Tallahassee, FL 32399-0850**

To Whom It May Concern:

I am a flower importer and a member of the Association of Floral Importers of Florida (AFIF). I am writing in regard to the rate increase that you approved for Florida Power & Light to enact on South Florida businesses. Miami International Airport brings in 88% of the flowers that are imported into this country and approximately 85% of that product belongs to AFIF members. Member companies directly employ over 7,000 people in the Miami area. Our flowers are then sold and shipped to wholesale and retail florists throughout the United States.

- CMP _____
- COM _____
- CTR _____
- ECR 1
- GCL 1
- OPC _____
- RCA _____
- SCR _____
- SGA _____
- SEC _____
- OTH _____

Our industry is extremely dependent on refrigeration from the airport, to the trucks, to the cooler facilities and the outgoing truck lines. The rate increase of up to 40% could potentially put some member companies out of business. Wholesale florists, retail florists nor consumers of flowers in the United States are willing to pay for the increases that you would be imposing on our businesses. The global flower industry is intensely competitive-margins are very thin-with operating profits for most businesses only 2-4 percent.

My company and members of AFIF, are located within a 10 mile radius of the west side of the airport and in Doral. Collectively we are asking, what can we do to preserve the businesses that we have spent 10, 20 or 30 years in building? Is it the Public Service Commission's intention to hit businesses the hardest so that companies move out of South Florida or have to shut their doors? Will it be good for the economy to lay off workers to pay for the increases?

RECEIVED

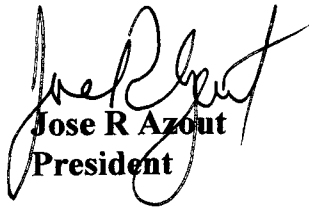

JAN 30 2006

I am asking you to review the rate increase and how it is going to negatively affect our vital industry to the South Florida area.

Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

To Whom It May Concern:

I am a flower importer and a member of the Association of Floral Importers of Florida (AFIF). I am writing in regard to the rate increase that you approved for Florida Power & Light to enact on South Florida businesses. Miami International Airport brings in 88% of the flowers that are imported into this country and approximately 85% of that product belongs to AFIF members. Member companies directly employ over 7,000 people in the Miami area. Our flowers are then sold and shipped to wholesale and retail florists throughout the United States.

Our industry is extremely dependent on refrigeration from the airport, to the trucks, to the cooler facilities and the outgoing truck lines. The rate increase of up to 40% could potentially put some member companies out of business. Wholesale florists, retail florists nor consumers of flowers in the United States are willing to pay for the increases that you would be imposing on our businesses. The global flower industry is intensely competitive-margins are very thin-with operating profits for most businesses only 2-4 percent.

CMP
COM
CTR

My company and members of AFIF, are located within a 10 mile radius of the west side of the airport and in Doral. Collectively we are asking, what can we do to preserve the businesses that we have spent 10, 20 or 30 years in building? Is it the Public Service Commission's intention to hit businesses the hardest so that companies move out of South Florida or have to shut their doors? Will it be good for the economy to lay off workers to pay for the increases?

ECR
GCL
OPC

I am asking you to review the rate increase and how it is going to negatively affect our vital industry to the South Florida area.

Please feel free to contact me if you have any questions.

Sincerely,

Anthony Ardisson

Matilda:

The attorney is aware of it and will let the Commissioner know that he should not date the Order.

(I think he did it because he is new and just didn't know).

I will change the date to the 13th.

Thanks for letting me know that it needed to be changed.

P.Z.

Jennifer, per our discussion, we are deleting the PDFs of these documents:

01779-06
01780-06

from our network and the Website. We are also removing the documents from the docket file and moving them to the confidential files, and will also attempt to gather all copies that were distributed to staff and Commissioner files and place the copies in the confidential room.

Also per our discussion you will advise Russell Badders to file a request for confidentiality of the portions of these documents that he had not already requested confidentiality on.

Marguerite and Matilda: Please work together to have the PDFs deleted immediately, have the originals

3/6/2006

pulled from the docket file, gather the distributed copies (including the security copy) and place original and all copies in the confidential file.

Thanks.

I suspected something like that might have happened, and it was not a problem...just wanted you to know we were taking your filing apart!

Thanks for responding.

Subject: confidential filing in Docket 060001-EI

Ms. Ritenour, we received today the original and 10 copies of a request for confidential classification [of Schedule 2 to Exhibit HRB-1 of H.R. Ball's testimony]. We found that the confidential schedules were spiral-bound into (just behind) the original request. To avoid having to treat the entire spiral-bound document (original request, confidential material, and all non-confidential attachments) as confidential, we are removing the spiral binding and will separate the confidential material from the original request and its attachments. The request will not be treated as confidential; Exhibit A *will* be treated as confidential.

Please let me know if you have any questions.

Ms. Mary Anne Helton
Staff Counsel
Office of General Counsel
Florida Public Service Commission
Room 382A – Gerald L. Gunter Building
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Re: Tampa Electric Company's Generating
Performance and Incentive Factor Methodology

Dear Ms. Helton:

This will follow up discussions with you, Patty Christensen of the Office of Public Counsel and Tim Perry, counsel to the Florida Industrial Power Users Group, regarding scheduling a meeting or conference call to further discuss a settlement proposal to resolve the Tampa Electric Company specific Generating Performance Incentive Factor ("GPIF") issue that was left pending after the fuel adjustment hearing last November.

As you will recall, in response to suggestions from the Commission, Tampa Electric met with the Staff and intervenors back on March 24 to discuss Tampa Electric's GPIF. During that meeting Tampa Electric offered up a revised GPIF methodology that essentially would adjust out certain outliers of historical forced outage data in setting GPIF unit availability targets and make the same outlier adjustment to actual results in determining whether a reward or penalty should be made. At the conclusion of that meeting, it appeared that the Staff and intervenors were receptive to the notion of removing outlying forced outages when setting target unit performance but were less receptive to a corresponding removal of outlying forced outages in the true-up process.

