(e) All costs charged to Account 228.1 are subject to review for prudence and reasonableness by the Commission. Under the ICCA methodology for determining the allowable costs to be charged to cover storm-related damages, the following costs are expressly prohibited from being charged to Account No. 228.1:

1. Base rate recoverable regular payroll and regular payroll-related costs for utility managerial and non-manual personnel;
2. Bonuses or any other special compensation for utility personnel not eligible for overtime pay;
3. Base rate recoverable depreciation expenses, insurance costs and lease expenses for utility-owned or utility-leased vehicles and aircraft;

11. Costs of back-fill work or catch-up work for activities not directly related to storm damage restoration activities; and
12. Replenishment of the utility's materials and supplies inventories.

(f) A utility may, at its own option, charge storm-related costs as operating expenses rather than charging them to Account No. 228.1. The utility shall notify the Director of the Commission's Division of Economic Regulation in writing and provide a schedule of the amounts charged to operating expenses for each incident exceeding five million dollars.

(g) If the charges to Account No. 228.1 exceed the account balance, the excess shall be carried as a debit balance in Account No. 228.1 and no request for a deferral of the excess or for the establishment of a regulatory asset is necessary.

(h) A utility may petition the Commission for the recovery of a debit balance in Account No. 228.1 through a surcharge, securitization or other cost recovery mechanism.

(i) If a utility receives reimbursement from another utility for expenses incurred in providing storm damage restoration assistance to another utility, the utility shall credit Account No. 228.1 for the costs that normally would be charged to operating expenses in the absence of providing storm damage restoration assistance.

(j) A utility shall not establish or change an annual accrual amount or a target accumulated balance amount for Account No. 228.1 without prior Commission approval.

(k) Each utility shall file a Storm Damage Self-Insurance Reserve Study (Study) with the Division of the Commission Clerk and Administrative Services by January 15, 2011 and at least once every five years thereafter from the submission date of the previously filed study. A Study shall be filed whenever the utility is seeking a change to either the target accumulated balance or the annual accrual amount for Account No. 228.1. At a minimum, the Study shall include data for determining a target balance for, and the annual accrual amount to, Account No. 228.1.

(l) Each utility shall file a report with the Director of the Commission's Division of Economic Regulation providing information concerning its efforts to obtain commercial insurance for its transmission and distribution facilities and any other programs or proposals that were considered. The report shall also include a summary of the

amounts recorded in Account 228.1. The report shall be filed annually by February 15 of each year for information pertaining to the previous calendar year.

(2) – (4)(a) No change.

(b) If a utility elects to use any of the above listed accumulated provision accounts, each and every loss or cost which is covered by the account shall be charged to that account and shall not be charged directly to expenses except as provided for in subsections (1)(e) and (1)(f). Charges shall be made to accumulated provision accounts regardless of the balance in those accounts.

(c) No change.
