TARIFF FORMAT

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1
- 2.1.1
- 2.1.1.A
- 2.1.1.A.1
- 2.1.1.A.1.(a)
- 2.1.1.A.1.(a).1
- 2.1. 1.A.1. (a).I.(i)
- 2.1.1.A.1.(a).1.(i).(1)

Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross-reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.

3. SECTION 3 - DESCRIPTION OF SERVICE

3.1 Computation of Charges and Timing

3.1.1 All calls must be charged against a Prepaid Calling Card. The total charge for each completed call is dependent upon the duration of the call. The charge is not dependent upon distance. Calls made with a Prepaid Phone Card are rounded up to the next full minute. If a partial minute is used, then the card will be charged for a full minute. There will be a surcharge for calls made from payphones as set forth in Section 4 of this tariff. Customers may call either of the Company's customer service numbers for additional rate information:

English: (800) 359-9684

Spanish: (800) 359-9674

3.1.2 A Telecom Unit is deducted from Prepaid Calling Cards only when the called party answers and two way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or software utilizing audio tone detection. Timing for each call ends when either party hangs up. When the balance is depleted, the customer can dispose of the Prepaid Calling Card and purchase a new Prepaid Calling Card.

3.1.3 The Company will not deduct Telecom Units for uncompleted calls.

Any objections to charges must be reported within seven (7) calendar days to the Company. Adjustments to a Customer's Telecom Unit balance shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such deductions are not in accordance with approved rates or the terms of this tariff, or that an adjustment may otherwise be appropriate.

3.4 Service Offerings

3.4.1 Prepaid Calling Cards

This Service permits the use of Prepaid Calling Cards for placing calls between points within the State of Florida.

Customers may purchase Prepaid Calling Cards at a variety of retail outlets or through other distribution channels. Prepaid Calling Cards are available at a variety of face values. Prepaid Calling Cards must be used from a touch-tone phone. Service is accessed using the toll-free number or local access number printed on the card. The caller is prompted by an automated voice response system to enter his/her Authorization Code, and then to enter the terminating telephone number. The Company's processor tracks the call duration on a real time basis to determine the number of Telecom Units consumed. The total consumed Telecom Units and applicable taxes and fees for each call are deducted from the remaining Telecom Unit balance on the Customer's Prepaid Calling Card.

All calls must be charged against a Prepaid Calling Card that has a sufficient Telecom Unit balance. A Customer's call will be interrupted with an announcement when the balance is about to be depleted. When the balance is depleted, the Customer can dispose of the Prepaid Calling Card and purchase a new Prepaid Calling Card. Calls in progress will be terminated by the Company if the balance on the Prepaid Calling Card is insufficient to continue the call.

Prepaid Calling Cards are not refundable. A card will expire on the date indicated on the card or, if no date is specified, 90 days from the date of first usage, whichever is later. The Company will not refund unused balances.

Prepaid Calling Cards may be used only from the state specified or nationwide, whichever is stated on the card or accompanying information.
