Subject: Explanation of New Coal Language in USCAP Report

Ray,

As you know, I am Tim Mealey, Senior Partner of the Meridian Institute, primary facilitators for the U.S. Climate Action Partnership. Meridian is responsible for preparing the USCAP Call for Action report on behalf of the USCAP member companies.

Michael Wilson has asked me to convey to you the precise dates the USCAP approved the revised language on New Coal-based Energy Facilities and Other Stationary Sources.

The USCAP Call for Action document was issued originally on January 22, 2007. The document was revised and re-issued by USCAP on February 9, 2007. Other than adding new members to the list of companies and non-governmental organizations to the list of USCAP Members in the report, no further revisions have been made as of the date of this email.

Please let me know if you have any other questions or information needs.

Tim Mealey
