**Docket No. 050862-WU**

**Date: February 4, 2007**

**Please give this case your consideration. This affects so many people in such a great way and I don't think most people truly understand the magnitude of this.**

**There are people that now have to choose if they can afford to use the basic necessity of water in their daily lives. It is a total travesty that some families now during some billing periods pay more for water than electric.**

**After reviewing the P.S.C. report that parallels our complaints this case appears to reek of incompetence, and/or greed on the part of the County-Wide Utility Co.**

**Know body denies that a business has to make a profit, but this goes way beyond the normal realm of decency. There are simply too many problems with this case to let this go unchecked.**

**Please consider this case as if it was your mother or father in this community being affected by this action the utility is taking.**

**Please also understand that we are in fact receiving no discounted insurance rates to offset this change and increase. This also is affecting selling these homes due to the exorbitant water bills.**

**Please stop this travesty before it ruins people's lives!**

**We await you decision.**
