Violation Reconnection involves both a disconnection and reconnection visit to the property and is therefore twice the Premises Visit charge.

Insufficient Funds (NSF checks) charges are established using 1/2 hour clerical time plus office and payroll, overheads, and bank fees.

Historical 2005, Projected 2006 & 2007

Explanation: Provide all calculations, analyses and governmental requirements used to determine the used and useful percentages for the water distribution and wastewater collection systems for the historical test year and the projected test year (if applicable). The capacity should be in terms of ability to serve a designated number of connections. It should then be related to actual connected density for historical year calculations. Explain all assumptions for projected calculations. If the distribution and collection systems are entirely contributed or built-out, this schedule is not required.
