RE: Docket No. 060246-WS; Gold Coast Utility Corp.'s Application for an Increase in Water and Wastewater Rates in Polk, County, Florida
Our File No.: 40057.05

Dear Ms. Bayo:

Gold Coast Utility Corp., provides the following responses to Staff's letter dated October 24, 2006:

- 1. Rule 25-30.440(1), F.A.C., requires the utility to provide a detailed map, (b) the location and respective classification of the applicant's customers. The map submitted by the utility does not show the location and respective classification of the applicant's customers.

CMP _____
COM _____
CTR _____
ECR _____
GCL _____
OPC _____
RCA _____
SCR _____
SGA _____
SEC 1 _____
OTH _____

RESPONSE: The Utility has prepared maps which will be submitted to the Division of Economic Regulation by copy of this letter. Residential customers are connected by the lines shown in red. General Service customers are connected by liens shown in yellow. All meters are 5/8" x 3/4", unless specifically marked otherwise. The residential customers at Village Green, Lake Shore, and Nalcrest subdivisions are on a flat rate, therefore do not have meters.

Page 2

There are 6 residential meters per building in the Granada subdivision, one meter per unit. These are not clearly marked on the map. The General Service meter there provides irrigation only.

Please do not hesitate to contact me if you should have any questions.

Very truly yours,

VALERIE L. LORD
