TAMPA ELECTRIC COMPANY'S MOTION FOR TEMPORARY PROTECTIVE ORDER

Tampa Electric Company ("Tampa Electric" or "the company"), pursuant to Section 366.093, Fla. Stat. and Rule 25-22.006(6)(c), Florida Administrative Code, moves the Commission for a Temporary Protective Order relative to certain information Tampa Electric is providing to the Office of Public Counsel ("OPC") and, as grounds therefor, says:

- 1. In Order No. PSC-04-0999-FOF-EI issued in Docket No. 031033-EI on October 12, 2004 the Commission required Tampa Electric in advance of any future RFP for coal transportation services to provide the Commission with a proposal of an alternative regulatory mechanism to be adopted if the RFP process does not produce competitive bids.
- 2. Tampa Electric has prepared and is meeting with Staff and parties to this proceeding on April 30, 2007 to discuss, among other things, the alternative regulatory mechanism or "proxy" Tampa Electric has developed in response to the above-referenced order. The confidential proxy information is contained in an 11 page document entitled "Tampa Electric Company Procurement of Solid Fuel Transportation Services 2009-2013" dated April 30, 2007, with the confidential information highlighted in yellow or printed on yellow paper stock.
- 3. The proxy information contains proprietary confidential business information based on market research performed by Tampa Electric. The information in question includes

DOCUMENT NUMBER - DATE

03619 APR 30 8

bids provided by a number of bidders in response to a request for quotation made on behalf of Tampa Electric. Disclosing the bidders prices would disclose to other potential transportation suppliers the market price information and methodology used to determine that information that Tampa Electric has developed. This would enable other potential transportation supplier to submit bids for transportation services to Tampa Electric that are higher than the potential bidders might otherwise have submitted without the specific information developed by Tampa Electric. This would be harmful to Tampa Electric's customers in that they would be paying more for coal transportation services than they might otherwise have been required to pay had this information not been made public.

- 4. Tampa Electric is supplying Office of Public Counsel with a single confidential version of the proxy information referred to herein with the sensitive proprietary confidential business information highlighted in yellow.
- 5. Tampa Electric Company treats the confidential information in question as confidential and has not disclosed it publicly.

WHEREFORE, Tampa Electric Company moves the Commission for entry of a temporary protective order protecting as confidential proprietary business information and exempt from public records disclosure the yellow highlighted information contained in the market proxy documents entitled "Tampa Electric Company Procurement of Solid Fuel Transportation Services 2009-2013" dated April 30, 2007, and supplied to OPC at the April 30, 2007 meeting between Staff and parties in the above proceeding.

DATED this 30 day of April 2007.

Respectfully submitted,

ČEE L. WILLIS

JAMES D. BEASLEY