Subsequent to the March 24 meeting, Tampa Electric revisited its proposed methodology. The company has concluded that it is willing to revise its proposal so as not to remove outlying forced outages in the true-up process if the Staff, intervenors and the Commission will accept the remainder of the company's proposed methodology as a final resolution of how Tampa Electric's existing GPIF methodology should be modified.

Ms. Mary Anne Helton
April 25, 2006
Page Two

The Office of Public Counsel has also shared with us its intent to file a petition going beyond the Tampa Electric specific GPIF issue which would propose a generic modification to the GPIF methodology. OPC informed us of the planned petition so that Tampa Electric would not interpret OPC's agreement as an acceptance of the current GPIF process that would waive their ability to file a generic proposal that may result in additional modifications to the GPIF methodology for all IOUs. Tampa Electric appreciates receiving this "head's up" but does not believe that any future generic proposal by OPC should stand in the way of reaching final resolution on the Tampa Electric specific issue relating to its existing GPIF methodology.

Tampa Electric appreciates the assistance of Staff, OPC and FIPUG in attempting to reach a mutually acceptable resolution of the Tampa Electric specific GPIF issue. We are hopeful that the company's proposal, with the modification described above, will accomplish that end.

It is my understanding that Staff will be prepared to meet or participate in a conference call with Tampa Electric and the intervenors to discuss the company's modified proposal within the next week or two. We will follow up with you in an effort to schedule that discussion.

Sincerely,

James D. Beasley

Subject: RE: Question regarding a filing [REDACTED] has received

Mary Anne,

I sent the letter with a cover memo to the clerk's office on May 12th. My memo requested that the letter be placed in the correspondence side of the docket file. Perhaps Jim Beasley also gave them a copy? In any event, yes, one copy should go in correspondence side since it is a noticed informal conference.

Subject: Question regarding a filing CCA has received

Hi Mary Anne,

CCA received a copy of a letter from TECO/Beasley to you in re TECO's generating performance and incentive factor (GPIF) methodology. The letter appears to have been hand-delivered to GCL on 4/25/06. The letter is a follow up to discussions with you, OPC/Christensen, and FIPUG/Perry regarding scheduling a meeting or conference call to discuss a settlement proposal to resolve specific GPIF issue left pending after fuel adjustment hearing last November. We're not sure if the letter was forwarded to us for placement in the docket file or in the correspondence side of the file. If you could shed some light on the subject, that would be great! Thank you.

Dorothy

Comments:
I would like to complain about the rising electric bills and to urge you not to pass another rate increase to Progress Energy this coming January. I am a disabled woman on a fixed income, who is caring for elderly parents in their 80's, one of which is Oxygen dependent and on a Bi-pap machine during the night and oxygen 24 hours a day which is medically necessary because of End-Stage COPD and he is a Hospice patient. I am a home owner, and had a \$320.00 electric bill this month, which is outrageous, as much as a car payment or a mortgage payment if you are lucky. Please let the shareholders share in the rate increase instead of Progress Energy and do not pass the proposed rate increase. Please contact me at the e-mail provided as I may have to discontinue phone service to pay the electric bill.

Comments:
The following two articles were in the Orlando Business Journal.

Progress Energy seeks rate increase
Orlando Business Journal - 4:53 PM EDT Friday

Progress Energy Florida asked state regulators to approve a cost adjustment to reflect the rising costs of fuel used to generate electricity, as well as increased costs to comply with environmental regulations.

If approved, residential electric bills would rise next year by nearly 3.4 percent per 1,000-kilowatt hours.

The rate request seeks a total increase of \$161.4 million. If approved by the Public Service Commission, residential customer bills would increase with the January 2007 billing cycle by approximately \$3.72 per 1,000 kWh to \$113.28.

"The same pressures driving up the cost of gas for your car are driving up the cost of fuels to generate electricity," says Jeff Lyash, president and chief executive officer of

Progress Energy Florida, in a release.

PEF uses coal, oil, natural gas and nuclear power to maintain a diverse fuel mix, which helps mitigate the impact of increases in any one fuel. Nevertheless, oil costs are expected to increase by almost 35 percent over 2006 levels, while natural gas prices are expected to go up by 12 percent.

Progress Energy Florida, a subsidiary of Progress Energy (NYSE: PGN), provides electricity and related services to more than 1.6 million customers in Florida. The company is headquartered in St. Petersburg and serves a territory encompassing more than 20,000 square miles including the cities of St. Petersburg and Clearwater, as well as the Central Florida area surrounding Orlando.

Utility to cut electric rates 3.6%

Orlando Business Journal - 3:45 PM EDT Thursday The Kissimmee Utility Authority says it will cut electric rates by 3.6 percent beginning Sept. 1 because of lower fuel costs. The cut will save the typical residential user about \$4 per month.

September marks the second consecutive month of rate reductions for KUA customers. Since July, the utility has lowered rates by 6.4 percent, or \$7.29 per 1,000 kilowatt hours of electricity. The cumulative total of the rate decreases is worth nearly \$1 million in savings to customers.

Founded in 1901, the utility is the state's sixth-largest community-owned utility providing electric and telecommunication services to 170,000 residents in five Central Florida counties.

I realize that KUA is community owned but would like to know why the very first statement, Progress Energy fuel costs went up and KUA went down? Also, KUA makes no mention of environmental regulation cost increases.

Please inform me as to how two companies that provide the same service release such opposite information and Progress Energy requesting a price increase based on fuel cost.

COMPLAINT INFORMATION

Complaint: Other Complaint against Progress Energy Florida, Inc.

Details:

I understand that Progress Energy has asked for a rate increase for 2007, Effective January 1st.

I request that you not grant this increase! I further request that you reduce Progress Energy's rate 30% to better align with the current costs of fuel!

