### Case Background

On November 7, 2007, Florida Power and Light Company (FPL) filed a petition for Commission approval of a negotiated contract for the purchase of firm capacity and energy, as well as "Green Attributes," from Manatee Green Power, LLC (Manatee). The agreement was signed October 31, 2007. Under the contract, Manatee will deliver firm capacity of 5.25 MW beginning January 1, 2009 for a term of 15 years. The facility will use landfill gas from the Lena Road Landfill in Manatee County, Florida for fuel. Planning by Manatee includes the installation and operation of the facility by December, 2008, in order to be eligible for federal tax credits.
