22.50 for initial connection and normal reconnection, actual cost for violation reconnection, and \$15.00 for premises visit. It is the Commission's practice to approve miscellaneous service charges (including initial connection, normal and violation reconnection and premises visit charges) for a water and/or wastewater utility as long as the amounts and conditions are the same as recent Commission decisions. By Order No. PSC-06-0684-PAA-WS, issued August 8, 2006, in Docket No. 050587-WS, In re: Application for staff-assisted rate case in Charlotte County by MSM Utilities, LLC, the Commission found that MSM Utilities, LLC (MSM) shall be allowed to increase its water and wastewater miscellaneous service charges as follows:

- (a) In an effort to set reasonable charges to make the cost causer pay for the above services, please state whether the utility agrees that it would be more appropriate for Lake Placid to establish charges as approved for MSM above, instead of the utility's proposed charges on MFR Schedule E-4.

RESPONSE: The utility agrees that the above rates would be more appropriate.

- (b) If the utility's response to Question (2)(a) above is in agreement with any of the above charges approved for MSM, please state the charge(s) that the utility is in agreement with.

RESPONSE: The utility agrees with all charges above.

- (c) Please provide the following: (1) a breakdown of the number of initial

connections, normal reconnections, and premises visits during normal hours for the 2005 test year; and (2) a breakdown of the number of normal reconnections and premises visits for the 2005 test year during after hours.

RESPONSE: Please refer to the enclosed CD and attached document which contains schedules showing (1) a breakdown of the number of initial connections, and (2) a breakdown of the number of reconnections and premise visits for 2005. The number of reconnections is labeled as Code 10 and the number of premise visits is labeled as Code 12. All reconnections and premise visits were during normal hours.

- (2) Please provide, on a CD in a format compatible with Excel for Windows, copies of all electronic schedules, tables, work papers, models, projections and forecasts created in the process of filing all E and F schedules contained in the MFRs in the current rate increase request. For each electronic schedule, table, work paper, model, projection or forecast provided in this response, please provide its file name, a description of the purpose and/or contents of the file, and the Schedule (or table number, if applicable) that the file corresponds to in the MFRs. In the event of any subsequent revisions to any E or F schedules, please provide an updated CD, in a format compatible with Excel for Windows, which contains all of the above-requested information for each revised or updated schedule.

RESPONSE: Please refer to the enclosed CD which contains files labeled Lake Placid-20050701.doc and Sanlando-20040823.pdf. These files contain the rates referencing bill codes during 2005 that were used to prepare the E schedules. The file Lake Placid consumption.xls contains the consumption by thousands report that was also used to prepare the E schedules. The files labeled Lake Placid-E1.xls through Lake Placid-E5.xls and Lake Placid-E9.xls through Lake Placid-E14.xls contain the E schedules filed in the MFR. Please refer to the files labeled Lake Placid F Schedules.xls. This file contains F schedules 1 through 10. The files labeled Blcd-2000.xls through Blcd-2004.xls were used to complete schedules F-9 and F-10. The file labeled UICustomer_Gallons.xls was created to summarize the information on the blcd files.