I really don't understand why a monopoly can get a separate rate for fuel costs, that should be discontinued! Also why does no investigation exist for verifying their meters accuracy.

COMPLAINT INFORMATION

Complaint: Other Complaint against Progress Energy Florida, Inc.

Details:

As a customer of Progress Energy since 1999 I am against any increase the state would grant this utility. The cost as described in the press release which can be found at <http://www.progress-energy.com/aboutus/news/article.asp?id=14803> is fraudulent on it's face as the press release tries to relay to the public that costs for fuel are going up. This is not so. The power company's customer base in Pinellas County according to the Chamber of Commerce and based on City of St Petersburg building permits for new construction/condo's is up over 30%. The proposed \$3.72 per 1000 kW is excessive and irresponsible by the power company whose profits are posted and available to the public at <http://money.cnn.com/magazines/fortune/fortune500/snapshots/260.html> and the total profits of PNG is 10.646 million an increase of 8.4% over 2004. With this projected increase people like myself who are on a fixed income and who rely on agencies to assist with bills which are now so out of hand and no end is in sight for lowering rates. A business should be operated with the consumer in mind. Progress energy has the worst record in history in providing reliable power to St Petersburg. I myself have made numerous complaints and to some degree there has been limited improvement. The proposed increase is based on "Projectories" and not fact. Look at the price of crude which closed beneath 58.00 a barrel yesterday, the price of gas is now 2.39 per gallon in St Petersburg and the old story this utility keeps pressing is not only a lie, its a story every business is using

CMP _____
COM _____
CTR _____
ECR | _____
GCL | _____
OPC _____
RCA _____
SCR _____
SGA _____
SEC _____
OTH _____

as their base profit center in order to increase revenue by using Crude/Gas/and other as mask.

If truly, Progress Energy or any other utility understood the strain they are placing on those of us on fixed incomes, they would much like the general public must do is trim the fat from the budget. Baltimore Gas and Light, one of the nations oldest and most respected utility companies for which my relatives have worked for some for more than 30+ years have said clearly PNG (Progress Energy) must have the best of everything at the expense of the consumer.

I ask this commission if other power companies can use trucks that are 15 years old to curb costs and prove their dilemma of actually needing the increase that's one thing, facts are PNG made 10.656 Million in profit in 2005. One can only assume PNG will have another record earning year in 2006. Already the State of Florida have been investigating PNG for price fixing for which PNG has appealed and to a number of customers for which I have spoken with like neighbors and others believe the reduction based on the price fixing which would have to be refunded to customers, (PNG purchasing their own coal from one of their subsidiaries and inflating the costs) if this increase is put into place would do a "washed balance".

We have to live with a realistic budget as the consumer and expect Progress Energy to do the same. These mafia tactics of sticking it to the consumer must come to an end now.

Here's an idea. Why don't the State of Florida grant individuals rebates for Solar like the corporate counterpart? If this were the case, I would find the money somehow and build a solar array and be off the grid entirely which is something a number of people are already looking into since the rates are not in line with income, and are beyond inflation index.

Best Regards,
Unhappy Progress Energy Customer,
Todd Johnson

COMPLAINT INFORMATION

Complaint: Other Complaint against Progress Energy Florida, Inc.

Details:

Since the installation of a digital meter my electric bills are outrageously high. That combined with the higher rates approved by the PSC not to mention the proposed rate increase have made electricity unaffordable. According to Progress Energy these new meters are more accurate. If that is the case Progress Energy is less justified in these increases. According to my new meter my electrical consumption in this little apartment is more than the last 5 places I have lived. Roll back Progress Energy's rate increases say no to future increases.

Re: Agency referral

Consumer: JEANNE SCHIMMEL

Business: FLORIDA POWER & LIGHT

The Division of Consumer Services, Bureau of Mediation and Enforcement has received a complaint that appears to fall within the jurisdiction of your agency. Please review the enclosed complaint and take whatever action you deem appropriate, if any. If you determine this represents a case for investigation, we would appreciate you informing the consumer of that.

We have advised the consumer that any future correspondence be addressed to your agency. We also informed her/him that the state of Florida cannot serve as a personal attorney for an individual, so she/he may wish to consider contacting an attorney for legal advice or filing a small claims action in county court.

On behalf of the Division of Consumer Services, I appreciate your cooperation in handling this matter. If you feel that this complaint does not fall within the jurisdiction of your agency, please contact me prior to making contact with the consumer.

Sincerely,

Ben C. Brown

_____) FILED: October 6, 2006

PREHEARING STATEMENT OF AARP

AARP, pursuant to the Orders Establishing Procedure in this docket, Order No. PSC-06-0207-PCO-EI, issued March 15, 2006, and Order No. PSC-06-0710-PCO-EI, issued August 23, 2006, hereby submits this Prehearing Statement.

APPEARANCES:

MICHAEL B. TWOMEY, SR.
P.O. Box 5256
Tallahassee, Florida 32314-5256

On Behalf of AARP

1. **WITNESSES:**

None.

2. **EXHIBITS:**

AARP has no pre-filed exhibits, but reserves its right to introduce appropriate exhibits through the witnesses of the other parties to this proceeding.

3. **STATEMENT OF BASIC POSITION**

AARP agrees with the statement of basic position set forth by the Office of Public Counsel, representing the Citizens of the State of Florida.

4. **STATEMENT OF ISSUES AND POSITIONS:**

ALL ISSUES: For all identified issues reflected in the Office of Public Counsel's

prehearing statement AARP adopts the specifically stated positions taken by the Office of Public Counsel by taking the position "Agree with OPC," and for the issues where the Office of Public Counsel has not taken a specific position AARP takes the position of "no position at this time."

5. **STIPULATED ISSUES:**

None.

6. **PENDING MOTIONS:**

None.

7. **STATEMENT OF PARTY'S PENDING REQUESTS OR CLAIMS FOR CONFIDENTIALITY:**

AARP has no pending requests for claims for confidentiality.

8. **OBJECTIONS TO QUALIFICATION OF WITNESSES AS AN EXPERT:**

AARP does not expect to challenge the qualification of any witness.

9. **STATEMENT OF COMPLIANCE WITH ORDER ESTABLISHING PROCEDURE:**

There are no requirements of the Order Establishing Procedure with which AARP cannot comply.

Dated this 6th day of October, 2006.

Respectfully submitted,

/s/ Michael B. Twomey, Sr.

COMPLAINT INFORMATION

Complaint: Other Complaint against Progress Energy Florida, Inc.
Details:

I would like to know how long will the electric utilities will be allowed to charge the ridiculously high fuel charges (PSC Approved), they are presently charging as fuel costs are decreasing. I do not see Fuel Charges based on decreasing costs.

Also, why are they allowed to bill for more than one month's of service?

For Seniors, the above is causing financial hardships.

Comments:

FPL bills have a fuel charge which I understand will go down only 2% in January 07'. Just four of our bills have over \$1200.00 in fuel charges. If the price of fuel is down 20% why such a small decrease? This 2% would mean only \$24.00 to us, it's hardly worth it. All the years this company has made very high profits and paid extream salaries, looks as if they should have been required to have reserved some dollars for such situations and not have you allow them to JAM the customers this way. Review their expenses again and lower our rates, I only wish we could make such salaries and profits.
Thank you.

Subject: Rising Costs of Electric Power

Florida Public Services Commission

Contact@PSC.State.FL.US

Subject: Rising Costs of Electric Power & Florida Citizens' Electric Bills

I live in Marion County and our electric power service provider is Progress Energy. Over the past several years we have been suffering an increasingly heavy budgeting burden brought on by our steadily rising electric bill. We fully understand that the cost of oil has impacted on the power company's costs of supplying electricity but also feel that the increases are unjustifiably high. We are currently averaging about \$350 per month for the electric power we consume in our modest home (about 24k square feet under air, plus the usual complement of electric appliances).

Recently the costs for crude oil have dropped considerably and that is already being reflected at the gasoline pumps where we've seen gas prices reduce by nearly 30%. We would expect our electric bills to drop by a commensurate percentage but that has not been the case.

We urge you to take a very close look into this matter when you next meet to consider what the citizens of Florida are facing in costs to heat and cool their homes. Thanks you for your attention to this matter, I remain,

Sincerely,

Luther H. Deese, Jr.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Fuel and Purchased Power
Cost Recovery Clause with Generating
Performance Incentive Factor.

Docket No: 060001-EI
Filed: October 17, 2006

**FEDERAL EXECUTIVE AGENCIES'
CROSS-NOTICE OF DEPOSITION**

TO: R. Wade Litchfield, Esquire
John Butler, Esquire
Florida Power & Light Company
700 Universe Blvd.
Juno Beach, FL 33408-0420

NOTICE is hereby given that the Federal Executive Agencies (FEA) will take the deposition of the following individual at the following location and time indicated:

NAME	DATE and TIME	ORIGINAL NOTICING PARTY
Kori M. Dubin	Friday, October 20, 2006 9:30 a.m.	FPSC STAFF

Since the deposition of the individual named above has already been noticed by the Florida Public Service Commission, FEA states that they will plan to ask their deposition questions, if any, at the conclusion of the deposition by the Florida Public Service Commission.

The witness should bring copies of all the work papers or other materials used by the witness in the preparation of his testimony filed in this docket or used by the witness in the preparation of responses to Staff and FEA's discovery requests in this docket.

The deposition is being taken for purposes of discovery, for use at trial, or for any other purpose allowed under the Florida Rules of Civil Procedure, the Uniform Rules of Procedure, and the Rules of the Florida Public Service Commission.

Respectfully submitted,

s/Damund E. Williams

DAMUND E. WILLIAMS, Capt, USAF

COMMISSIONER
CLERK

To Whom It May Concern:

I am writing to you regarding my Florida Power and Light (FPL) electric bill. Specifically, I am addressing what I believe to be an improper, grossly inflated and exaggerated fuel assessment. I have enclosed documents to support this contention including (1) FPL electric bills from February 2006 through November 2006 inclusive and (2) two articles regarding oil prices.

I am a day trader and have on-line, immediate access to myriad data regarding oil and natural gas futures and can chart, process and view any kind of data on demand. I have determined over the course of these past months that FPL is abusing its "license" to raise prices in tandem with fuel costs and has gone far beyond the pale in doing so. In fact, I allege, FPL is improperly collecting untold charges in inappropriate assessments in this category.

When oil prices rise, FPL wastes no time and immediately increases its Fuel Charge. During the billing period for which I supplied bills (February 2006 through November 2006), the FPL fuel surcharge did not change. It was \$0.058410 per kilowatt hour for the first 1000 KWH and \$0.068410 for more than 1000 KWH.

- MP _____ It is notable that FPL raised this surcharge immediately as fuel prices escalated
- DM _____ and **despite a recent reduction in the price of oil per barrel of more than 25 percent**, did not reduce it! In fact, FPL claimed in a brochure it included in its
- TR _____ November billing that natural gas makes up 42 percent of the cost of fuel. That is
- CR | more than interesting because between late 2005 to date, **the cost of natural gas**
- CL | **has dropped approximately 50 percent!**
- PC _____ Let's examine what this means. Despite natural gas prices **dropping**
- CA _____ approximately 50 percent, FPL never reduced its fuel surcharge. And when oil
- CR _____ **dropped** 25 percent, it continued to assess its onerous and I believe, "illegal" rate!
- IGA _____ In other words, FPL raises its Fuel Charge immediately as prices increase but
- IEC _____ does not decrease this assessment when appropriate, resulting in overpayment by
- OTH _____ Florida citizens and business of, I imagine, hundreds of millions of dollars!

Before FPL responds or tries to defend these practices, I wish to state for the record that I will not accept as valid an excuse or explanation that FPL buys futures in oil and gas and therefore cannot lower its assessment until those reduced market prices have been reflected over time. Firstly, I think nearly a year is enough time for FPL to lower the Fuel Charge given the enormous drop in natural gas prices. And secondly, I reiterate that virtually overnight FPL raised the Fuel Surcharge when oil rose in price, so by definition of that action it could **NOT** be buying futures. Or, it is acting "illegally." FPL cannot have it both ways. It either is or is not trading in futures.

To sum, the nature of my complaint, therefore, is that FPL is improperly or "illegally" raising and/or maintaining and/or manipulating the Fuel Surcharge at an artificially elevated level.

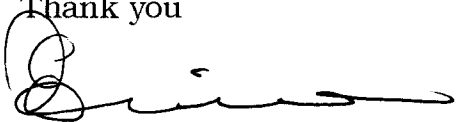

I ask the Commission to investigate these practices and explain to me how and why FPL can continue to levy a Fuel Charge in November 2006 of the same level and magnitude as in February 2006, when **oil prices are 25 percent lower and natural gas prices are 50 percent lower!**

I ask as a remedy the following:

- 1) FPL be made to refund any overcharge to its customers for at least 12 months and apply that sum as a credit to the account
- 2) FPL immediately revise its Fuel Surcharge to accurately reflect current pricing and maintain it at that (appropriate) level
- 3) The Commission issue an order to these effects and make public its findings in this complaint
- 4) The Commission issue to me in writing its decision and explain in detail its findings

I sincerely regret having to file this complaint but FPL's apparent refusal to act responsibly and without prodding makes it necessary. Additionally, I thank the members of the Commission for their due diligence and attention in this urgent matter.

Thank you

EDMUND SCHNEIDER

Brent oil price drops under 59 dollars

Oct 03 10:23 AM US/Eastern

The price of Brent North Sea crude oil has dived to 58.95 dollars, the lowest point in more than seven months.

Brent North Sea crude for November delivery fell 1.50 dollars to 58.95 dollars per barrel in electronic trading Tuesday, a level last seen on February 16, owing to healthy US energy supplies ahead of the northern hemisphere winter, traders said.

Prices were weighed down also by a plan aimed at breaking the deadlock over [Iran's nuclear programme](#), they added.

On Monday, Brent had plunged 2.03 dollars to settle at 60.45 dollars per barrel. It has now lost 25 percent, or almost 20 dollars, since striking a record high of 78.64 dollars on August 7.

Oil boosts stocks

Major gauges turn higher in early trade as investors cheer falling oil prices, upbeat earnings reports.

October 12 2006: 9:37 AM EDT

NEW YORK (CNNMoney.com) -- Stocks popped at the open Thursday after oil prices hit their lowest level of 2006.

The Dow (down 15.04 to 11,852.13, [Charts](#)) gained 0.4 percent in the early going.

The S&P 500 (down 3.47 to 1,349.95, [Charts](#)) index rose 0.4 percent while the tech-fueled Nasdaq composite (down 7.16 to 2,308.27, [Charts](#)) added 0.6 percent.

Stocks fell Wednesday on weaker than expected earnings reports and news that a small plane had hit a New York high rise apartment building. ([Full story.](#))

But all three major gauges turned higher in early trading Thursday after [Oil prices](#) fell to their lowest level this year ahead of the government's weekly report on U.S. fuel inventory, due out at 10:30 a.m. ET.

U.S. light crude was down four cents to \$57.63 a barrel in electronic trading

In corporate news, soft drink and snack company [Pepsico](#) ([Charts](#)) reported earnings per share of 88 cents, up 71 percent from a year earlier and a penny a share better than forecasts of analysts surveyed by earnings track first call.

Wholesale retailer [Costco](#) ([Charts](#)) reported slightly improved results that beat lowered estimates, and also said it doesn't expect to restate results following a review of its stock-option program.

On the economic front, the [trade gap](#) rose to a record level in August. U.S. imports outstripped exports by \$69.9 billion in August, according to the Commerce Department, up from the previous record \$68.0 billion level set in July.

Stocks in [Asia](#) were mixed, with Japan's Nikkei closing slightly lower as indexes in Hong Kong and Australia gained ground. Stocks in [Europe](#) were up in early trading.

[Treasuries](#) rose, lowering the yield on the 10-year note to 4.76 percent from 4.78 percent level they rose to late Wednesday following the release of the [minutes](#) of the latest Federal Reserve meeting, which showed central bank policymakers still concerned about the risk of inflation.

Re: Non Fuel Charges on my FPL statement

Dear Commissioners:

During the past several months I have noticed an alarming increase in my FPL statements and I am very concerned about my bill and the bills of tens of thousand other customers.

I went on line and discovered that FPL and Alliant Energy, a fortune 1000 company and IP & L are selling and merging with FPL which has facilities in 15 states and is a subsidiary of the FPL Group, a company that had \$10 billion in sales and all these Federal Energy Regulators are approving all these mergers and acquisitions at the expense of their customers. Tom Allen, President of IP&L thanked all the regulators for making all this possible. Sure, he should kiss them and tell us what a great golden parachute he received.

Look at the most recent consolidated financials of these company's. They are fat with so much cash and Investments that it is not easy to identify these assets. They are taking advantage of a situation that has long afforded them the utility to buy and sell because of some lobbyists that earn millions of dollars. I would like to know how much money was paid to these lobbyists in the last two years. I would also like to know their names. It's a disgrace that we allow this to happen.

These energy company's need to disclose that the increases are going to increase their cash position and continue to pay large dividends to their stockholders at the expense of charges that are not warranted. After the acquisitions they make poor people pay the interest for the money they borrow to make these acquisitions. After the hurricanes last year weren't they covered by business interruption insurance? Did anyone ask them?

What's wrong with our regulators, with our Commissioners and our Representatives? Did they bite the apple too?

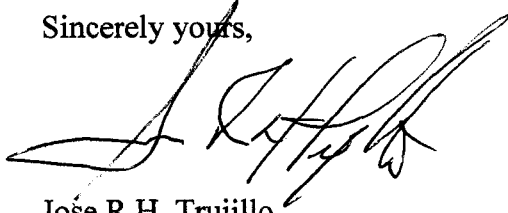

Public Utility Company's that are publicly traded should be like all the others. All publicly traded company's take risk. Why have we in Florida subsidized FPL. Their investors, directors, officers are laughing all the way to the bank.

I am sure that they came armed with elaborate plans on costs, breakeven analysis and reports that swayed the commission. FPL took a page right out of a Hollywood journal and slammed it right down our throat.

Who cares ? No One !

Sincerely yours,

Jose R.H. Trujillo

Comments:

I would like to go on record to complain, about the commission approving the fuel surcharge for FPL. Why should we absorb the cost of fuel for FPL? I absorb the increased cost of fuel, food, medical costs, insurance, etc., etc. and don't have the "Public SERVICE Commission" at my disposal to approve charging my boss to raise my paycheck to cover these ever increasing costs. I just end up with less and less money in my pocket!!!!!! FPL should do the same as every one of us and pay for fuel increases out of their PROFITS!!!! Miami is getting too expensive to live in!!!! Please consider that as the commission takes these decisions. Also, now that gas prices are coming down, why doesn't the commission require FPL to REDUCE the fuel surcharge?

Just my two cents that reflects the anger and frustation of alot of Florida residence.

COMPLAINT INFORMATION

Complaint: Other Complaint against Progress Energy Florida, Inc.

Details:

I understand that Progress Energy's fees are currently being reviewed. I write to plead with you all to help bring us relief from their excessively high fees. I don't mind paying my fair share, but enough is enough. Please help bring Progress Energy under control and being some much needed relief to the hard working people of Florida. Thank for hearing me out!

TO: Timothy J. Devlin, Director, Division of Economic Regulation **DISTRIBUTION:** ECR; GCL

FROM: Peter H. Lester, Economic Analyst, Division of Economic Regulation *PL*

RE: Docket No. 060001-EI, Fuel Cost Recovery Clause and Capacity Cost Recovery Clause
Docket No. 060362-EI, Petition of Florida Power & Light Company To Recover Natural Gas Storage Project Costs Through The Fuel Cost Recovery Clause

Pursuant to Chapter 11.04-13c of the Administrative Procedures Manual, staff requests approval to make seven (7) copies of the following confidential documents:

DOCUMENT DESCRIPTION	DOCUMENT NO.
PEF, Staff's 8 th Interrogatories, Nos. 42 & 43	09553-06
Gulf, Staff's 4 th Interrogatories, No. 16	07834-06
FPL, Staff's 8 th Interrogatories, Nos. 75 & 76	10039-06
TECO, Staff's 6 th Interrogatories, No. 44	09984-06
FPL, Staff's 4 th Interrogatories, No. 22, Staff Data Request No. 8	07866-06
TECO, Late-filed Deposition Exhibit No. 11, Witness Joann Wehle	09986-06

FPL, TECO, Gulf, and PEF provided these documents in response to staff discovery requests in the above-referenced dockets. Staff will need these documents to be part of the record for the upcoming fuel hearing, scheduled for November 6th through the 8th. The documents contain confidential cost information and other confidential information. If necessary to answer questions at the hearing or the following agenda conference, staff will give one copy of the confidential exhibits to each of the following people:

- Chairman Edgar
- Commissioner Deason
- Commissioner Arriaga
- Commissioner Carter
- Commissioner Tew
- Court Reporter
- Office of Public Counsel

6 ccs shredded

Contact: 850-413-6482

Fuel Adjustment Hearings Set for November 6-8

TALLAHASSEE — The five-member Florida Public Service Commission (PSC) will hold its annual fuel hearing beginning Monday, November 6, to consider evidence regarding fuel and purchased power costs of Florida's investor-owned electric utilities. At the end of the hearing, the Commission will determine the 2007 fuel rates for customers of Florida Power and Light Company, Progress Energy Florida, Inc., Tampa Electric Company, Gulf Power Company, and Florida Public Utilities Corporation.

At the hearing, the utilities will present testimony regarding their projected fuel and purchased power costs for 2007. Previous estimates for costs incurred in 2005 and 2006 will also be trued-up to actual. Other parties representing the interests of consumers, such as the Office of Public Counsel, will present their testimony on these same matters.

Immediately following the hearing, the Commission will consider its staff's recommendations and will determine each utility's fuel charges for 2007.

The fuel charge appears on customers' bills separate from other charges. Utilities are allowed to recover only the prudent costs of procuring fuel and purchased power necessary to meet customer demand. The utilities are not allowed to make a profit on fuel purchases.

The hearing will be held at the following date, time, and location:

Monday, Nov. 6 through Wednesday, Nov. 8, 2006

Beginning at 9:30 a.m. on Monday

Betty Easley Conference Center, Room 148
4075 Esplanade Way
Tallahassee, Florida

*Docket
file
060001*

Dear Sir/Madam:

What would it take for the "powers that be" to lower the fuel charge, which is more than double the energy charge?

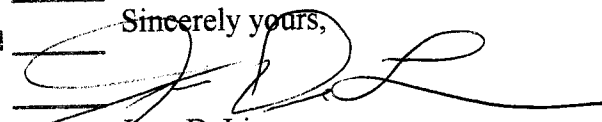

Wouldn't it be wonderful for Florida to set the example of being fair to the consumer and show other states that the Florida Public Service Commission CARES about their customers and have suggested to Progress Energy to do something about this blatant disregard for decency?

THE CHARGES ARE NOTHING SHORT OF ROBBERY AND FRAUD put upon the Floridians. Perhaps this question should have been brought to the table for the political debate the other evening!

I am sure this letter will be put into the circular file, but at least you know we're not stupid enough to believe there is a reasonable explanation for these exorbitant charges.

To Whom it May Concern

FP&L Utility Rates

As a conscientious citizen of the State of Florida my wife and I strive to reduce our use of electric energy whenever we can. Our most recent effort is detailed on the attached page.

It's disappointing to realize our efforts over the past three months achieved a 22 percent reduction in the number of Kilowatt Hours used but we were rewarded with a mere 6 percent in reduction in cost. Meanwhile, FP&L reports a 55 percent increase in earnings for the same quarter.

The FP&L earnings announcement was preceded by a less than generous \$5 a month reduction in future bills. In our case a savings of (\$15) or 3 percent over third quarter charges of \$410.57.

In addition to the inequities stated above is the fact my wife and I also contribute 1/140 of the monthly charges for electric utilities used in the common areas of our condominium.

I recognize the fact FP&L has struggled the previous two years due to costs incurred in connection with active storm seasons. However, those costs are amortized over the next ten or twenty years making the annual costs much less than the overall costs which appeared in headlines around the state last year after Wilma.

MP _____ This letter is intended to demonstrate the inequity between the real reduction in our use
DM _____ of electrical energy and the monthly charges we pay. It would seem a 22 percent
IR _____ reduction in use should result in savings greater than 6 percent.

We wanted to be sure you all were aware that we received an emergency petition for approval of storm cost recovery transition charge from FPL late Friday afternoon. The petition references the closed storm reserve balance docket, 041291-EI. We entered the filing in that docket.

The petition says "it is urgent that this matter be addressed as part of the hearings scheduled for November, 6, 7, and 8, 2006."

We have copies of the petition if you need them prior to the hearing Monday morning. Just stop by Room 110 Easley for copies.

Kay

Please note: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and to the media upon request. Subject: Fuel Charges Set For Electric Utilities

A news release has been distributed today, 11/08/06, and is now available on the PSC website:

<http://www.psc.state.fl.us/home/news/index.aspx?id=187>

State of Florida
**Public Service
Commission**
NEWS RELEASE

11/8/2006

Contact: 850-413-6482

Fuel Charges Set For Electric Utilities

TALLAHASSEE — On November 8, the Florida Public Service Commission (PSC) set the 2007 fuel adjustment charges for the customers of Florida investor-owned electric utilities. The fuel adjustment charges were decided at a hearing where the Commission considered each utility's projected costs of fuel and purchased power for 2007 as well as "trued up" costs for 2005 and 2006. The fuel charge appears on customer bills separate from other charges. Utilities are allowed to recover only the prudent costs of procuring fuel and purchased power necessary to meet customer demand. The utilities are not allowed to make a profit on fuel purchases.

The fuel adjustment charges for residential customers starting with the first billing cycle in January 2007 are:

- **Florida Power & Light Company:** The residential fuel charge will be 5.420 cents per kwh for the first 1,000 kwh and 6.420 cents per kwh for all additional usage. Based on the new fuel charges, the total monthly electric bill for residential customers using 1,000 kwh will be \$103.51.
- **Progress Energy Florida, Inc.:** The residential fuel charge will be 4.798 cents per kwh for the first 1,000 kwh and 5.798 cents per kwh for all additional usage. Based on the new fuel charges, the total monthly electric bill for residential customers using 1,000 kwh will be \$110.34.
- **Tampa Electric Company:** The residential fuel charge will be 5.922 cents per kwh. Based on the new fuel charges, the total monthly electric bill for residential customers using 1,000 kwh will be \$114.54.
- **Gulf Power Company:** The residential fuel charge will be 3.959 cents per kwh. Based on the new fuel charges, the total monthly electric bill for residential customers using 1,000 kwh will be \$101.87.
- **Florida Public Utilities (Marianna):** The residential fuel charge will be 4.420 cents per kwh. Based on the new fuel charges, the total monthly electric bill for residential customers using 1,000 kwh will be \$70.29.
- **Florida Public Utilities (Fernandina):** The residential fuel charge will be 5.170 cents per kwh. Based on the new fuel charges, the total monthly electric bill for residential customers using 1,000 kwh will be \$77.98.

FPL's quarterly profit up 55%

BY JOSEPH MANN
BUSINESS WRITER

FPL Group Inc., the parent of Florida Power & Light Co., on Monday said it earned a net profit of \$524 million in the third quarter of the year, up a 55 percent from the same period last year.

Through the end of September, the group's profit totaled more than \$1 billion, 14 percent higher than the \$885 million the corporation made during all of 2005.

For stockholders, the profit growth helps the company sustain its stock price and quarterly dividend, but it won't mean lower customer electric bills.

"I guess I should run out and buy some of their stock," Boynton Beach resident Sol Lefkowitz said when he heard that FPL Group's profit was more than \$1 billion so far this year.

"They ought to lower their rates and give some of their money back to the consumer."

Lefkowitz said the monthly electric

Regulators to evaluate FPL fuel-charge requests

State regulators will begin three days of hearings in Tallahassee on Monday on 2007 fuel charges proposed by Florida Power & Light Co. and other investor-owned electric utilities in Florida.

With prices falling for natural gas and fuel oil, which are used to generate electricity, FPL recently filed new estimates on fuel costs for 2007 with the Public Service Commission. FPL expects lower fuel costs to cut average monthly bills by nearly 5 percent — or about \$6.01 — starting in January.

At the same time, FPL wants to charge customers \$10 million in costs related to a natural gas storage project, a move opposed by the state's consumer advocate. The PSC is expected to rule on both issues next week.

Comments:

I vigorously opposed the approximately \$5.00 per month to be added on to the TECO electric bills in Hillsborough County. This company is making huge profits at our expense.

November 15, 2006

Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

Subject: Commission Regulation, Monitoring, and Oversight Responsibilities

The Public Service Commission's role is to ensure that Florida's consumers receive basic, most essential services — electric, natural gas, telephone, water, and wastewater — in a safe, affordable, and reliable manner. Based on the sharp increase in electric utility rates and the capriciousness of reliable power in many parts of Florida over the past year, I feel the Commission, as a whole, has failed to meet its responsibilities to Florida's consumers in regulating base rate economics, monitoring reliability and service, and providing competitive market oversight.

This is no more evident than with FPL where profits have increased, reliability and service declined, and competitive market forces do not exist, except with regard to stock prices. The company in my opinion is operating virtually unchecked with no competitive restraints in a time of consumer economic hardship. In my case, utility bills have almost doubled, in spite of efforts to conserve, including installing a new compressor. I am now paying upwards of \$500 a month for electricity in a 1525 sq. ft. house, in spite of not running the air during the day. I experience regular power outages because of problem trees in the right of way, which have not been removed. I have had to replace two air conditioners at a cost of over \$2500 because of the power surges (in spite of having a 5 minute delay switch on the unit

I am retired on a fixed income and cannot afford to subsidize FPL shareholders, inefficient operations, and fat executive salaries. I have had to take money from my savings and increase the deductible on my health insurance just to be able to afford to keep the air on at night. This in my opinion amounts to nothing less than "legal" extortion.

CMP _____ There is no justification or excuse in my opinion for FPL rates or the apparent lack of regulation, monitoring, and oversight by the PSC. FPL is not providing affordable and reliable power to
COM _____ consumers. In my opinion, they have lost sight of their responsibility to consumers, and the PSC
CTR _____ has lost sight of its role and responsibility with regard to regulation, monitoring and oversight. It
ECR 1 is time the Public Service Commission did something about it.

Commission**
NEWS RELEASE

12/8/2006

Contact: 850-413-6482

**Natural Gas Storage Plan Will Improve Reliability for FPL
Customers**

TALLAHASSEE — As part of the annual fuel proceeding, the Public Service Commission (PSC) has approved the recovery of a portion of the costs associated with Florida Power & Light Company's (FPL) participation in the MoBay Gas Storage Facility that will begin operations in 2008. FPL's participation is a forward-looking effort to address potential fuel supply disruptions. Customers will benefit from the reduced risk of fuel-related outages.

FPL will become an anchor tenant of the MoBay Gas Storage Hub in Mobile County, Alabama, that is to be built and operated by Falcon Gas Storage, Inc. With this stored gas, FPL will be able to operate its gas-fired plants for up to five days if traditional fuel supply sources are interrupted. The PSC anticipates that this storage capacity will substantially improve FPL's ability to withstand disruptions to the Gulf of Mexico gas production facilities, like those seen during the 2005 hurricane season.

Chairman Lisa Polak Edgar stated, "It is the responsibility of the regulated utilities to be creative and forward-thinking on behalf of the state and their customers."

The PSC did not approve recovery in fuel rates of the carrying charges associated with the gas inventory. Before authorizing recovery from customers, the PSC will examine project related expenses to ensure that only prudently incurred costs are recouped.

Subject: Please remove from service list if applicable

1power Communications Corp. has withdrawn from Florida.

We would like to be certain it is **no longer on any service lists**, in particular, the **OSS docket, Doc. 000121A-TP**, where we continue to receive some filings, addressed as follows:

David Woodsmall
1power Communications Corp.
75 Sully's Trail, #300
ittsford, NY 14534

We would very much appreciate any assistance you can give us in **removing** us from the service list. Thank you very much.
Marilyn Ash, (former address, above)

DOCUMENT NO. 03350-07

DISTRIBUTION: _____

DATE: February 7, 2007

TO: Dan Hoppe, Director, Division of Regulatory Compliance and Consumer Assistance

FROM: Ann Cole, ^{AC} Chief, Division of the Commission Clerk & Administrative Services

RE: Docket No. 060001-EI - Fuel and purchased power cost recovery clause with generating performance incentive factor.

Pat Pottle with the Ausley Law Firm notified the Clerk's Office yesterday that a redacted document filed May 18, 2006, on behalf of Tampa Electric Company, may contain some confidential material. The Document in question is Document No. 04368-06 in Docket No. 060001-EI, which are work papers prepared in connection with a pending staff audit, Audit No. 06-046-2-1.

The Ausley Law Firm would like to view the companion Confidential Document, Document No. 04368-06, and compare it to the redacted version. The redacted version was removed from the website yesterday afternoon and placed in confidential lock-up pending further instructions.

A request for confidential classification of the redacted document may be filed after review of the above-mentioned documents.

Pursuant to Section 119.07(1), F.S., any person may file a petition to inspect and examine material, which has been filed with the Commission as confidential, pursuant to Section 364.183(1), F.S.

Please sign and date in the space provided below to indicate your approval of Tampa Electric Company's request.

Subject: PDF DN 04368-06

Benji,

can you manually remove PDF DN 04368-06 from the web site. Ausley Law Firm believes that there is some confidential pages in the filing, so we are taking the file out of the PDF folder until things are cleared up...i put the PDF DN (04368-06) in the i:/drive/filings-temporary.

we are still keeping the hard copy in the public docket file for now.

thanks,

Marguerite.

Subject: Return of Confidential Documents

Patsy,

i'm returning confidential documents, per the responses to the 3rd quarterly confidential report. There are 2 confidential documents, DNs 07866-06 and 08467-06 that are in 2 dockets, Docket Nos. 060001-EI and 060362-EI. For one of the dockets, it's marked to retain these 2 documents and on the other docket, it's marked to return them. Please clarify as to which action is correct.

thanks,

Marguerite.
